Kids Get Rich G&G Plytas,2019-02-12 Financial literacy and planning are more important than ever, and much of what we need to know to be successful is never taught in school. Children often grow up without a sound understanding of their own finances, leaving them unprepared as they enter adulthood. But there is another way. - You can teach them. This book is a guide for parents on how to teach their kids to develop a mindset of success, personal resiliency and to implement common sense saving strategies to build personal wealth. Using easy to follow principles and age-specific activities, it covers both the theory and practice of building financial literacy, from the first time children experience money to when they venture off as young adults. Learn how to teach your children the smart way to save, invest, and think about money to give them a head start to financial success.

Low-Wage Work in the Wealthy World Jerome Gautie,John Schmitt,2010-03-01 As global flows of goods, capital, information, and people accelerate competitive pressure on businesses throughout the industrialized world, firms have responded by reorganizing work in a variety of efforts to improve efficiency and cut costs. In the United States, where minimum wages are low, unions are weak, and immigrants are numerous, this has often lead to declining wages, increased job insecurity, and deteriorating working conditions for workers with little bargaining power in the lower tiers of the labor market. *Low-Wage Work in the Wealthy World* builds on an earlier Russell Sage Foundation study (*Low-Wage America*) to compare the plight of low-wage workers in the United States to five European countries—Denmark, France, Germany, the Netherlands, and the United Kingdom—where wage supports, worker protections, and social benefits have generally been

stronger. By examining low-wage jobs in systematic case studies across five industries, this groundbreaking international study goes well beyond standard statistics to reveal national differences in the quality of low-wage work and the well being of low-wage workers. The United States has a high percentage of low-wage workers—nearly three times more than Denmark and twice more than France. Since the early 1990s, however, the United Kingdom, the Netherlands, and Germany have all seen substantial increases in low-wage jobs. While these jobs often entail much the same drudgery in Europe and the United States, quality of life for low-wage workers varies substantially across countries. The authors focus their analysis on the inclusiveness of each country's industrial relations system, including national collective bargaining agreements and minimum-wage laws, and the generosity of social benefits such as health insurance, pensions, family leave, and paid vacation time—which together sustain a significantly higher quality of life for low-wage workers in some countries. Investigating conditions in retail sales, hospitals, food processing, hotels, and call centers, the book's industry case studies shed new light on how national institutions influence the way employers organize work and shape the quality of low-wage jobs. A telling example: in the United States and several European nations, wages and working conditions of front-line workers in meat processing plants are deteriorating as large retailers put severe pressure on prices, and firms respond by employing low-wage immigrant labor. But in Denmark, where unions are strong, and, to a lesser extent, in France, where the statutory minimum wage is high, the low-wage path is blocked, and firms have opted instead to invest more heavily in automation to raise productivity, improve product quality, and sustain higher wages. However, as *Low-Wage Work in the Wealthy World* also shows, the European nations' higher level of inclusiveness is increasingly at risk. Exit options, both formal and informal, have emerged to give employers ways around national wage supports and collectively bargained agreements. For some jobs, such as room cleaners in hotels, stronger labor relations systems in Europe have not had much impact on the quality of work. *Low-Wage Work in the Wealthy World* offers an analysis of low-wage work in Europe and the United States based on concrete, detailed, and systematic contrasts. Its revealing case studies not only provide a human context but also vividly remind us that the quality and incidence of low-wage work is more a matter of national choice than economic necessity and that government policies and business practices have inevitable consequences for the quality of workers' lives. A Volume in the Russell Sage Foundation Case Studies of Job Quality in Advanced Economies

