My Kind of Sound Enrique Encabo,2020-11-24 This volume explores the importance and significance that music has in our lives. The relationship between music and identity is based on conceptions about meanings and identification, especially powerful when connected with youth and popular music. We narrate ourselves in a musical way and we must study 'music as culture' rather than 'music in culture'. The contributions to this book attend to emerging phenomena such as the rise of the Reggaeton music around the world, the importance of music in anime media, and music industry changes and uncertainties in the new millennium. Music is art, but it is also an industry and a business, and the two are intertwined: through the sale of tickets, original formulas are obtained and, in the same way, products (not just musical, but multimedia) are born from alternative culture, eventually becoming mainstream. In addition, this book also takes into account iconic artists such as Nirvana, David Bowie or Miley Cyrus, and the important contribution of music to the narrative and success of popular TV series, analysing cases such as Babylon Berlin and Vikings. From Blade Runner (1982) to current television mainstream productions, the music-image alliance does not only satisfy and distract us, but also challenges us and forces us to rethink our view of the world.

*Hit Makers* Derek Thompson,2017-02-07 "Enthralling—full of 'aha' moments about why some ideas soar and others never get off the ground. This book picks up where *The Tipping Point* left off. —Adam Grant Nothing "goes viral." If you think a popular movie, song, or app came out of nowhere to become a word-of-mouth success in today's crowded media environment, you're missing the real story. Each blockbuster has a secret history—of power, influence, dark broadcasters, and passionate cults that turn some new products into cultural phenomena. Even the most brilliant ideas wither in obscurity if they fail to connect with the right network, and the consumers that matter most aren't the early adopters, but rather their friends, followers, and imitators—the audience of your audience. In his groundbreaking investigation, Atlantic senior editor Derek Thompson uncovers the hidden psychology of why we like what we like and reveals the economics of cultural markets that invisibly shape our lives. Shattering the sentimental myths of hit-making that dominate pop culture and business, Thompson shows quality is insufficient for success, nobody has good taste, and some of the most popular products in history were one bad break away from utter failure. It may be a new world, but there are some enduring truths to what audiences and consumers want. People love a familiar surprise: a product that is bold, yet sneakily recognizable. Every business, every

artist, every person looking to promote themselves and their work wants to know what makes some works so successful while others disappear. Hit Makers is a magical mystery tour through the last century of pop culture blockbusters and the most valuable currency of the twenty-first century—people’s attention. From the dawn of impressionist art to the future of Facebook, from small Etsy designers to the origin of Star Wars, Derek Thompson leaves no pet rock unturned to tell the fascinating story of how culture happens and why things become popular. In Hit Makers, Derek Thompson investigates: \* What Taylor Swift, the printing press, and the laugh track have in common \* The secret link between ESPN's sticky programming and the The Weeknd's catchy choruses \* How advertising critics predicted Donald Trump \* The 5th grader who accidentally launched Rock Around the Clock, the biggest hit in rock and roll history \* How Barack Obama and his speechwriters think of themselves as songwriters \* How Disney conquered the world—but the future of hits belongs to savvy amateurs and individuals \* The French collector who accidentally created the Impressionist canon \* Quantitative evidence that the biggest music hits aren’t always the best \* Why almost all Hollywood blockbusters are sequels, reboots, and adaptations \* Why one year--1991--is responsible for the way pop music sounds today \* Why another year --1932--created the business model of film \* How data scientists proved that “going viral” is a myth \* How 19th century immigration patterns explain the most heard song in the Western Hemisphere

**Chasing Tone** Jim Reilly,2023-08-15 Prince, Pink Floyd, Metallica, Toto, James Taylor, Keith Richards—these stars and thousands of others all owe a debt of gratitude to Rob Turner who revolutionized the electric guitar and bass. Chasing Tone tells Rob Turner’s story from humble beginnings rewiring his father’s transistor radio components to founding EMG and, finally, to the world’s largest concert stages. Jim Reilly provides a wealth of fascinating insights by weaving together many exclusive interviews with top artists and colleagues, including James Hetfield, Kirk Hammett, and Robert Trujillo of Metallica; legendary session musician Leland Sklar; Vernon Reid of Living Colour; Victor Wooten; Béla Fleck; Nili Brosh; Jim Root of Slipknot; and guitar builders Mike McGuire and John Carruthers. Along the way, Reilly not only sheds light on the history of the electric guitar and bass and how EMG pickups forever altered their course but also explores the elusive relationship between builder and creator, showing how these artists found their sound. This book takes a deep dive into the creative process while providing a history of popular music told from a side of the stage previously underexplored.

**Beachglass** Wendy Blackburn,2025-08-22 When Delia entered treatment for drug and alcohol addiction at age seventeen, her life changed completely: she immersed herself in AA, began to heal old family wounds, and developed a whole new outlook on herself, on spirituality, on relationships. Out of the rubble, she built a life for herself that any recovering woman would be proud of: a loving husband, a beautiful daughter, her own brand of hard-won wisdom. But her long-term sobriety is put to the test when she receives a phone call from her gay best friend, Timothy. Fulfilling a pact they made a decade prior,

Delia tears herself away from her new life in Seattle and rushes home to Los Angeles, to Timothy's bedside, facing the one thing she fears her sobriety cannot survive—losing him. Back in LA, Delia begins to encounter familiar people, places, and temptations...a barrage of memories that makes her stop and sort through her past, looking for the courage she knows she needs now more than ever. As her past catches up with her present, she sees that she has not merely survived her losses and mistakes, but has been made stronger because of them. This understanding comes to her in full as she holds a piece of beachglass in her hand and realizes that it is its scuffs and scrapes that give it its quiet splendor, its imperfections that give it its beauty and individuality, and that it is from being tossed and tumbled that it no longer shatters—and she knows the same goes for her too. Set against a backdrop of West Hollywood in the late 1980s, populated by a drag queen and a stripper, beautiful boys and artists, and told by a narrator with equal doses of self-deprecating humor, old-soul awareness, fallibility, and brutal honesty, *Beachglass* is a gritty and uplifting story of recovery, a journey that presents a fresh look into the world of AA and offers a convincing rendering of the constant struggle to go into recovery and stay there—no matter what. In this stunning debut novel, Wendy Blackburn writes of the transformative power of love—for others and oneself—and about friendship, about forgiveness, about redemption.

