**Fidel Molina-Luque**

*Amor líquido* Zygmunt Bauman, 2018-05-08 Amor líquido continúa el certero análisis de Zygmunt Bauman sobre la sociedad en el mundo globalizado y se centra, en esta ocasión, en el amor. Nos habla del miedo a establecer relaciones duraderas más allá de las meras conexiones; de la solidaridad, que parece depender de los beneficios que genera; del amor al prójimo, uno de los fundamentos de la vida civilizada y de la moral; y de los diversos proyectos para «deshumanizar» a los refugiados, a los marginados y a los pobres. En Amor líquido, Zygmunt Bauman, a través de una de las reflexiones más audaces y originales de nuestro tiempo, revela las injusticias y las angustias de la modernidad. Pero no es absolutamente pesimista, también expresa su esperanza en el hombre, convencido de que es posible superar los problemas que plantea la moderna sociedad líquida.

**Amor líquido (Nova edição)** Zygmunt Bauman, 2021-07-30 Best-seller da obra de Zygmunt Bauman — agora em novo projeto gráfico —, *Amor líquido* é um livro fundamental para a compreensão das relações afetivas dos dias de hoje. A era da modernidade líquida em que vivemos — um mundo repleto de sinais confusos, propenso a mudar com rapidez e de forma imprevisível — é fatal para nossa capacidade de amar, seja esse amor direcionado ao próximo ou a nós mesmos. Zygmunt Bauman, um dos mais originais e perspicazes sociólogos da contemporaneidade, investiga aqui de que forma nossas relações tornam-se cada vez mais frágeis e geram níveis de insegurança cada vez maiores. Uma vez que damos prioridade a relacionamentos em “redes” que podem ser tecidas ou desmanchadas com igual facilidade (e frequentemente sem que isso envolva nenhum contato além do virtual), não sabemos mais como manter laços a longo prazo. Sensível e brilhante como de hábito, Bauman faz deste *Amor líquido* muito mais do que uma mera e triste constatação, mas um alerta revigorante. Ele busca esclarecer, registrar e apreender de que forma o homem sem vínculos — figura central dos tempos modernos — se conecta.

*The Bad Bunny Enigma* Sheilla R. Madera, Nelson Varas-Díaz, Daniel Nevárez Araújo, 2024-11-19 This collection offers the first comprehensive analysis of Bad Bunny’s impact on music, culture, and politics. Exploring his gender-fluid style, Afro-Caribbean aesthetics, and critiques of colonialism, the book highlights his role in amplifying marginalized voices. With contributions from diverse scholars, it presents a balanced view of his influence on intersectional resistance. The chapters examine whether Bad Bunny represents a cultural shift or a fleeting moment, positioning him as a multifaceted figure in

contemporary culture and activism.

Amor l'quido Zygmunt Bauman, Carlos Alberto Medeiros, 2004 Neste livro, o autor investiga de que forma as relações parecem tornar-se cada vez mais 'flexíveis', gerando níveis de insegurança maiores. Segundo Bauman, a prioridade a relacionamentos em 'redes', as quais podem ser tecidas ou desmanchadas com igual facilidade - e frequentemente sem que isso envolva nenhum contato além do virtual -, faz com que as pessoas não saibam mais manter laços a longo prazo. Esta obra procura alertar que não apenas as relações amorosas e os vínculos familiares são afetados, mas também a capacidade de tratar um estranho com humanidade é prejudicada.

Internet Infidelity Sanjeev P. Sahni, Garima Jain, 2018-01-24 This volume discusses the phenomenon of internet infidelity by looking at the psychological, social, legal, and technological aspects involved in such behaviour. The rise of social media as well as technological advancements that create 'real' experiences online have made it possible for people to engage in multiple kinds of online relationships. These create concerns about regulating such activities via national and international law, as well as psychological and social concerns of understanding the overall impact of such behaviour. Therefore, this volume, which includes perspectives from across the world, asks and addresses some fundamental questions: Does internet infidelity amount to cheating? How is virtual infidelity different from actual infidelity? What are the social, interpersonal and psychological impacts of internet infidelity? Do people in different cultures view online infidelity differently? What are the myths associated with online infidelity? What are the various intervention measures or therapeutic techniques for treating people who are addicted to cybersex or pornography? The legal dimensions of internet cheating are equally important since adultery is considered as a criminal offence in some countries. As yet, there is no universally accepted definition of internet infidelity and legal perspectives become very important in understanding the phenomenon. This volume includes grand theory approaches as well as detailed case studies and provides unique and multidisciplinary insights into internet cheating. It is ideal for marital therapists, counsellors, criminologists, legislators, and both researchers and students.