Malignant S. Lochlann Jain, 2013-10-15 Cancer can kill: this fact makes it concrete. Still, it's a devious knave. Nearly every American will experience it up-close and all too personally, wondering why the billions of research dollars thrown at the word haven't exterminated it from the English language. Like a sapper diffusing a bomb, Jain unscrambles the emotional, bureaucratic, medical, and scientific tropes that create the thing we call cancer. Scientists debate even the most basic facts about the disease, while endlessly generated, disputed, population data produce the appearance of knowledge. Jain takes the vacuum at the center of cancer seriously and demonstrates the need to understand cancer as a set of relationships--

economic, sentimental, medical, personal, ethical, institutional, statistical. Malignant analyzes the peculiar authority of the socio-sexual psychopathologies of body parts; the uneven effects of expertise and power; the potentially cancerous consequences of medical procedures such as IVF; the huge industrial investments that manifest themselves as bone-cold testing rooms; the legal mess of medical malpractice law; and the teeth-grittingly jovial efforts to smear makeup and wigs over the whole messy problem of bodies spiraling into pain and decay. Malignant examines the painful cognitive dissonances produced by the ways a culture that has relished dazzling success in every conceivable arena have twisted one of its staunchest failures into an economic triumph. The intractable foil to American achievement, cancer hands us -- on a silver platter and ready for Jain's incisively original dissection -- our sacrifice to the American Dream--

Money Matters: Get Your Life and \$\$\$ Sorted Amanda Morrall, 2013-01-30 My philosophy towards personal finance is that you need to give as much care and attention to your inner wealth and well-being as you do to your budget, spending habits, savings account and net worth. When you get the two areas working in tandem, that's where you'll find your personal financial flow. Do you want to save money but still live well? Are you dealing with a huge student loan or credit-card debt? Feel like you're locked out of the housing market? If so, this book is the answer. Money Matters features links to online tools and a wealth of practical guidance. Now is your chance to: become debt-free save and budget successfully decide whether to rent or buy your first home understand KiwiSaver set out on the path to financial freedom. Money Matters will show you how to live the life you want and still get ahead financially. Find your flow and the money will follow!

Stacking the Deck Kevin Ikeno, 2016-10-10 There's an old saying often attributed to Benjamin Franklin: If you fail to plan, you are planning to fail. That tenet shines through bright and clear in this financial guide that is geared for Canadians but can be used by anyone to cut expenses, save money and start living his or her dreams. Kevin uses straightforward language and real-life examples so you can establish healthy financial habits upon landing your first professional job, navigate living in Canada as a new resident, evaluate the lifestyle you want in retirement and take practical steps to achieve financial goals. You'll also learn how to read and create a cash flow statement, net worth statement and a budget. Financial assessment tools and personal financial assessment quizzes help you build an even stronger foundation to move toward a better financial future. Whether it's saving money, earning more or putting the money you have saved and will save to work, you'll find out how to make savvy moves that pay off big in *Stacking the Deck*.

Workday Warrior Ann Gomez, 2022-12-06 Reclaim control of your workday with a proven time-saving method. Life is busier than ever before. We are working longer hours to keep up with longer to-do lists. Yet we're experiencing more stress and seem to fall further and further behind. Our so-called leisure time is punctuated with interruptions, constantly pulling us back to work. We are led to believe we can prioritize our way out of this, but prioritization is broken. In *Workday Warrior*, productivity expert Ann Gomez presents a fresh approach that smashes today's time challenges: too many priorities, too

many interruptions, and too much complexity. We don't need more willpower, discipline, or hours in our day. Instead, we need a straightforward approach to help us reclaim our time and upgrade our work habits. We need to concentrate our priorities, protect our time, and simplify our work to amplify our results. This book will help you become a Workday Warrior. Find more time in your day, play at a higher level, and feel more in control of your time. Your work (and life!) will never be the same.

