The 100 Michael H. Hart, 1989 This book contains biographies of the following people, plus many more. Muhammad, Jesus Christ, Buddha, Martin Luther, Christopher Columbus, Queen Elizabeth I, John F. The 100: A Ranking Of The Most Influential Persons In History Michael H. Hart, 2000-06-01 In 1978, when Michael Hart's controversial book *The 100* was first published, critics objected that Hart had the nerve not only to select who he thought were the most influential people in history, but also to rank them according to their importance. Needless to say, the critics were wrong, and to date more than 60,000 copies of the book have been sold. Hart believed that in the intervening years the influence of some of his original selections had grown or lessened and that new names loomed large on the world stage. Thus, the publications of this revised and updated edition of *The 100*. As before, Hart's yardstick is influence: not the greatest people, but the most influential, the people who swayed the destinies of millions of human beings, determined the rise and fall of civilizations, changed the course of history. With incisive biographies, Hart describes their careers and contributions. Explaining his ratings, he presents a new perspective on history, gathering together the vital facts about the world's greatest religious and political leaders, inventors, writers, philosophers, explorers, artists, and innovators—from Asoka to Zoroaster. Most of the biographies are accompanied by photographs or sketches. Hart's selections may be surprising to some. Neither Jesus nor Marx, but Muhammad, is designated as the most influential person in human history. The writer's arguments may challenge and perhaps convince readers, but whether or not they agree with him, his manner of ranking is both informative and entertaining. *The 100*, revised and updated, is truly a monumental work. It promises to be just as controversial, just as thought-provoking, and just as successful as its predecessor—a perfect addition to any history or philosophy reference section.

Al Islaam: The Final Call to humanity Hassan Shabazz,2018-07-24 This book or booklet is a humble attempt by the author to shine the light of Al-Islaam, the Holy Qur'an and the language of Imam W. Deen Mohammed on Chapter 1, 2 and 3 of the Book of Revelations. It is my sincere belief that the Holy Scriptures are interconnected and that the Holy Qur'an is the last chapter and the key to understanding all scriptures. This book is dedicated to all the people who have struggle for freedom throughout the ages, but it is especially dedicated to the five greatest African American men born in North America in my opinion (1.) Imam W. Deen Mohammed, (2.) Dr. Martin Luther King Jr., (3.) Mr. Elijah Muhammad, (4.) Mr. Abdul Malik Shabazz also known as Malcolm X, and finally Mr. Fredrick Douglas. I believe the vision seen by Dr. King in his I have a dream speech will only be fulfilled in the religion of Al Islaam (Islam). In this book, I use the spelling Imaam for Imam, Islaam

for Islam because I believe it gives the novice a better sense of how the words should be pronounced. Your Humble Servant,
Hassan A. Shabazz

The Muslim Book of Why Warithudeen Umar, 2013 Islam is a very mysterious and complex faith, one of intellectual depth in prayer and practice. It is unfortunate that the teachings of Islam have been marred by centuries of intellectual malaise, political misdirection, extremism, and disunity, leaving many spiritual wanderers both Muslim and non-Muslim to ponder a plethora of unaddressed questions about these sacred teachings. In his newest book, *The Muslim Book of Why: What Everyone Should Know about Islam*, author, scholar, and leading jihad theorist Warithudeen Umar highlights the concept of *ijtihad* in an attempt to help answer many of today's most pressing questions about Islam. *Ijtihad* is described as a creative and disciplined intellectual effort to derive legal rulings from Islamic sources while taking into consideration the variables brought on by the fluctuating circumstances of the Muslim world. Though the world has changed and expanded, humanity's need for these teachings viewed through the clarifying concept of *ijtihad* has not. To right these wrongs of gross misguidance within Muslim society, we must deconstruct history in order to discern what went wrong after the revelation of the Qur'an was shared with the world. *The Muslim Book of Why* seeks to do so, refocusing Muslim thought on a life of faith, family development, and worship.

