

The University Of The Aegean

Helène Whittaker von Hofsten

Current Approaches and New Perspectives in Aegean Iconography Fritz Blakolmer, 2020-06-25 The aim of this volume is to present an overview of current trends and individual methodological attempts towards arriving at an adequate understanding of Minoan, Cycladic, and Mycenaean iconography.

The Cambridge Companion to the Aegean Bronze Age Cynthia W. Shelmerdine, 2008-08-04 This book is a comprehensive up-to-date survey of the Aegean Bronze Age, from its beginnings to the period following the collapse of the Mycenaean palace system. In essays by leading authorities commissioned especially for this volume, it covers the history and the material culture of Crete, Greece, and the Aegean Islands from c.3000–1100 BCE, as well as topics such as trade, religions, and economic administration. Intended as a reliable, readable introduction for university students, it will also be useful to scholars in related fields within and outside classics. The contents of this book are arranged chronologically and geographically, facilitating comparison between the different cultures. Within this framework, the cultures of the Aegean Bronze Age are assessed thematically and combine both material culture and social history.

The Oxford Handbook of Egyptology Ian Shaw, Elizabeth Bloxam, 2020 The Oxford Handbook of Egyptology offers a

comprehensive survey of the entire study of ancient Egypt, from prehistory through to the end of the Roman period. Transcending conventional boundaries between archaeological and ancient textual analysis and bringing together 63 chapters that range widely across the various archaeological, philological, and cultural sub-disciplines, authored by recognized experts in their respective fields, it highlights the extent to which the discipline has diversified and stresses the need for it to seek multidisciplinary methods and broader collaborations if it is to remain contemporary and relevant. Authoritative yet accessible, it is an invaluable resource for scholars, students, and general readers alike.

South by Southeast: The History and Archaeology of Southeast Crete from Myrtos to Kato Zakros Emilia Oddo, Konstantinos Chalikias, 2022-09-29 Contributions investigate the settlement patterns, maritime connectivity, and material culture of the southeast of Crete in a diachronic fashion, in an attempt to define it as a region and trace its history. Papers focus primarily on the archaeology of the sites along the coastal strip spanning between the Myrtos Valley and Kato Zakros.

Interdisciplinary Research Approaches to Multilingual Education Vasilia Kourtis-Kazoullis, Themistoklis Aravossitas, Eleni Skourtou, Peter Pericles Trifonas, 2018-10-03 Recently intensified global mobility has reinforced the interest for ethnolinguistic diversity and multilingualism in education and society. *Interdisciplinary Research Approaches to Multilingual Education* brings together current interdisciplinary perspectives in multilingual and second language education to examine research and language teaching in specific countries, as well as different aspects of multilingual education that include language policies and ICT applications. Containing context-specific practical interventions and relevant theoretical approaches, it considers the contemporary challenges of language policies and practices to inform teacher and curriculum development based on international empirical research. The chapters of this book are centered around the following themes: Educational programs and policies Teaching and learning Linguistic diversity ICT and language learning This book will be of great interest to academics, researchers and postgraduate students in language education, bilingual education, second/foreign language learning, CALL, and applied linguistics. It will also appeal to educational administrators and those involved with language education policies.

The Digital Folklore of Cyberculture and Digital Humanities Papadakis, Stamatios, Kapaniaris, Alexandros, 2022-06-17 Where human communication and development is possible, folklore is developed. With the rise of digital communications and media in past decades, humans have adopted a new form of folklore within this online landscape. Digital folklore has been developed into a culture that impacts the ways in which communities are formed, media is created, and communications are carried out. It is essential to track this growing phenomenon. *The Digital Folklore of Cyberculture and Digital Humanities* focuses on the opportunities and chances for folklore research online as well as research challenges for online folk groups. It presents opportunities for production of digital internet material from items and research in the

field of folk culture and for digitization, documentation, and promotion of elements related to folk culture. Covering topics such as e-learning programs, online communities, and costumes and fashion archives, this premier reference source is a dynamic resource for folklorists, sociologists, anthropologists, psychologists, students and faculty of higher education, libraries, researchers, and academicians.