Democracy Unchained David Orr, Andrew Gumbel, Bakari Kitwana, William Becker, 2020-03-03 A stellar group of America's leading political thinkers explore how to reboot our democracy The presidential election of 2016 highlighted some long-standing flaws in American democracy and added a few new ones. Across the political spectrum, most Americans do not believe that democracy is delivering on its promises of fairness, justice, shared prosperity, or security in a changing world. The nation cannot even begin to address climate change and economic justice if it remains paralyzed by political gridlock. Democracy Unchained is about making American democracy work to solve problems that have long impaired our system of governance. The book is the collective work of thirty of the most perceptive writers, practitioners, scientists, educators, and journalists writing today, who are committed to moving the political conversation from the present anger and angst to the positive and constructive change necessary to achieve the full promise of a durable democracy that works for everyone and protects our common future. Including essays by Yasha Mounk on populism, Chisun Lee on money and politics, Ras Baraka on building democracy from the ground up, and Bill McKibben on climate, Democracy Unchained is the articulation of faith in democracy and will be required reading for all who are working to make democracy a reality. Beauty around the World Erin Kenny, Elizabeth Gackstetter Nichols, 2017-06-22 Taking the concept of beauty seriously, this encyclopedia examines how humanity has sought and continues to seek what is beautiful in a variety of cultural contexts, giving readers an understanding of how to look at beauty both intellectually and critically. Is beauty ever more than skin deep? Arguably yes, considering that the concept of beauty—and the pursuit of it—has shaped cultures worldwide, across every time period, and has even served to change the course of history. Studying beauty practices yields insight into social status, wealth, political ideology, religious doctrine, and gender expectations, including gender nonconformity. A truly interdisciplinary text, *Beauty around the World: A Cultural Encyclopedia* presents an insightful perspective on beauty that draws from philosophy, literature, sociology, anthropology, psychology, and feminist studies, giving readers a unique view of world beauty practices. This volume offers information about beauty practices from the past to the present in alphabetical entries that address terms and topics such as beards, dreadlocks, Geisha, moko tattoos, and progressive muscularity. Readers will better comprehend how beauty shapes many social interactions in profound ways worldwide, and that the unspoken social agreements that shape ideals of attractiveness and desirability within any given culture can matter very much. The encyclopedia's entries challenge readers to consider the questions What is beauty? and Why does it matter? A comprehensive bibliography is a valuable resource for further research.

Excess Kim Humphery, 2013-04-23 Over-consumption is one of the key issues of our time, especially in the Western world. Over the past decade, in the face of historically unprecedented levels of consumer spending in the West - and the more recent impact of recession - a vigorous politics of anti-consumerism has emerged in a range of wealthy nations. This timely and original new book provides a comprehensive overview and analysis of what has come to be called the 'new politics of consumption'; a politics embodied in movements such as culture jamming, simple living, slow food and fair trade. The book offers an examination of anti-consumerism at a time when the idea of 'consumer excess' is being re-framed by a global economic downturn, and crucially explores what this means for the future of political debate. Drawing on interviews with

activists across three continents, and offering a refreshingly accessible discussion of contemporary commentary and theory, Kim Humphery sympathetically explores anti-consumerism as cultural interpretation, lifestyle change, and collective action. Whilst analysing the positive advances of the anti-consumerist movement, Excess also challenges contemporary critical thinking on consumption, taking issue with the return to theories of mass culture in contemporary anti-consumerist polemic. Alternatively, Humphery begins to forge a politics of anti-consumerism that addresses the complexity of material acquisition and which avoids treating consumers as mere dupes in the logic of capitalism, viewing them instead as active participants in a culture which is capable of transformation.

Breaking Money Silence® Kathleen Burns Kingsbury, 2017-09-15 Anyone concerned about finances—and that's just about everyone—will welcome this step-by-step guide to opening up about a difficult subject. It offers a strategy that can save money, improve relationships, and help people raise fiscally responsible children. Almost half of Americans say that the most difficult topic to discuss with loved ones is their personal finances, so much so that they would rather talk about death, politics, or religion. But what price do you pay for staying quiet? In her fifth book, Kathleen Burns Kingsbury, a wealth psychology expert with over twenty-five years of experience empowering women, couples, parents, families, and wealth advisors, provides you with the answer. This book equips you with the practical tools needed to navigate difficult conversations and future-proof your finances. Discover how to identify your thoughts and beliefs about wealth, and how doing so can help you talk more openly and honestly about money with loved ones. Acquire skills for engaging in effective dialogues with aging parents about healthcare costs, estate planning, and end-of-life issues. Learn tips for fighting fair financially with your partner, and for raising a financially literate next generation. Using Money Talk Challenges and real-life stories, Kingsbury coaches you (and your trusted advisor) to take action. You'll walk away with a roadmap for putting what you learn into practice. Breaking Money Silence is a catalyst for a money revolution leading to a more gender-savvy, financially secure, and financially literate world.

