The Ascension of Isaiah Jonathan Knight, 1995 The Ascension of Isaiah is an important but neglected apocalypse from the early second century CE. Its author wrote at a time when charismatic prophecy was falling into decline and when the experience of oppression from the Roman government was causing deep problems for pious Christians. He responded by providing assurance about the promised parousia and also by offering theoretical attempt to explain how the heavenly Christ had defeated the cosmic powers who inspired hatred of the Christians. The Ascension of Isaiah gives a badly-needed insight into the state of Syrian Christianity just after the death of Ignatius and it shows an early knowledge of some of the New Testament writings. This Sheffield guide examines the life-setting of the apocalypse and also offers a commentary on the complete text.

The Ascension of Isaiah Jan N. Bremmer, 2016 This book is one of the first modern collections of studies on important aspects of the Ascension of Isaiah, which occupies a special place among the early Christian writings, due to its complicated origin and its relevance in regards of the early Christian self-understanding in respect of the Jews. The volume starts with an analysis of the place of the Ascension in the development of early Christian prophecy and continues with several chapters that discuss the problems of the date, provenance, genre and interpretation of the Ascension as well as its potential relationship to Marcion. The following chapters focus on various aspects of the Ascension, such as its mystical character, oracular nature, self-designation, Johannist constellation, religious experience, cosmology, the descent of Christ, eschatology and the Virgin birth. A final chapter looks at P. Amh. I 1, the Greek witness to the Ascension of Isaiah. The volume concludes, as has become customary, with a bibliography and index.

Book of Isaiah's Ascension. REV Joseph Klaus, 2020-09-19 The Ascension of Isaiah is an apocryphal Old Testament dating from the 1st or 2nd century, organized by a still unknown Christian scholar. According to the theory of Robert Henry Charles, the text is composed of three distinct parts. The first seems to have been written by a Jewish author and the other two by Christian authors. Once it is established that it was written in the first or second century after the resurrection of Jesus Christ, its credibility is quite questionable. It contains 3 different sections related to the prophet Isaiah. The first part of the book is called Martyrdom of Isaiah. It says that before King Hezekiah died, Isaiah warned him that his son Manasseh would not go his way. When Manasseh took power, Isaiah and a group of prophets went into the desert and a demon named Belial inspired the false prophet Belkira to accuse him of treason. The king condemns Isaiah to death by sawing him in half, according to Jewish history. The second part of the book is called the vision of Isaiah or the testament of Hezekiah. In this part, the author may have inserted an apocalypse, or revelation, of Christian origin and probably a legend that speaks of a vision of the coming of Jesus, the subsequent corruption of the Christian church, the state of Belial and the Second Coming. The third part describes Isaiah's journey through the seven heavens and talks about the life, death and resurrection

of Jesus Christ. The Apocryphal Ascension of Isaiah consists of about three Ethiopian manuscripts, but the fragments were written in Greek, Latin and ancient Slavic. These three texts seem to have been initially written in Greek, but it is possible that the text called Martyrdom of Isaiah was written from an original written in Hebrew or Aramaic. The name of the book was Epiphanius and Jerome of Stridus, the first writer and translator of the Hebrew texts of the Old Testament and the Greek texts of the New Testament into Latin, from which the so-called Vulgate originated. These three texts were not recognized by Christianity because they were considered apocryphal and therefore were not included in the biblical canon.

The Jewish Roots of Christological Monotheism Newman, James Davila, Lewis, 2021-10-25 Although there are many studies of second Temple Judaism (in general) and of Christianity's relationship with Judaism (in particular), there has not been a sustained and comprehensive investigation of the way in which Christ-devotion in the first two centuries of the common era represents a manifestation of Jewish monotheism. This volume fills this gap in four distinctive ways: (1) by re-examining the theological force of monotheism during the Second Temple period; (2) by retracing the historical steps of Christianity's adaptation / mutation / re-definition of Jewish monotheism; (3) by exploring and debating the influence of non-Jewish traditions on this process; and (4) by mapping the ways in which Christianity's unique appropriation of Jewish monotheism helps explain the intriguing relationships among emerging Christian, Jewish and Gnostic communities. In particular, the eighteen essays demonstrate how the creation mythic of narratives, the revelatory power of mystical experiences, and the sociology of community formation capitalized on the Jewish mediotoral tradition to encourage and legitimate the Christian praxis of Christ-devotion.

