**Dōgen's texts** Ralf Müller, George Wrisley, 2023-12-07 This book addresses the question of how to properly handle Dōgen's texts, a core issue that became critical during the Meiji period in which the philosophical appropriation of Dōgen became apparent inside and outside of the monastery. In present day Dōgen studies, most scholarship is informed by a number of factions representing Dōgen. The chapters herein address: the Zennist (j. zenjōka) emphasising practice, the Genzōnians (j. genzōka) shifting the attention to the close reading of Dōgen's texts, the laity movement opening up both the texts and the practice to people in modern society, and the Genzō researchers (j. genzō kenkyūka) searching for the authenticity and truth of Dōgen's writings. The book aims to clarify the rightful place of Dōgen: in the monastery, in denominational studies, or in modern academic philosophy? It brings forth various viewpoints on Dōgen, and analyzes the relations of these viewpoints from the premodern to modern times. The collected volume appeals to students and researchers in the field while establishing hermeneutic standards of reading and proposing new, original, and critical interpretations of Dōgen's texts. *Deep Thought* Gary Cox,2015-10-22 Gary Cox guides us through 42 of the most misunderstood, misquoted, provocative and significant quotes in the history of philosophy providing a witty and compelling commentary along the way. This entertaining and illuminating collection of quotes doesn't merely list who said what and when, it explores who each philosopher is and what he or she really meant when they said what they said. Viewing each quote as a philosophical thesis in itself, Cox probes the writings of everyone from Douglas Adams to A.J. Ayer and Thomas Aquinas to Karl Marx. This is a philosophical journey through history, culture and writing to bring us to a deeper understanding of why we think the way we

do. As Douglas Adams points out, if there is no final answer to the question, 'What is the meaning of life?', '42' is as good or bad an answer as any other. Here Cox shows that 42 quotes might be even better!
