A Place for T Robert H. Lengel, 2023-01-17 Dr. Lengel offers a thought provoking twist on Aesop's Hare-Tortoise fable reframing it as a Human Race pitting our Hare-brained heads against our Tortoise-inspired hearts. As we run faster and faster in our Hare-like pursuits of wealth, power and status, we are leaving no place for the slow and steady Tortoise to speak for our humanity. As a result, the author poses the possibility we are creating a world with our intellects and technology that we can't relate to emotionally and spiritually. We might be outrunning our humanity and setting the stage for the Hare to win this human race by default. Our inability to engage each other in civil and respectful conversations, the hate and violence infecting our culture and leadership failures in organizations might be evidence this sinister end is fast approaching. This

book is a hard hitting and at times poetic invitation to step back from our busy lives, sit with the author on his front porch, and question our lives and work. It is an inspirational reminder of Mahatma Gandhi's warning that "there is more to life than simply increasing its speed." In a conversational format, Dr. Lengel guides us down a hopeful path forward - a path illuminated by what he calls divergent thinking. His words are a 'siren call' to wake up and realize we can't afford Hare-brained progress at the cost of our souls. We need A Place for T in our lives 'now', to account for the unaccountable while we still have time!

Handbook of Research on Leading Higher Education Transformation With Social Justice, Equity, and

Inclusion Reneau, Clint-Michael, Villarreal, Mary Ann, 2021-06-25 With the resurgence of race-related incidents nationally and on college campuses in recent years, acts of overt racism, hate crimes, controversies over free speech, and violence continue to impact institutions of higher education. Such incidents may impact the overall campus racial climate and result in a racial crisis, which is marked by extreme tension and instability. How institutional leaders and the campus community respond to a racial crisis along with the racial literacy demands of the campus leaders can have as much of an effect as the crisis itself. As such, 21st century university leaders must become more emotionally intelligent and responsive to emergent campus issues. Improving campus climate is hard, and to achieve notable gains, higher education professionals will have to reimagine how they approach this work with equity-influenced practices and transformative leadership. The Handbook of Research on Leading Higher Education Transformation With Social Justice, Equity, and Inclusion offers a window into understanding the deep intersections of identity and professional practice as well as guideposts for individual leadership development during contested times. The chapters emphasize how identity manifests in the way we lead, supervise, make decisions, persuade, form relationships, and negotiate responsibilities each day. In this book, the authors provide insight, examples, and personal narratives that explore how their identities, lens, and commitments shaped their leadership and supported their courageous acts for equity and social justice. It provides practical tools that leaders can draw on to inform sustainable equity and inclusion-focused practices and policies on college campuses and will discuss important campus climate issues and ways to address them. This book is a valuable reference work for higher education administrators, policymakers, leaders, managers, university presidents, social justice advocates, practitioners, faculty, researchers, academicians, and students who are interested in higher education leadership practices that support and promote social justice, equity, and inclusion.

Amplify Student Voices AnnMarie Baines, Diana Medina, Caitlin Healy, 2023-01-26 Learn how to cultivate student voices and facilitate equitable participation so that young people are prepared to speak up and lead when the moment calls for it. In a world where public speaking often determines whose needs are addressed and whose values prevail, how can we create brave classroom spaces where young people can effectively express their thoughts and advocate for themselves and others?

In *Amplify Student Voices*, AnnMarie Baines, Diana Medina, and Caitlin Healy introduce Expression-Driven Teaching to show how centering youth voices and expression in the classroom meets both academic and social and emotional learning goals. The authors promote instruction in various forms of public speaking—storytelling, debate, poetry, presentation, and self-advocacy—as a way to pursue equity in education and counter the oppression that has long silenced the voices of marginalized groups. This engaging book features extensive first-person accounts from young people who describe their journey toward effective public speaking and how it has helped them affirm their identity, confront life's many challenges, and pursue opportunities with increased confidence. Their insights also inform and supplement the authors' practical recommendations and how-tos for incorporating the various public speaking formats into everyday instruction at all grade levels and across subject areas. Both informative and inspiring, *Amplify Student Voices* challenges traditional notions of good public speaking, broadens its definition, and demonstrates how to engage learners to create a world that is more inclusive and just.

The Development of Generativity across Adulthood Feliciano Villar, Heather L. Lawford, Michael W. Pratt, 2024-08-02 This volume brings together experts in generativity and related fields to provide a compelling overview of contemporary research and theory on this topic. Generativity refers to a concern for - or acting towards - the benefit of future generations as a legacy of the self; it has implications for outcomes at the individual, relational and social, and broader societal levels. Understanding the role and expressions of generativity at various stages of our lives is important to our sense of well-being and purpose, and it impacts our parenting, caregiving, and social relationships, as well as having implications for our activities and experiences in the workforce, and in voluntary activities in our communities and the wider society. The chapters in this volume explore the meaning and impact of generativity across development and across life contexts and roles. They address generativity within a particular area or life domain, or period of the lifespan, and outline key methods and findings, as well as theoretical issues and applied implications. The volume represents the first comprehensive exploration of generativity from early to late adulthood; it offers a broad international perspective and will inform research into generativity across multiple cultures.