National Populism Roger Eatwell, Matthew Goodwin, 2018-10-25 A SUNDAY TIMES BOOK OF THE YEAR A crucial new guide to one of the most urgent political phenomena of our time: the rise of national populism Across the West, there is a rising tide of people who feel excluded, alienated from mainstream politics, and increasingly hostile towards minorities, immigrants and neo-liberal economics. Many of these voters are turning to national populist movements, which have begun to change the face of Western liberal democracy, from the United States to France, Austria to the UK. This radical turn, we are told, is a last howl of rage from an aging electorate on the verge of extinction. Their leaders are fascistic and their politics anti-democratic; their existence a side-show to liberal democracy. But this version of events, as Roger Eatwell and Matthew Goodwin show, could not be further from the truth. Written by two of the foremost experts on fascism and the rise of national populism, this lucid and deeply-researched book is a vital guide to our transformed political landscape.

Challenging conventional wisdoms, Eatwell and Goodwin make a compelling case for serious, respectful engagement with the supporters and ideas of national populism - not least because it is a tide that won't be stemmed anytime soon.

Researching the Global Education Industry Marcelo Parreira do Amaral, Gita Steiner-Khamsi, Christiane Thompson, 2019-01-14 This book examines how the Global Education Industry (GEI) has brokered, funded, and implemented new conceptualizations of 'good' education. With a focus on new private providers and policy actors in education, the authors of the book analyze the impact of the GEI on educational research, policy and practice. How did philanthropies and foundations manage to make their voices heard in school reform debates, what are the implications of digital technologies and data infrastructures on teaching and learning, and should the fast advance of the GEI be merely seen as a logical consequence of the commercialization of education? Moving beyond single-country case studies, the book focuses on key issues related to the study of the Global Education Industry in an international context, discussing the rationales, processes and impacts of current developments. This comprehensive book will be of interest and value to scholars and researchers of the GEI, as well as policy makers.

Essential Personal Finance Lien Luu, Jonquil Lowe, Jason Butler, Tony Byrne, 2017-02-24 Young people face unprecedented financial challenges: rising student debt, stiff competition for jobs, barriers to home ownership, dwindling state benefits and prospects of a longer working life. Today, students need financial knowledge and skills more than ever before, not just to build their own financial security, but to create the new generation of advisers that can help all citizens navigate the complex world of personal finance. Essential Personal Finance is a guide to all the key areas of personal finance: budgeting, managing debt, savings and investments, insurance, securing a home and laying the foundations for retirement. It also provides an introduction to some of the essential foundations of a modern undergraduate finance qualification, including: The nature of financial institutions, markets and economic policy that shape the opportunities and decisions that individuals face. The range of financial assets available to households, the risk-return trade-off, basics of portfolio construction and impact of tax. The importance of the efficient market hypothesis and modern portfolio theory in shaping investment strategies and the limitations of these approaches. Behavioural finance as a key to understanding factors influencing individual and market perceptions and actions. Using financial data to inform investment selection and to create financial management tools that can aid decision-making. A comprehensive companion website accompanies the text to enhance students' learning and includes answers to the end-of-chapter questions. Written by authors who contribute experience as financial advisers, practitioners and academics, Essential Personal Finance examines the motivations, methods and theories that underpin financial decision-making, as well as offering useful tips and guidance on money management and financial planning. The result is a compelling combination of an undergraduate textbook aimed at students on personal finance and financial services courses, and a practical guide for young people in building their own financial strength and capability.