Four Portraits, One Jesus Mark L. Strauss, 2011-03-01 To Christians worldwide, the man Jesus of Nazareth is the centerpiece of history, the object of faith, hope, and worship. Even those who do not follow him admit the vast influence of his life. For anyone interested in knowing more about Jesus, study of the four biblical Gospels is essential. *Four Portraits, One Jesus* is a thorough yet accessible introduction to these documents and their subject, the life and person of Jesus. Like different artists rendering the same subject using different styles and points of view, the Gospels paint four highly distinctive portraits of the same remarkable Jesus. With clarity and insight, Mark Strauss illuminates these four books, first addressing their nature, origin, methods for study, and historical, religious, and cultural backgrounds. He then moves on to closer study of each narrative and its contribution to our understanding of Jesus, investigating things such as plot, characters, and theme. Finally, he pulls it all together with a detailed examination of what the Gospels teach about Jesus' ministry, message, death, and resurrection, with excursions into the quest for the historical Jesus and the historical reliability of the Gospels.

INCOMPARABLE LUIS ANGEL SALCIDO MENDEZ, 2021-08-27 *Incomparable*, it is an autobiographical literary book, which consists of 12 chapters, which tell stories and personal anecdotes that have been very useful to me when facing complicated situations in life. I know that everything in this life revolves around decisions; decisions that we make every day and that in a certain way we know that the consequences of them represent our future in the short, medium and long term. But the good news is that, if we have the correct guidance, we will know that the probability of obtaining better results will be greater, and that guidance can only be given by the Incomparable God.

The secret history of the court of Spain during the last century Rachel Challice,2025-03-02 In *The Secret History of the Court of Spain During the Last Century*, Rachel Challice delves into the intricate tapestry of Spanish royal politics and personal intrigue, illuminating a period marked by both glamour and turbulence. Challice employs a meticulous narrative style, blending historical analysis with vivid storytelling to bring to life the lavish court, resonating with the echoes of power struggles and diplomatic maneuvering. This scholarly work navigates the complexities of bureaucracy and personal relationships within the monarchy, highlighting the paradoxes of loyalty and betrayal that defined the era, thus situating itself within a broader discourse of European court histories. Rachel Challice, a distinguished historian and cultural critic specializing in late 19th and early 20th-century Spain, draws upon extensive archival research and her deep understanding of Spanish cultural identity. Her upbringing in the Andalusian countryside, steeped in history, paired with her academic pursuits in European history, undoubtedly informs her nuanced perspective on the intricate factors that shaped court life in Spain during a century rife with political upheaval and changing regimes. Challice's work is not merely a recounting of events, but a rich exploration of the human elements that drive history. I highly recommend this book to historians, students, and general readers alike, as it promises both enlightenment and engagement, providing a compelling window into a world that reflects broader themes of power, identity, and the complexities of leadership.

Understanding Information and Computation Philip Tetlow,2016-02-24 The World Wide Web is truly astounding. It has changed the way we interact, learn and innovate. It is the largest sociotechnical system humankind has created and is advancing at a pace that leaves most in awe. It is an unavoidable fact that the future of the world is now inextricably linked to the future of the Web. Almost every day it appears to change, to get better and increase its hold on us. For all this we are starting to see underlying stability emerge. The way that Web sites rank in terms of popularity, for example, appears to follow laws with which we are familiar. What is fascinating is that these laws were first discovered, not in fields like computer science or information technology, but in what we regard as more fundamental disciplines like biology, physics and mathematics. Consequently the Web, although synthetic at its surface, seems to be quite 'natural' deeper down, and one of the driving aims of the new field of Web Science is to discover how far down such 'naturalness' goes. If the Web is natural to its core, that raises some fundamental questions. It forces us, for example, to ask if the central properties of the Web might be more elemental than the truths we cling to from our understandings of the physical world. In essence, it demands that we question the very nature of information. *Understanding Information and Computation* is about such questions and one possible route to potentially mind-blowing answers.

