**A to Zoo** Rebecca L. Thomas,2018-06-21 Whether used for thematic story times, program and curriculum planning, readers' advisory, or collection development, this updated edition of the well-known companion makes finding the right picture books for your library a breeze. Generations of savvy librarians and educators have relied on this detailed subject guide to children's picture books for all aspects of children's services, and this new edition does not disappoint. Covering more than 18,000 books published through 2017, it empowers users to identify current and classic titles on topics ranging from apples to zebras. Organized simply, with a subject guide that categorizes subjects by theme and topic and subject headings arranged alphabetically, this reference applies more than 1,200 intuitive (as opposed to formal catalog) subject terms to children's picture books, making it both a comprehensive and user-friendly resource that is accessible to parents and teachers as well as librarians. It can be used to identify titles to fill in gaps in library collections, to find books on particular topics for young readers, to help teachers locate titles to support lessons, or to design thematic programs and story times. Title and illustrator indexes, in addition to a bibliographic guide arranged alphabetically by author name, further extend access to titles.

Talking, Drawing, Writing Martha Horn, Mary Giacobbe, 2023-10-10 In the early grades, talking and drawing can provide children with a natural pathway to writing, yet these components are often overlooked. In *Talking, Drawing, Writing: Lessons for Our Youngest Writers*, authors Martha Horn and Mary Ellen Giacobbe invite readers to join them in classrooms where they listen, watch, and talk with children, then use what they learn to create lessons designed to meet children where they are and lead them into the world of writing. The authors make a case for a broader definition of writing, advocating for formal storytelling sessions, in which children tell about what they know, and for focused sketching sessions so that budding writers learn how to observe more carefully. The book's lessons are organized by topic and include oral storytelling, drawing, writing words, assessment, introducing booklets, and moving writers forward. Based on the authors' work in urban kindergarten and first-grade classes, the essence and structure of many of the lessons lend themselves to adaptation through fifth grade. The lessons follow a consistent format: What's going on in the classroom? What do children need to learn next? Materials needed to teach the lesson Language used in each lesson Reasons behind why certain books are chosen and suggestions for additional children's books The authors show the thinking behind their teaching decisions and provide a way to look at and assess children's writing, giving us much more than a book of lessons; they present a vision of what beginning writing can look and sound like. Perhaps most powerfully, they give us examples of the language they use with children that reveal a genuine respect for and trust in children as learners.

*American English Primary Colors 6 Teacher's Book* Diana Hicks, Andrew Littlejohn, 2008-04-14 *American English Primary Colors* is a new 6-level course for young learners from six to eleven years old.
