Francesco De Martino, Carmen Morenilla Talens

De Chirico and the Mediterranean Giorgio De Chirico, 1998 The Greek-born Italian painter Giorgio de Chirico is a master of metaphysical painting. This fully illustrated catalogue presents de Chirico's work in relation to the world and myths of classical antiquity.

De Chirico Giorgio De Chirico, 1996 Giorgio de Chirico (1888-1978) is widely regarded as one of the masters of 20th century art. The originator of Metaphysical Painting, and precursor of the Surrealists, de Chirico was born in Volos, Greece, studied at the Academy of Fine Arts in Munich, and was initially influenced by Bocklin and Klinger. However he soon developed his own distinctive style, producing the first of his 'enigmatic' paintings in Italy around 1910. De Chirico's early works evoked an uneasy atmosphere through their use of strange perspectives, illogical shadows and open spaces, and he developed a theory of 'metaphysical insight' which located familiar objects in essentially mysterious relationships. In de Chirico's oeuvre a naturalistic vision always alternates, like waking and sleeping or dreaming, with another vision presenting abnormal forms and situations. If de Chirico's first period of Metaphysical painting between 1910 and 1918 - remains his most celebrated, and has provided us with some of his most memorable images, it is also true that his later Metaphysical period was also a time of intense creativity and evocative art-making. But this period is his least well known. De Chirico moved on from his baroque and romantic paintings of the Forties and Fifties - works which diminished his standing among a number of art critics - to a 'new' Metaphysical period which related strongly to the rich, early phase of his work. This book is a celebration of that period in de Chirico's career, and evaluates not only his paintings, but also the mythic and symbolic sculptures produced at this time. *De Chirico: The New Metaphysics* is an essential resource for any reader interested in appreciating de Chirico's unique contribution to 20th century art.

Troiane classiche e contemporanee Francesco Citti, Alessandro Iannucci, Antonio Ziosi, 2017-11-01 Il mito fondativo della caduta di Troia, nel suo passaggio dall'epos al teatro, ha dato origine a due tra le tragedie più commoventi e perturbanti della letteratura classica. Le Troiane di Euripide e di Seneca mettono in scena, infatti, il dramma della guerra - e quello ancor più spietato dei postumi della guerra - dalla prospettiva di chi è sconfitto due volte: le donne e gli innocenti, vittime sia

della morte (dei mariti, dei padri, dei figli), sia della vita, che li costringe a sopportare ulteriore violenza, morte e schiavitù. I saggi raccolti in questo volume analizzano diversi aspetti letterari delle due tragedie ed esplorano snodi fondamentali della loro ricezione e della loro fortuna critica: dal momento della riscoperta delle forme tragiche nel rinascimento europeo all'arte moderna e contemporanea, dalle riletture cinematografiche alle messe in scena del teatro contemporaneo, fino all'analisi dei testi alla luce delle moderne categorie dei Trauma Studies. The foundational myth of the fall of Troy, in its movement from epic to drama, has given rise to two of the most moving and unsettling tragedies of classical literature. The Trojan Women by Euripides and by Seneca stage the tragedy of war – and its even more ruthless aftermath – from the perspective of its victims, women and innocent children, who are defeated both by death (the death of husbands, sons, fathers) and by life itself, which forces them to suffer further violence, further death and slavery. The essays collected in this volume analyse different literary aspects of the two plays and explore pivotal moments in their reception and their critical assessment. They range from the rediscovery of tragic forms in the European Renaissance to modern and contemporary art, from cinema to contemporary theatre performances, even up to textual analysis in the light of Trauma Studies theory.

Ripensare Alvaro AA.VV., 2021-10-26T00:00:00+02:00 Ripensare Alvaro, come ci aiutano a capire i saggi presenti in questo volume – dove si considerano aspetti, di solito ignorati o considerati secondari, come il suo muoversi tra Aspromonte ed Europa, i suoi legami con scrittori della sua terra e grandi intellettuali organizzatori di cultura nazionale, la sua incisiva presenza nel teatro, nella radio, come nel cinema e nelle grandi questioni del suo tempo – significa abbandonare ogni pigrizia intellettuale, rinunciare a mitologie e a retoriche identitarie, farsi guidare dalla potenza e dalla forza, dall'etica, di una scrittura letteraria raffinata ed elegante, che era insieme originale etnografia, ricerca e salvaguardia per il futuro di mondo scomparso, memorie e vita, antropologia delle genti di Calabria e del Sud Italia, che vanno inseriti in quella nazione italiana, Mediterraneo e in quell'Europa alle quali egli sentiva, con convinzione, di appartenere. Forse questa Calabria e questa Italia e questa Europa, sempre più sconosciute a se stesse, desacralizzate, giunte alla fine di un lunga storia, hanno bisogno di inventare un senso di comunità e di ritrovare un'anima anche a partire da autori come Alvaro.

Aspects of the Secular Cantata in Late Baroque Italy Michael Talbot, 2017-07-05 As shown by the ever-increasing volume of recordings, editions and performances of the vast repertory of secular cantatas for solo voice produced, primarily in Italy, in the second half of the seventeenth century and the first half of the eighteenth century, this long neglected genre has at last 'come of age'. However, scholarly interest is currently lagging behind musical practice: incredibly, there has been no general study of the Baroque cantata since Eugen Schmitz's handbook of 1914, and although many academic theses have

examined microscopically the cantatas of individual composers, there has been little opportunity to view these against the broader canvas of the genre as a whole. The contributors in this volume choose aspects of the cantata relevant to their special interests in order to say new things about the works, whether historical, analytical, bibliographical, discographical or performance-based. The prime focus is on Italian-born composers working between 1650 and 1750 (thus not Handel), but the opportunity is also taken in one chapter (by Graham Sadler) to compare the French cantata tradition with its Italian parent in association with a startling new claim regarding the intended instrumentation. Many key figures are considered, among them Tomaso Albinoni, Giovanni Bononcini, Giovanni Legrenzi, Benedetto Marcello, Alessandro Scarlatti, Alessandro Stradella, Leonardo Vinci and Antonio Vivaldi. The poetic texts of the cantatas, all too often treated as being of little intrinsic interest, are given their due weight. Space is also found for discussions of the history of Baroque solo cantatas on disc and of the realization of the continuo in cantata arias - a topic more complex and contentious than may at first be apparent. The book aims to stimulate interest in, and to win converts to, this genre, which in its day equalled the instrumental sonata in importance, and in which more than a few composers invested a major part of their creativity.