**Amidst the Flow** Richard Alecsander Reichert, 2024-04-11 This book presents data and discusses the results of research conducted on crack cocaine consumption and other drug use in the city of São Paulo, Brazil, specifically in the area commonly referred to as Cracolândia (Crackland). This context is marked by high social vulnerability, rife with numerous inequalities, violence, and human rights violations. The work describes the living conditions of individuals in this setting, narrating their social trajectories, urban itineraries, motivations for substance use, perspectives, and life projects. The book provokes a crucial debate concerning the iatrogenic effects resulting from prohibitionist-repressive war on drugs policies. It

highlights potential alternative paths for formulating and implementing public policies and psychosocial interventions. 'Amidst the Flow' serves as a valuable resource for researchers and professionals in the fields of addiction studies, healthcare, sociology, law, and drug policy-making. It presents a compelling call for a paradigm shift in drug policies.

**Emotional Regulation - Theory and Application Across Clinical Settings** Maliha Ibrahim, 2025-02-19 Emotional regulation refers to recognising, managing, and responding to emotional experiences in a healthy and constructive way. It involves adjusting one's emotional responses, whether by suppressing, amplifying, or changing how emotions are expressed, depending on the context and situation. Emotional regulation is crucial for mental health because it helps individuals cope with stress, prevent emotional overwhelm, and maintain emotional stability. Effective regulation can improve relationships, decision-making, and overall well-being, reducing the risk of mental health issues like anxiety, depression, and emotional dysregulation disorders. Poor emotional regulation, on the other hand, can lead to impulsive behaviours, emotional outbursts, or withdrawal, which may contribute to mental health challenges. These aspects apply to individuals, relational interactions, and responses to social cues, the environment, and interpersonal behaviours. Mastering emotional regulation is essential for emotional resilience, fostering positive social interactions, and maintaining psychological balance. This book will capture emotional regulation across various theoretical and application-based contexts in therapy. Emotional regulation in therapy involves collaborating with clients on effectively managing and responding to their emotions, particularly in situations that might otherwise trigger distress or impulsive reactions. Therapeutic approaches for emotional regulation help clients develop the skills to identify, understand, and modulate their emotional responses, thereby promoting healthier coping mechanisms and enhancing mental well-being. The chapters in this book will review how to develop a fuller awareness and labelling of emotions, cognitive aspects of emotional regulation, healthy expression versus suppression, distress tolerance for self and relationships, as well as application to unique populations, mental health concerns and in response to our surrounding environmental changes. Recent developments in problem-solving strategies, innovations in various interventions and therapeutic formats will be discussed, and suggestions for effective coping strategies will be provided.

*When money is not above everything* Igor Vinicius Lima Valentim, 2020-06-17 Can we still dream of a more egalitarian and fairer world? Do we want it? Can we find now, in our current time, concrete examples of people living and working in different settings than corporations and profit-oriented organizations? Do we want to? Is there something different going on? Or is it all just a utopia portrayed in books and movies? We live the imperative of winning: always and at any price. Results matter, but not how we get to them. We do not see ourselves as complementary or interdependent. The other human beings have become adversaries, competitors... enemies! What shocks me most is how many of us consider this kind of mindset, policies, and ways of life to be natural. People aspire to grow more and more within these ready and available ideals of success. Success for whom? At the cost of whom? Me first. Me second. Me third. But that is not unanimous! Not everyone

thinks, feels, and desires to live like this! I always get confused when I think that we are in the middle of the 21st century, with so much technology, so many resources of all kinds, so many possibilities of making the world a better place for everybody and not just for a tiny group, and we still consider that the 'standard' way to work, generate income, find the necessary means to live, is to fit within the model that is the most common: to work in highly hierarchical, utilitarian private companies, where one commands and the others obey, where people are managed by fear of losing their job (and livelihood) the next day. By the way, how is it possible that, in the same organization, one earns a thousand times more than the other? How can this be supported, applauded, justified, and even desired by so many people? Something that I often think about is: what do we stimulate when we adhere to determined values, practices, and behaviors? What are we signaling as natural, as positive? What are we (re)producing? I am sure there are other ways of living and working. How and where can I find them? It is rare to perceive incentives to collective mobilization, ways of managing life, and organizations that stimulate values such as cooperation, solidarity, and egalitarianism. We cannot fail to question and even deconstruct what seems to represent the nature of people and things, including to show that the modes of existence are neither unique nor inevitable. I did not want to just complain. Denouncing, debating, discussing: all fundamental. But I wanted to go further. I was curious to look for concrete alternatives. Practical possibilities. Concrete experiences. To live. To experiment. Until 2004, I had never heard of Solidarity Economy, associativism, or even self-management. But there are initiatives in which profit does not seem to be above all. You must pick them up, listen to them. You must live them. I love listening to stories and dreams. I love learning from how people build their existences and what types of values and societies these modes stimulate. It was essential to meet people who, together, fight for other ways of working and being, based on attitudes and values that are more loving and focused on life than those who today seem naturalized to many people, but that have nothing of natural. I write this book with narratives linked to what I lived and felt: processes, experiences, experimentations. Theory is treated here as a tool, not as an end. I try hard to make it a job with and not about people and companies. I have learned a lot. I took many life lessons. During my journeys, I have heard and witnessed something that seems contrary to what many preach and believe: there are other suppliers... other qualities of dough. Everybody must win. Everyone must sell. Everyone must have their space. I hope that this book can affect you, raise questions, concerns, actions, and changes, especially in the direction of more just, egalitarian, and supportive worlds.