**GLUE** John Dore, 2023-10-04 Winner of the 2024 Business Book Awards (Leadership category) The adoption of remote, hybrid and flexible working is the new normal. But like the old normal, no one seems very happy. The solution requires a different type of leadership - one that unites, transforms and elevates performance. Leadership that creates glue. With

employee engagement, productivity and personal ties on the wane, leaders urgently need to refocus on harnessing relationships, making their organisations more humane, and finding new ways to engage and unleash talent. To do that, the single, most impactful thing leaders can do is to create and nurture an intangible, yet essential, factor called glue. So, this book sets out some ideas about glue: where to look for it, how to use it and, most importantly, how to cultivate glue amongst your most valuable people. It explores the approach of some unusual leaders, and of firms transformed through the 'organisational advantage' of smartly configuring and harnessing talent. Using stories from firms such as Alibaba, Apple, Barclays, Sky, Husqvarna Group, HSBC, Space X, Zopa and Richer Sounds, the book shows how leaders can shape the effectiveness of teams, reimagine the workplace, and reinvigorate their business through the talents, ideas and energy of their firm's best people. This book is for anyone who has a genuine interest in leading others with impact and wants to better unite, transform and elevate their business. Whatever your role, sector or seniority, this book sets out a distinctive vision for the firm and shows the profound impact you can make through creating and nurturing glue.

*Text, Speech and Dialogue* Petr Sojka, Ivan Kopeček, Karel Pala, 2003-08-02 The Text, Speech and Dialogue (TSD) Conference 2002, it should be noticed, is now being held for the 7th time and we are pleased to observe that in its short history it has turned out to be an international forum successfully intertwining the basic fields of NLP. It is our strong hope that the conference contributes to a better understanding between researchers from the various areas and promotes more intensive mutual cooperation. So far the communication between man and computers has displayed a one-way nature,

humans have to know how the - chines work and only then can they “understand” them. The opposite, however, is still quite far from being real, our understanding of how our “user-friendly” computers can understand us humans is not deep enough yet. A lot of work has to be done both in the near and distant future. Let TSD 2002 be a modest contribution to this goal. The conference also serves well in its second purpose: to facilitate researchers meeting in the NLP ?eld from Western and Eastern Europe. Moreover, many participants now come from other parts of the world, thus making TSD a real crossroadsforresearchersintheNLParea. Thisvolumecontainstheproceedings of this conference held in Brno, September 9-12, 2002. We were honored to have as keynote speakers James Pustejovsky from Brandeis University, and Ronald Cole from the University of Colorado. We would like to thank all the Program Committee members and external reviewers for their conscientious and diligent reviewing work.

**Smiling Again** Sally Stap,2013-10-01 The “poignant account of one woman’s struggle for health and faith—and the tireless devotion of family” in the face of a devastating illness (Peter DeHaan, PhD). Sally Stap was living a happy life with a successful career, juggling the usual concerns about job, daughters, and everyday obligations. But her world was shattered when she was diagnosed with an acoustic neuroma—a benign but large brain tumor that would require a major invasive operation to remove. Smiling Again is a story of perseverance and appreciating the beauty of life in spite of pain. Writing with a poignant blend of honesty, dry humor, faith, and inquisitiveness, Sally recounts the shock of diagnosis, the long and painful process of recovery, her eventual retirement due to disability, and ultimately the contentment she found in accepting a new life journey. No matter what trials you may face, Sally’s experience teaches us that even when the worst happens, God is still present and visible—sometimes in unexpected ways. Your future self may be different from who you were before, but those changes can lead you in new and rewarding directions.

**The Life I've Picked** John McEuen, 2018-04-01 John McEuen is one of the founding members of the Nitty Gritty Dirt Band, NGDB. Now 50-years strong, the band is best known for its evergreen bestselling album *Will the Circle Be Unbroken* and for its gorgeous version of the song *Mr. Bojangles*. McEuen is one of the seminal figures who conceived and originated the fusion of folk, rock and country, a unique sound still hugely popular today. In addition to performing on tour with the Nitty Gritty Dirt Band and on dozens of bestselling NGDB albums (many of which went platinum and gold), McEuen also has a successful solo performing and recording career. And as a music producer, he won the Grammy Award in 2010 for producing *The Crow*, a music album by Steve Martin, John's lifelong friend. McEuen writes candidly and movingly about the ups and downs in his life. Among the highs was NGDB's tour of the Soviet Union in 1977; they were the first American group to perform there. Among the downs was the breakup of his family in the 1980s. McEuen is a born storyteller, and his tales of working with everyone from Linda Ronstadt to Willie Nelson to Johnny Cash to the Allman Brothers to Bob Dylan to Dolly Parton to, of course, Steve Martin will thrill every fan of folk, rock, and country music alike.