Altruistic Service Leadership Ismail Noor,2015-09-30 Now more than ever, altruistic approaches to leadership are needed in business, industry, government, and in the community to help foster and promote peace, moderation, and goodness for all humankind. In one of the first books ever written on the altruistic service aspects of Prophet Muhammads

Having himself used his written material in conferences, seminars, and workshops throughout the region, his contribution to the development of leadership competency among executives and managers in the public, private, and institutional sectors has been admirable. This book is certainly useful as a compendium guide for all leaders, based on the Prophet of Islam's universal model. Professor Datuk Dr. Abdul Jamil bin Mukmin, Chairman, Malaysian Institute of Historical and Patriotism Studies. This guidebook on altruistic service leadership is timely and relevant for twenty-first century leaders at all levels. In an era where leadership is oftentimes fraught with pretensions, hypocrisy, and blameworthiness, it is heartening to be guided by a book for leaders of multi-type organizations and entities, benchmarked on the altruistic leadership model of the Prophet Muhammad. Language and History in Ancient Greek Culture Martin Ostwald, 2011-09-21 Spanning forty years, this collection of essays represents the work of a renowned teacher and scholar of the ancient Greek world. Martin Ostwald's contribution is both philological and historical: the thread that runs through all of the essays is his precise explanation, for a modern audience, of some crucial terms by which the ancient Greeks saw and lived their lives—and influenced ours. Chosen and sequenced by Ostwald, the essays demonstrate his methodology and elucidate essential aspects of ancient Greek society. The first section plumbs the social and political terms in which the Greeks understood their lives. It examines their notion of the relation of the citizen to his community; how they conceived different kinds of political structure; what role ideology played in public life; and how differently their most powerful thinkers viewed issues of war and peace. The second section is devoted to the problem, first articulated by the Greeks, of the extent to which human life is dominated by nature (physis) and human convention (nomos), a question that remains a central concern in modern societies, even if in different guises. The third section focuses on democracy in Athens. It confronts questions of the nature of democratic rule, of financing public

enterprises, of the accountability of public officials, of the conflict raised by imperial control and democratic rule, of the coexistence of conservative and liberal trends in a democratic regime, and of the relation between rhetoric and power in a democracy. The final section is a sketch of the principles on which the two greatest Greek historians, Herodotus and Thucydides, constructed their outlooks on human affairs. Ultimately, the collection intends to make selected key concepts in ancient Greek social and political culture accessible to a lay audience. It also shows how the differences—rather than the similarities—between the ancient Greeks and us can contribute to a deeper understanding of our own time.

Prophet Muhammad (Peace Be Upon Him) in the Bible Dr. S.M. Mohiuddin Habibi, Syed Ahsan Habibi, 2016-05-13 The greatest hope of all the religious groups that awaited for scores of centuries with a dogma of their own Holy Books which witnessed the glory and the majesty of that personality called as 'Muhammad' and 'Ahmad' - 'the Glorious' and 'the Praised', on whom be peace and lasting blessings, which certainly got fulfilled when he finally arrived on the stage of the history. The Scriptures of the Prophets that went before him ended their tasks by heralding the tiding of his coming. Despite the textual corruption of those ancient scriptures, the golden sayings were still preserved by ALLAH, the One True God as a signpost for the honest and noble readers. The seekers of truth! Be certain of the fact that Prophet Muhammad (Peace Be Upon Him) was the promised Prophet and the awaited saviour whom the Jews called as the King Messiah. His coming was prophesied by all the Prophets like Moses and Jesus (Peace Be Upon Them) long before his arrival, and he was also mentioned in the Old and New Testaments. Likewise, the Far East Indian scriptures never failed to mention 'his name and praises' which certainly constitute a miracle pertaining to him and confirming his Prophethood. In the light of the above facts, how could a man of wisdom escape from this overwhelming thought? Or will he still deny this truth? Or will he still await and hope that from Heaven angels would come and guide him when the final Message has already been delivered by 'Muhammadur Rasul ALLAH' to the creation of ALLAH in general, on whom be peace and lasting blessings? Indeed, it is ALLAH, the Lord of the worlds Who Himself calls on us to acknowledge this truth in the Holy Quran: O mankind! The Messenger (Muhammad, on whom be peace and lasting blessings) hath come unto you with the Truth from your Lord. Therefore believe; (it is) better for you. But if ye disbelieve, still, lo! Unto ALLAH belongeth whatsoever is in the heavens and the earth. ALLAH is ever Knower, Wise - (4:170).