Models of Social Intervention and Constructionism Laura Karina Castro Saucedo, Fernando Bruno, César Arnulfo De León Alvarado, 2023-08-25 This book takes a new, critical, and multidisciplinary look at experiences and meanings of social intervention in different social contexts, taking the approaches of social constructionism as a theoretical approach. The volume collects the results of theoretical-practical experiences that social science professionals with critical and constructionist visions linked to social work intervention have carried out in different spaces. It considers the way social

work intervention models are built, their foundation, and their application. It provides the findings on tested intervention models built according to the basis of social constructionism in specific social scenarios, providing interesting findings that show intervention alternatives beyond traditional approaches. The social intervention strategies discussed take place in diverse situations, including health recovery and reconstruction in breast cancer, family abandonment issues of institutionalized adolescents, institutional care of refugee families, women caregivers of children with disabilities, men who exercise violence, and more.

**Family Ties and Psychosocial Processes in an Ageing Society** Alejandro Klein, 2024-05-10 This book contributes to the discussion on the ageing society by addressing the new psycho-social structures of the ageing society, the problems around family bonds and ties, and the structures of care and protection. The book sheds light on the new roles of grandparents and new grandparents, and the empowerment and resilience initiatives, thereby providing a broad discussion of what the ageing society implies in psychosocial terms. These issues are addressed in an interdisciplinary way, but also in an approach that is also rare, comparing different realities between Europe and Latin America. The [basis of the] English translation of this book from its Spanish original manuscript was done with the help of artificial intelligence. A subsequent human revision of the content was done by the author.

**Mental Health of Children and Adolescents in the 21st Century** Marco Carotenuto, 2024-10-16 This book presents thought-provoking and pioneering insights into key issues surrounding the mental health of children and adolescents. Its focus on this age group underscores the critical need to recognize and address signs and symptoms of mental distress during this pivotal and impressionable stage of life.

**The New Social Contract Between Generations** Fidel Molina-Luque, 2025-05-01 The cornerstone of this book is the innovative concept of profiguration, a term coined by Fidel Molina-Luque to encapsulate the essential agreement and recognition required between generations in contemporary society. Profiguration emphasises the intrinsic value of interdependence across all age groups, fostering a holistic life experience for the young, adults and the elderly. Rooted in our social nature, especially crucial amid the current crisis, profiguration becomes a poignant antidote to loneliness. The imperative of mutual love and care is heightened, illuminating the path to a fulfilled existence. This book advocates a paradigm shift through the lenses of sociology and social sciences, stressing the urgency of a mindset overhaul. It calls for a new social contract grounded in altruism for both current and future generations, highlighting the importance of love, solidarity and dialogue. Beyond interpersonal dynamics, it underscores the pivotal roles of education, sustainability and environmental stewardship, aspiring to shape a more promising present and future within a conscientious societal framework. Tailored to engage scholars, professionals and students alike, its accessible concepts are easily comprehensible and applicable across the following fields: sociology, anthropology, social work, education, law and business administration

and health studies (medicine, nursing, physiotherapy), among others. Chapters 1, 3 and 5 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution (CC BY) 4.0 license.

*Homo Amandi: Evolución Consciente del Miedo a la Solidaridad* Dr. Silvia Casabianca, 2019-12-14 Los humanos nacemos con el cerebro cableado para el amor y la compasión y la neurociencia nos enseña que el cerebro está constantemente cambiando. Estos dotes innatos están en nuestros genes, nuestra fisiología y nuestra bioquímica y pueden ser nutridos y desarrollados en función de construir un mundo más solidario

**Padres y madres en serie** Visa Barbosa, Mariona (coord.), 2016-09-02 La tercera edad de oro de la ficción televisiva ha favorecido la proliferación de series de gran despliegue técnico y a la vez de narrativas que describen la intimidad y la rutina cotidiana de los protagonistas. Son obras que nos presentan personajes alejados de la heroicidad, representados a menudo dentro del espacio doméstico, que ha pasado a ser un lugar clave para la descripción y evolución de los personajes. Partiendo de la premisa que la ficción televisiva desarrolla una clara función de referencia y legitimación social, creando estereotipos y modelos en los que los espectadores se identifican, este libro analiza veinte de las series contemporáneas más populares, reflexionando sobre el rol paternal y maternal de sus protagonistas. En algunas series se encuentran ejemplos que se alejan de la descripción de la familia patriarcal convencional. Destacamos así la pluralidad de discursos que se están ofreciendo, aunque también observamos que muchas de ellas, a pesar de un envoltorio transgresor, siguen reproduciendo roles que alimentan los valores familiares tradicionales.