Meghan and Beth Discover, It's a Man's World Grace Peterson, 2024-07-19 Intrigued by whispers of a community connection, Beth picks up the book chronicling Meghan's life after graduate school. As both women navigate careers amid outdated attitudes about women's place, they discover the persisting barriers of a man's world. While Meghan conducts research into the decline of family farms, her work conjures Beth's own rural upbringing and current reality as a farm wife

straddling tradition and technology. Their parallel sexual awakenings underscore the universality of women's experience. An insider's glimpse of Meghan's faculty position reveals to Beth the complex machinery underlying campus life. As Beth reflects on the roads untaken, Meghan's bold choices highlight the excitement missing from Beth's more traditional path. Ultimately, their interwoven stories surface timeless questions about agency, destiny, and the feminine struggle to balance fierce independence with enduring community. Do we ever really choose our fate, or does life choose for us?

Framers Kenneth Cukier, Viktor Mayer-Schönberger, Francis de Véricourt, 2021-05-11 "Cukier and his co-authors have a more ambitious project than Kahneman and Harari. They don't want to just point out how powerfully we are influenced by our perspectives and prejudices—our frames. They want to show us that these frames are tools, and that we can optimise their use." —Forbes From pandemics to populism, AI to ISIS, wealth inequity to climate change, humanity faces unprecedented challenges that threaten our very existence. The essential tool that will enable humanity to find the best way forward is defined in *Framers* by internationally renowned authors Kenneth Cukier, Viktor Mayer-Schönberger, and Francis de Véricourt. To frame is to make a mental model that enables us to make sense of new situations. Frames guide the decisions we make and the results we attain. People have long focused on traits like memory and reasoning, leaving framing all but ignored. But with computers becoming better at some of those cognitive tasks, framing stands out as a critical function—and only humans can do it. This book is the first guide to mastering this human ability. Illustrating their case with compelling examples and the latest research, authors Cukier, Mayer-Schönberger, and de Véricourt examine: · Why advice to "think outside the box" is useless · How Spotify beat Apple by reframing music as an experience · How the #MeToo twitter hashtag reframed the perception of sexual assault · The disaster of framing Covid-19 as equivalent to seasonal flu, and how framing it akin to SARS delivered New Zealand from the pandemic *Framers* shows how framing is not just a way to improve how we make decisions in the era of algorithms—but why it will be a matter of survival for humanity in a time of societal upheaval and machine prosperity.

Get More: Joby Slay, 2020-01-01 One of the largest challenges facing youth sports today is the lack of sufficiently trained athletic coaches. Studies report that less than 1/3 of coaches have any training in sports skills, tactics and motivational techniques. In his new book *Get More*, award-winning coach Joby Slay lays out the groundwork for equipping coaches in the fundamentals of their craft. "The difficulty in our society in training effective motivational techniques," says Slay, "is the complexity of the current motivational processes or educational platforms. They require a significant investment of time, energy, and money that the average youth coach just can't spare." Slay has put together a formula in *Get More* that is simple to teach and easy to apply for a winning motivational coaching style. The book organizes these winning principles so that coaches can apply his simple formula with any team. With his effective motivational formula, a player's talents and potential are empowered with new self-confidence to take initiative, to do more, be more, get more and to fuel their creativity, imagination, and passion, creating greater momentum and motivation. Whether a new coach or a 30-year veteran, the GET MOR3EE formula will help every coach to improve their coaching acumen, resulting in their team achieving breakthrough performance results.

The Cost of Becoming "Woke" William L. Kane, 2022-08-16 Merriam-Webster defines woke as being aware of and actively attentive to important facts and issues [especially issues of racial and social justice]. The Urban Dictionary defines woke as the act of being very pretentious, attempting to impress by affecting greater importance or merit than is actually possessed, about how much you care about a social issue. Contemporary wisdom would suggest that woke is best defined as extreme progressivism. W. Durant--author, historian, philosopher, Pulitzer Prize winner in 1968, and recipient of the Presidential Medal of Freedom in 1977--concluded that a great civilization is not conquered from without until it has destroyed itself from within. The Biden administration's progressive agenda has weakened America in every aspect. Woke progressive policies have cost America with open borders, the highest inflation rate in forty years, empty store shelves, unmanageable energy costs, education curricula viewed through the prism of racism, international humiliation, high crime and lawlessness, cancel culture, sanctuary cities, and an exploding national debt. Extremely progressive woke policies are by their nature, divisive, and ultimately do more harm than good to our nation. While most woke initiatives seem noble, few are successful; while most woke ideologies seem altruistic, few are pragmatic. We should aspire to more diversity of thought and less diversity of color. Americans must choose between reason and emotion in future elections. We must choose between being woke or being