Game Plan Kevin D. Freeman, 2014-01-06 *Game Plan* is the first how to investment handbook of its type. It will explain the emerging risks and provide a complete game plan of response for investors at all levels. Freeman will explain that there is no one size fits all solution as events are happening quickly and the challenges can morph suddenly. Just as a football team must plan for a variety of offensive strategies and attacks, investors must be prepared to strategically adjust. This book provides the game plan to respond and succeed. In *Game Plan* you'll learn... The proper use of gold in your investment strategy How stocks should be deployed in your investment portfolio The smart way to diversify your portfolio How to decrease your bond holding vulnerability How to judge a guarantor in guaranteed investments How to avoid falling into the marketing hype for Hedge Fund scams How to find a properly trained investment advisor How to advance wealth at the individual level How to win the global economic war

Confronting the Borders of Medieval Art Jill Caskey, Adam S. Cohen, Linda Safran, 2011-06-22 These essays examine art on the borders of the medieval world, from China to Spain. They engage three related issues: margins, frontiers, and cross-cultural encounters. Historiographic problems and pedagogical questions weave through the essays and the editors introduction.

An Anatomy of Tax Havens Paul R. Beckett, 2023-10-24 Tax havens in offshore lands like Switzerland, the Cayman Islands and the Bahamas were once considered a rarity, the preserve of the super-rich. Today, they are big business available to the masses. Their goal? To avoid any form of accountability. Own nothing. Possess everything. Be answerable to no one. Where are these tax havens? What forms can they take? What future lies in store for them, and why should we care? *An Anatomy of Tax Havens: Europe, the Caribbean and the United States of America* answers these questions, and more, in the first comparative study in one volume of European, Caribbean and United States tax havens. It examines their simple origin to the extreme forms some take today, delving into the murky subculture that has deliberately made them impenetrably obscure. Uniquely, it combines detailed technical expertise (regulatory regimes, financial crime, legal and equitable structuring) with an analysis of their impact on domestic and global political, economic, environmental and social concerns. *An Anatomy of Tax Havens* is a fascinating, informative read for a broad readership; from legal, accountancy and tax practitioners to compliance regulators, law enforcement agencies, and students and researchers interested in business studies, taxation, and crime.

If Mayors Ruled the World Benjamin R. Barber, 2013-11-05 In the face of the most perilous challenges of our time--climate change, terrorism, poverty, and trafficking of drugs, guns, and people--the nations of the world seem paralyzed. The problems are too big for governments to deal with. Benjamin Barber contends that cities, and the mayors who run them, can do and are doing a better job than nations. He cites the unique qualities cities worldwide share: pragmatism, civic trust, participation, indifference to borders and sovereignty, and a democratic penchant for networking, creativity, innovation, and cooperation. He demonstrates how city mayors, singly and jointly, are responding to transnational problems more effectively

than nation-states mired in ideological infighting and sovereign rivalries. The book features profiles of a dozen mayors around the world, making a persuasive case that the city is democracy's best hope in a globalizing world, and that great mayors are already proving that this is so--

Democracy by the People Eugene D. Mazo, Timothy K. Kuhner, 2018-11-29 Thanks to a series of recent US Supreme Court decisions, corporations can now spend unlimited sums to influence elections, Super PACs and dark money groups are flourishing, and wealthy individuals and special interests increasingly dominate American politics. Despite the overwhelming support of Americans to fix this broken system, serious efforts at reform have languished. Campaign finance is a highly intricate and complex area of the law, and the current system favors the incumbent politicians who oversee it. This illuminating book takes these hard realities as a starting point and offers realistic solutions to reform campaign finance. With contributions from more than a dozen leading scholars of election law, it should be read by anyone interested in reclaiming the promise of American democracy.
