Muslims in America Craig Considine,2018-07-11 This installment in the critically acclaimed Contemporary Debates series uses evidence-based documentation to provide a full and impartial examination of beliefs and claims made about Muslim individuals, families, and communities in the United States. Muslims in America: Examining the Facts provides an objective overview of the realities and experiences of Muslims in the United States, both historically and in the present day, and of their relationship with their fellow Americans. It surveys the history of American Muslims' settlement and integration into the United States; explores the dominant social, political, cultural, and economic characteristics of American Muslim families and communities; and studies the ways in which their experiences and beliefs intersect with various notions of American national identity. In the process, the book critically examines the more dominant social and political narratives and claims surrounding American Muslims and their religion of Islam, including false or malicious claims about their attitudes toward terrorism and other important issues. Muslims in America: Examining the Facts thus gives readers a clear and accurate understanding of the actual lives, actions, and beliefs of Muslim people in the United States.

The Torch Bro. Mishaal Talib Mahfuz El Bey,2020-11-23 What is the S.E.L.F.? The S.E.L.F. is the sacred eternal life force, which is the spark that in turn gives birth to the S.O.U.L, which is the space of unlimited light. There is no man above or beneath in essence, however, there are those great Avatars who willingly descend into this Third Density for a Five-Fold Purpose: To Elevate, To Protect, To Inform, To Uplift, and To Inspire. This work was compiled for the sole purpose of helping cleanse the "Throne of God," which is your consciousness that is housed and functions via your beautiful Mind, Body, and Soul. This is not an attempt to convince or condemn anyone nor anything, except the falsehood which are the results of lower-self vibratory frequency. Love cannot be destroyed, Truth cannot be hidden, Peace cannot be disturbed, Freedom won't be caged, and Justice finds All. Wa Alaikum As Salaam and Honors to the Prophet, Sheik Shariff Abdul Ali. The Fair and Equitable Treatment (FET) Standard in International Investment Arbitration Rumana Islam,2018-09-18 This book presents comprehensive information on a range of issues in connection with the Fair and Equitable Treatment (FET) standard, with a particular focus on arbitral awards against host developing countries, thereby contributing to the available literature in this area of international investment law. It examines in detail the interpretation of

the FET standard of key arbitral awards affecting host developing countries, demonstrating the full range of interpretation approaches adopted by the current investment tribunals. At the same time, the book offers valuable practical guidance for counsels/scholars representing host developing countries in investment arbitration, where balancing the competing interests of the foreign investors and the host developing countries in investment disputes poses a complex challenge. The book puts forward the pressing need for a re-conceptualized interpretation of the FET standard in tune with the developmental issues and challenges faced by host developing countries, recognizing these countries' particular perspectives as an important and relevant aspect of investment disputes (often ignored by the current investment tribunals), while continuing to ensure reasonable protections for foreign investors and therefore serving the needs of the system as whole. The findings presented here will greatly benefit host developing countries engaged in investment arbitration. In addition, the book offers an insightful guide for all researchers whose work involves investment law and investment arbitration issues.

Ridefinizione Sinocentrismo DON MARIO BIFFI, 2019-06-11 La certezza che il Paese del Centro abbia da giocare un ruolo di riferimento a livello globale è radicata nello spirito cinese, nella sua insigne tradizione culturale e nel senso di appartenenza delle sue genti. Ed è iscritta a chiare lettere nei rapporti che la Cina coltiva con gli altri attori internazionali. Partendo da questa constatazione e dalla considerazione ermeneutica del contesto più ampio – la filosofia e il pensiero politico, la tradizione normativa, l'identità del popolo cinese e le particolari vicende della sua relazione con l'esterno – l'autore sintetizza l'esperienza storica della diplomazia cinese, i suoi principi e le sue prassi. Si rivelano, così, le radici di una marcata originalità: impossibile da ridurre al semplice calcolo politico, la peculiarità della diplomazia cinese risulta, piuttosto, legata ad una differente impostazione, ad una differente sensibilità e, in definitiva, ad una diversa idea del mondo e delle sue dinamiche relazionali. L'analisi degli scambi con la Santa Sede – soggetto a sua volta peculiare nel panorama diplomatico – offre, infine, la possibilità di una verifica applicativa della prospettiva avanzata.