awake. Once civilization begins to decay, it can accelerate rapidly down a steep decline into passivity, indolence, ignorance, and violence. America is now teetering on the brink of that kind of decaying culture. That is why this debate over work vs. welfare, knowledge vs. ignorance, and independence vs. dependence is so vital. Newt Gingrich - Beyond Biden 2021

Examining Lorraine Hansberry's A Raisin in the Sun as Counternarrative Carl A. Grant, 2023-09-29 Examining Lorraine Hansberry's *A Raisin in the Sun* as Counternarrative: Understanding the Black Family and Black Students shows how and

why Lorraine Hansberry's play, *A Raisin in the Sun*, should be used as a teaching tool to help educators develop a more accurate and authentic understanding of the Black Family. The purpose of this book is to help educators develop a greater awareness of Black children and youth's, humanity, academic potential and learning capacity, and for teachers to develop the consciousness to disavow white supremacy, American exceptionalism, myths, racial innocence, and personal absolution within the education system. This counternarrative responds to the flawed and racist perceptions, stereotypes, and tropes that are perpetuated in schools and society about the African American family and Black students in US schools. It is deliberative and reverberating in addressing anti-Black racism. It argues that, if Education is to be reimagined through a social justice structure, teachers must be educated with works that include Black artists and educators, and teachers must be committed to decolonizing their own minds. Examining Lorraine Hansberry's *A Raisin in the Sun* as Counternarrative: Understanding the Black Family and Black Students is important reading for undergraduate and postgraduate courses in Educational Foundations, Curriculum and Instruction, Education Policy, Multicultural Education, Social Justice Education, and Black Studies. It will also be beneficial reading for in-service educators.

Children and Childhoods in L.M. Montgomery Rita Bode, Lesley D. Clement, E. Holly Pike, Margaret Steffler, 2022-10-15
From Jane Austen to contemporary fanfiction and adaptations, literary portrayals of the child and imaginings of childhood are particularly telling indicators of cultural values and when they shift. Inspired by the responsive reading practices of L.M. Montgomery herself, those demonstrated by her characters, and those of her diverse readership, *Children and Childhoods in L.M. Montgomery* works with concepts of confluence, based on organic, non-linear readings of texts across time and space. Such readings reconsider views of childhood and children by challenging power hierarchies and inequities found in approaches that privilege more linear readings of literary influence. While acknowledging differences between childhood and adulthood, contributors emphasize kinship between child and adult as well as between past and present selves and use both scholarly approaches and creative reimagining to explore how the boundaries between different stages of life are blurred in Montgomery's writing. *Children and Childhoods in L.M. Montgomery* addresses Montgomery's challenges to prescribed assumptions about childhood while positioning her novels as essential texts in twenty-first-century literary, childhood, and youth studies. Contributors include Yoshiko Akamatsu (Notre Dame Seishin University), Balaka Basu (UNC Charlotte), Rita Bode (Trent University), Holly Cinnamon, Lesley D. Clement, Vappu Kannas, Heidi Lawrence (University of Glasgow), Kit Pearson, Rosalee Peppard Lockyer, E. Holly Pike, Laura Robinson (Acadia University), Kate Scarth (UPEI), Margaret Steffler (Trent University), William Thompson (MacEwan University), Bonnie Tulloch (UBC), Asa Warnqvist (Swedish Institute for Children's Books)

Donald Davidson Marc Joseph, 2014-12-18 Donald Davidson's work has been of seminal importance in the development of analytic philosophy and his views on the nature of language, mind and action remain the starting point for many of the central debates in the analytic tradition. His ideas, however, are complex, often technical, and interconnected in ways that can make them difficult to understand. This introduction to Davidson's philosophy examines the full range of his writings to provide a clear succinct overview of his ideas. The book begins with an account of the assumptions and structure of Davidson's philosophy of language, introducing his compositionism, extensionalism and commitment to a Tarski-style theory of truth as the model for theories of meaning. It goes on to show how that philosophical framework is to be applied and how it challenges the traditional picture. Marc Joseph examines Davidson's influential work on action theory and events and discusses the commonly made charge that his theory of action and mind leaves the mental as a mere 'epiphenomenon' of the physical. The final section explores Davidson's philosophy of mind, some of its consequences for traditional views of subjectivity and objectivity and, more generally, the relation between minded beings and the physical and mental world they occupy.