The Politics of Criminology Stratos Georgoulas, 2012 The issue of the politics of criminology is a significant theme in academic debate, policy implementation, and legal reform. Against administrative criminologists who have been criticized as technicians of the State or apologists for criminal justice, functioning primarily to manage the consequences and conflict of structural inequalities in advanced democratic states, this book brings policy back to what it was, a sociological study of the entire social framework of the inequalities of power, wealth, and authority, which is the result of class relations of industrial society. (Series: Deviance and Social Control - Vol. 1)

Current Research in Egyptology 2019 Marta Arranz Cárcamo, Raúl Sánchez Casado, Albert Planelles Orozco, Sergio Alarcón Robledo, Jónatan Ortiz García, Patricia Mora Riudavets, 2021-02-25 Presents proceedings from the 20th meeting of the prestigious international student Egyptology conference, held at the University of Alcalá, 2019. 15 papers address a wide range of topics including all periods of ancient Egyptian History and different aspects of its material culture, archaeology, history, society, religion and language.

A Companion to the Archaeology of Early Greece and the Mediterranean Irene S. Lemos, Antonis Kotsonas, 2019-11-14 A Companion that examines together two pivotal periods of Greek archaeology and offers a rich analysis of early Greek culture A Companion to the Archaeology of Early Greece and the Mediterranean offers an original and inclusive review of two key periods of Greek archaeology, which are typically treated separately—the Late Bronze Age and the Early Iron Age. It presents an in-depth exploration of the society and material culture of Greece and the Mediterranean, from the 14th to the early 7th centuries BC. The two-volume companion sets Aegean developments within their broader geographic and cultural context, and presents the wide-ranging interactions with the Mediterranean. The companion bridges the gap that typically exists between Prehistoric and Classical Archaeology and examines material culture and social practice across Greece and the Mediterranean. A number of specialists examine the environment and demography, and analyze a range of textual and archaeological evidence to shed light on socio-political and cultural developments. The companion also emphasizes regionalism in the archaeology of early Greece and examines the responses of different regions to major phenomena such as state formation, literacy, migration and colonization. Comprehensive in scope, this important companion: Outlines major developments in the two key phases of early Greece, the Late Bronze Age and the Early Iron Age Includes studies of the geography, chronology and demography of early Greece Explores the development of early Greek state and society and examines economy, religion, art and material culture Sets Aegean developments within their Mediterranean context Written

for students, and scholars interested in the material culture of the era, *A Companion to the Archaeology of Early Greece and the Mediterranean* offers a comprehensive and authoritative guide that bridges the gap between the Late Bronze Age and the Early Iron Age.

Charis Anne Proctor Chapin, 2004 Consists of 20 chapters in 2 parts; pt. 1 contains chapters on Aegean prehistory and the East and pt. 2 contains chapters on classical Greece, Etruria, and Rome.

Navigating Learning, Culture, and Identity in Island Education Bufalino, Giambattista, 2025-06-06 *Navigating Learning, Culture, and Identity in Island Education* invites readers into the lived educational experiences of island communities, where geography, tradition, and the rhythms of the natural world converge to characterize distinctive pedagogical practices. In these contexts, educational processes are characterized by situated relationships—with the land and sea, with cultural memory and identity, and with the often-close-knit social fabric of island communities. While challenged by limited infrastructure and scarce resources, island communities cultivate pedagogies of resilience: adaptive, situated, and deeply relational. These educational approaches emerge not in spite of “isolation” but through it—formed by proximity, interdependence, and a sustained attentiveness to place. *Navigating Learning, Culture, and Identity in Island Education* explores selected educational landscapes across a range of island communities worldwide. From the Greek Aegean to the Ryukyus, from Ponza and Sicily to the Maldives, Philippines, Solomon Islands, and the Canadian Maritimes, this volume highlights how spatial distinctiveness, cultural hybridity, and ecological vulnerability shape the ways in which people learn, teach, and lead in island contexts. Educational practices arise in response to local histories, environmental precarity, linguistic and cultural diversity, and the legacies of colonization. Themes explored include school-community collaboration, sustainability education, inclusive and intercultural pedagogy, literary imaginaries of the sea, leadership development, and the complex transitions faced by students in island-based higher education. Spanning formal, non-formal, and community-based learning across various small island states and territories, the chapters establish a productive dialogue between educational research and island studies. This volume offers both theoretical insights and practical approaches for educators, scholars, and policymakers seeking educational paradigms that are both locally grounded and globally resonant. At once

rooted and far-reaching, *Navigating Learning, Culture, and Identity in Island Education* invites readers to rethink what education means in places defined not only by their geography, but by their imaginative, cultural, and ecological distinctiveness.