*Teaching for Global Community* César Augusto Rossatto, 2011-06-01 Education has long been viewed as a vehicle for building community. However, the critical role of education and schools for constructing community resistance is undermined by recent trends toward the centralization of educational policy-making (e.g. racial profiling new laws in the US—Arizona and Texas; No Child Left Behind and global racism), the normalization of “globalization” as a vehicle for the advancement of economic neo-liberalism and social hegemony, and the commodification of schooling in the service of corporate capitalism. Alternative visions of schooling are urgently needed to transform these dangerous trends so as to reconstruct public education as an emancipatory social project. *Teaching for Global Community: Overcoming the Divide and Conquer Strategies of the Oppressor* examines these issues among related others as a way to honor and re-examine Freirean principles and aim to take critical pedagogy in new directions for a new generation. The goal is to build upon past accomplishments of Paulo Freire’s work and critical pedagogy while moving beyond its historical limitations. This includes efforts that revisit and re-evaluate established topics in the field or take on new areas of contestation. Issues related to education, labor, and emancipation, broadly defined and from diverse geographical context, are addressed. The theoretical perspectives used to look at these emerge from critical pedagogy, critical race theory, critiques of globalization and neoliberalism, marxist and neo-marxist perspectives, social constructivism, comparative/international education,

postmodernism indigenous perspectives, feminist theory, queer theory, poststructuralism, critical environmental studies, postcolonial studies, liberation theology, with a deep commitment to social justice.

*Fix Me Up* Judith Lancioni,2010-07-28 This collection of essays focuses on two sub-genres of reality television: dating shows, like The Bachelor, Joe Millionaire, and the earlier Love Connection; and makeover reality shows, like The Swan and Are You Hot? The Search for America's Sexiest People. Each author explores a different aspect of one or both of these types of shows, focusing especially on the cultural interaction between the text--dating and makeover shows--and society.

**Neoliberalism in Multi-Disciplinary Perspective** Adrian Scribano,Freddy Timmermann Lopez,Maximiliano E. Korstanje,2018-08-08 This volume brings together well-versed authors from four continents to critically discuss the roots of neoliberalism and how academics use the word today. Neoliberalism has recently recycled and mutated towards new forms of radicalization where fear plays a leading role legitimating policies, which would otherwise be overtly neglected by citizens. The authors ignite a new discussion within social sciences, combining the advances of sociology, history, anthropology, communication and the theory of mobilities to understand the different faces and guises of neoliberalism.

**Tendencias de la Comunicación. El Ecosistema Mediático Contemporáneo. Discusiones sobre audiencias, estrategias de comunicación y resultados. Vol. II** Santiago Estrella Silva,2020-07-31 La peculiaridad del presente libro es que son dos libros en uno. Los primeros 5 capítulos se presentan bajo el subtítulo “Conocer a las Audiencias” y en ellos se abordan temas que tienen a las audiencias contemporáneas y sus procesos de consumo cultural y de interacción mediática y digital como centro de la discusión; mientras que los siguientes 5 capítulos se agrupan bajo el subtítulo: “Posicionarse a las Nuevas Estrategias para Nuevos Sectores” y ofrecen temas variados relacionados a la publicidad, los modelos de negocio y las nuevas situaciones del mercado mediático, abordajes sobre turismo y la situación nueva de turistas en tanto receptores de información con demandas más puntuales a la ofertada tradicionalmente. El capítulo final es un ensayo elocuente sobre el comportamiento comunicacional de sectores de la audiencia vinculados a Internet frente a una teleserie de la televisión clásica en Ecuador. Y si bien estos dos conjuntos de capítulos difieren en sus temáticas concretas, conllevan en común la búsqueda de nuevas definiciones, nuevos diseños metodológicos y nuevas conceptualizaciones de sus temas específicos.Los autores aquí reunidos proceden del ámbito iberoamericano, hispano y luso parlante, americano y europeo, lo cual ofrece una singular muestra internacional de trayectorias, intereses académicos y abordajes a los temas seleccionados.