The Ascension of Isaiah R. H. Charles, 2015-07-20 Excerpt from *The Ascension of Isaiah: Translated From the Ethiopic Version, Which, Together With the New Greek Fragment, the Latin Versions and the Latin Translation of the Slavonic, Is Here Published in Full* A new edition of the Ascension has long been needed. That of Dillmann was in its time a most helpful and meritorious work, though his commentary is too brief, and his Ethiopic text less good than it might have been, owing to his somewhat faulty collation of the MSS. and his failure to use for critical purposes the Latin versions at his disposal. For the present edition accordingly the Ethiopic MSS. have been collated and the text edited anew. Full account has therein been taken of the Latin versions and the Greek Legend, as well as of the new textual authorities now accessible - Grenfell and Hunt's fragmentary Greek text, and Bonwetsch's translation of the Slavonic version. Indeed, to make the textual evidence complete I have arranged the Greek text, the Latin versions, and the Latin translation of the Slavonic in parallel columns with the Ethiopic, and appended at their close the Greek Legend, which, being built on the Ascension, is an important witness to its text. The genealogical relations subsisting between these authorities are set forth in the Introduction. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Angelomorphic Christology Gieschen, 2018-07-17 This study demonstrates that angel and angel-related traditions, especially those growing from the so-called Angel of the Lord in the Hebrew Bible, had a significant impact on the origins and early development of Christology to the point that an Angelomorphic Christology is discernable in several first century texts. Significant effort is given to tracing the antecedents of this Christology in the angels and divine hypostases of the Hebrew Bible and Second Temple Jewish literature. The primary content of this volume is the presentation of pre-150 CE textual evidence of Angelomorphic Christology. This religio-historical study does not spawn a new Christology among the many scholarly Christologies already extant. Instead, it shows the interrelationship of various Christological trajectories and their adaptation from Jewish angelomorphic traditions.

The Ascension of Isaiah Isaiah, 2022-06-12 The Ascension of Isaiah is a composite work of great interest. In its present form it is probably not older than the latter half of the 2nd century of our era. The Ascension of Isaiah is made up of three parts-the Martyrdom of Isaiah, the Testament of Hezekiah and the Vision of Isaiah-and these circulated independently as early as the 1st century. The first of these was of Jewish origin; the other two were the work of Christian writers. The Vision of Isaiah is important for the knowledge it preserved of 1st-century beliefs in certain circles as to the doctrines of the Trinity, the Incarnation, the Resurrection, the Seven Heavens, &c.

The Ascension of Isaiah Sr (Pastor) Shepherd, 2019-09-17 The Ascension of Isaiah While researching the lost books of the Bible, Dr. John Shepherd's attention was drawn to The Ascension of Isaiah. Research shows that it became known around 100 to 200 BC and was originally dictated in the presence of King Hezekiah by Isaiah in about 680 BC. Isaiah directed that it never be made public, but it was to be passed down through the prophets until the time of the end. Scriptures in The Ascension of Isaiah confirm everything we already know to be truth from the Old and New Testaments of the Bible concerning the life of Jesus Christ and the last days. But The Ascension of Isaiah 4:12-14 gives us additional information that we didn't have before! Also available are books titled The Revelation, The Rapture, a video called UPC Codes and 666, plus two charts. A chart presentation called The Last Days and a chart called the Twelve Dimensional Levels of the Divine Order of Reality. These items give more insight on the end-time understanding of Bible prophecy. These are available for free on our website at www.shepherdministries.org Shepherd Ministries, Inc. Dr. John H. Metamorphoses Turid Karlsen Seim, Jorunn Økland, 2009 How were ideas and experiences of transformation expressed in early Christianity and early Judaism? This volume explores the social and philosophical frameworks within which transformative ideas such as resurrection and practices of becoming a new being were shaped. It also explores the analogies and parameters by which transformation was being observed, noted and asserted. The focus on transformation helps to connect topics that tend to be studied separately, such as cosmology, resurrection, aging, gender, and conversion. The textual material is wide-ranging and there are new readings of core passages. Cosmology and Eschatology in Jewish and Christian Apocalypticism Adela Yarbro Collins, 2000-01-01 This comprehensive work covers many different Jewish and Christian apocalyptic texts and movements from the second century BCE through the fourth century CE. It focuses on two major themes, cosmology which studies the structure of the universe, including its religious function and eschatology, which interprets history and the future. The relevant Jewish texts and history are discussed thoroughly in their own right. The Christian material is approached in a way that shows both its continuity with Jewish tradition and its distinctiveness.