Mycenaean Civilization Bryan Feuer, 2004-03-16 Classical Greeks considered the Mycenaean civilization to be the basis of their glorious and heroic heritage, but its material existence was not confirmed until the excavations of Heinrich Schliemann in the late nineteenth century. In the ensuing years, as with the field of archaeology in general, emphasis has shifted from revealing monuments and finding treasure to dealing with less glamorous, more scientifically-oriented investigations concerning aspects such as social and political organization, economic functions and settlement patterns. With its more than 2000 entries, this reference work serves as both an introduction to and a summary of the study of ancient Mycenaean civilization. Considerably expanded from the first edition, there are 500 new entries representing materials published since 1991. The largest part of the book is made up of annotated bibliography entries arranged topically with introductory material for each section. The book also includes a general introduction to Mycenaean civilization, a glossary, and author, place and subject indexes.

Minoan Architecture and Urbanism Quentin Letesson, Carl Knappett, 2017-07-04 Minoan Crete is rightly famous for its idiosyncratic architecture, as well as its palaces and towns such as Knossos, Malia, Gournia, and Palaikastro. Indeed, these are often described as the first urban settlements of Bronze Age Europe. However, we still know relatively little about the dynamics of these early urban centres. How did they work? What role did the palaces have in their towns, and the towns in their landscapes? It might seem that with such richly documented architectural remains these questions would have been answered long ago. Yet, analysis has mostly found itself confined to building materials and techniques, basic formal descriptions, and functional evaluations. Critical evaluation of these data as constituting a dynamic built environment has thus been slow in coming. This volume aims to provide a first step in this direction. It brings together international scholars whose research focuses on Minoan architecture and urbanism as well as on theory and methods in spatial analyses. By combining methodological contributions with detailed case studies across the different scales of buildings, settlements and regions, the volume proposes a new analytical and interpretive framework for addressing the complex dynamics of the Minoan built environment.

Ayia Irini Natalie Abell, 2022-04-01 Area B, in the southeastern part of the Bronze Age town of Ayia Irini, Kea, preserves evidence for human activity from the mid-Early Bronze Age to the mid-Late Bronze Age, or Periods III-VII in the parlance of the site. This volume summarizes the results of excavation in the area and provides an overview of the stratigraphy, architecture, and artifacts found in it. Owing to its status as one of the best-excavated and best-documented sectors of the site, Area B also provides an excellent opportunity to consider diachronic changes in the ceramic assemblage through time.

Analysis of macroscopic and petrographic fabrics and evaluation of how fabric, ware, and shape categories intersect enables a detailed, diachronic study of changes in pottery production, trade, and consumption patterns at the site in view of broader shifts in Aegean economy and society.

Religion and Society in Middle Bronze Age Greece Hélène Whittaker, 2014-05-12 The Middle Helladic period has received little attention, partially because of scholars' view of it as merely the prelude to the Mycenaean period and partially because of the dearth of archaeological evidence from the period. In this book, Hélène Whittaker demonstrates that Middle Helladic Greece is far more interesting than its material culture might at first suggest. Whittaker comprehensively reviews and discusses the archaeological evidence for religion on the Greek mainland, focusing on the relationship between religious expression and ideology. The book argues that religious beliefs and rituals played a significant role in the social changes that were occurring at the time. The arguments and conclusions of this book will be relevant beyond the Greek Bronze Age and will contribute to the general archaeological debate on prehistoric religion.

Religion and Society in Middle Bronze Age Greece Hélène Whittaker von Hofsten, 2014-05-12 This book argues that religious beliefs played a significant role in the social changes that occurred in Middle Helladic Greece.

Writing as Material Practice Kathryn E. Piquette, Ruth D. Whitehouse, 2013-12-18 Writing as Material Practice grapples with the issue of writing as a form of material culture in its ancient and more recent manifestations, and in the contexts of production and consumption. Fifteen case studies explore the artefactual nature of writing — the ways in which materials, techniques, colour, scale, orientation and visibility inform the creation of inscribed objects and spaces, as well as structure subsequent engagement, perception and meaning making. Covering a temporal span of some 5000 years, from c.3200 BCE to the present day, and ranging in spatial context from the Americas to the Near East, the chapters in this volume bring a variety of perspectives which contribute to both specific and broader questions of writing materialities. The authors also aim to place past graphical systems in their social contexts so they can be understood in relation to the people who created and attributed meaning to writing and associated symbolic modes through a diverse array of individual and wider social practices.