Regional Trade Agreements David A. Gantz, 2009 The proliferation of regional trade agreements (RTAs) is one of the most economically significant, politically important and, for some, troubling developments within the world trading system since the WTO Agreements entered into force in 1995. The WTO Secretariat has predicted that by 2010 nearly 400 such preferential trade agreements could be in force, with many WTO Member States being party to multiple RTAs. This movement toward increased regionalism may accelerate if the Doha Development Round of WTO negotiations remains stalemated, but will likely continue regardless of whether Doha is ultimately concluded. This volume is designed to introduce the reader to the world of RTAs, for general understanding of the place of RTAs in the global trading system, appreciation of the context and legal content of particular RTAs, and as a basis for further study and analysis. (An extensive bibliography and list of Internet links are included.) Part I discusses the economic, policy and developmental issues arising from regionalism, and then considers the WTO legal regime as it affects and is affected by RTAs. The focus there is on free trade agreements

(FTAs) and customs unions (CUs) regulated by Article XXIV of GATT 1994 or Article V of the General Agreement on Trade in Services, and on efforts within the WTO regime to minimize the negative effects of such departures from the core GATT/WTO principle of non-discrimination (most-favored nation treatment). Part II discusses the multiple FTAs concluded by the United States with various trading partners since 1985, beginning with an analysis of the political, legal and policy considerations that affect the United States' ability to conclude international trade agreements. Extensive coverage is given to the North American Free Trade Agreement (NAFTA) and to the Central American -- Dominican Republic -- United States FTA (CAFTA-DR). NAFTA is important because it represents by far the largest trade volume generated under any U.S. FTA, and because it has become the model for most subsequent U.S. FTAs, as well as many concluded by other nations. CAFTA-DR embodies legal changes reflecting ten years' experience under NAFTA. It also exemplifies the increasing use of FTAs by the United States as a mechanism for encouraging economic development, democratic institutions and the rule of law. Analysis at varying levels of detail is provided for all other U.S. FTAs, including those with Colombia, Panama and Korea, for which Congressional approval is pending, and for the unique bilateral trade agreement with Vietnam. Part III analyzes five other important RTAs: The European Union (EU), Central American Common Market, MERCOSUR, South African Customs Union, and ASEAN FTA. These diverse accords each play an important role in the intra-regional political and economic relations of the parties, and exemplify a broad range of ambitious approaches to expanding intra-regional trade and commerce on four continents. The EU is likely the most successful RTA in history, and serves as a model for other CUs, including those discussed in Part III. Like globalization, the RTA phenomenon is here to stay. WTO member government officials, international practitioners and law students aspiring to careers in international trade law must learn to deal effectively with the challenges and opportunities presented by such agreements. *Regional Trade Agreements: Law, Policy and Practice* makes a useful contribution to existing literature and will be particularly helpful to governmental officials, academics, practitioners, and postgraduate students wishing to learn more about the how and what of RTAs. Readers searching for information about a particular agreement can gain knowledge and understanding by reading a single chapter dealing with a particular agreement, but reading the entire book will allow the reader to more fully benefit from both the insight and experience of the author as well as to fully understand the interplay between politics, economics, and law in the RTA negotiating and implementation process. -- *World Trade Review* By presenting a comprehensive introduction both to RTAs in general, and by providing comprehensive introductions to many RTAs that are in force throughout the world today, Professor Gantz has written a text that should be used by both practitioners and students who wish to gain an understanding of RTAs and their relationship with international trade and foreign relations. -- *Trade, Law and Development* Gantz expertly weaves economic and political considerations into his legal analysis.... *Regional Trade Agreements: Law, Policy and Practice* makes a useful contribution to existing literature and will be particularly helpful to governmental officials, academics, practitioners,

and postgraduate students wishing to learn more about the how and what of RTAs. -- The Journal of World Trade Review
