Developmental Editing, Second Edition Scott Norton, 2023-11-10 First published in 2009, Scott Norton's book is the only guide dedicated solely to the art of developmental editing. With more than three decades of experience in the field, Norton offers expert advice on how to approach the task of diagnosing and fixing structural problems with book manuscripts in consultation with authors and publishers. He illustrates these principles through a series of detailed case studies featuring before-and-after tables of contents, samples of edited text, and other materials to make an otherwise invisible process tangible. This revised edition includes a new chapter on editing fiction, which presents similar challenges to nonfiction plus a range of additional ones, including issues of premise, setting, plot, and character development. For the first time, the book comes with a set of exercises that allow readers to edit sample materials and compare their work with that of an experienced professional. And it includes new or expanded coverage of basic business arrangements for freelancers, self-publishing, e-books, and content marketing, among other topics. Aspiring and experienced developmental editors as well as the authors who work with them will find a wealth of insight in this new edition--

The Book of Mars Stuart Clark, 2022-11-10 From myth to Musk, astrology to astronomy, Dr Stuart Clark selects the very best writing about the Red Planet. From its very first sighting, Mars has been a source of fascination for humanity. Named for the Roman god of war, this red planet has been explored more than any other beyond Earth and continues to occupy a distinctive place in our imagination. It's an environment that may even foster life. In The Book of Mars, Dr Stuart Clark selects one hundred pieces of writing about the planet. It is a collection that brings together fact and fiction, dreams and fears, centuries of observation and more recent feats of interstellar exploration. From classic writers of science fiction - Stanley G. Weinbaum, Arthur C. Clarke, H.G. Wells, Ray Bradbury, Pamela Sargent, Roger Zelazny - to distinguished experts in astronomy, astrobiology and aerospace engineering; from Hugo and Nebula Award-winning authors - Kim Stanley Robinson, Mary Robinette Kowal - to trail-blazing journalists and science communicators; from Andy Weir's The Martian to Elon Musk's SpaceX programme, The Book of Mars is an extraordinary overview both of the Red Planet and of the way scientific investigation diffuses into culture.

What Writers Need to Know: Essential Topics William Bernhardt, 2020-01-21 In this volume, William Bernhardt tackles essential topics that, while smaller in scope, are nonetheless necessary to a contemporary author's survival. How do you create a memorable series character? Should you write in the first person? What does Show, don't tell really mean? How do you add suspense? Bernhardt also discusses legal issues confronting writers and marketing concerns, such as the all-important book description for online sales pages. Bernhardt tackles these eleven topics with his usual direct, no-nonsense style, telling writers what they need to know without wasting their time.

Out of This World Library Programs Joel A. Nichols, 2017-02-06 Focusing on the most compelling titles across the vast area of imaginative fantasy and science fiction literature and media, this book showcases creative ways to build on existing

interest in these genres and promote reading, literacy, and critical thinking. Science fiction and fantasy stories captivate the imaginations of youth and adults—even today, when real-life technological developments often border on unbelievable. We see evidence of the universal appeal of sci-fi and fantasy-themed tales in popular books, movies, and television series—from The Hunger Games, The Martian, and Star Wars to Jessica Jones and The Man in the High Castle. This guide provides avenues for making use of what naturally interests young audiences pre-teen through emerging or new adult with some 50 programs based on speculative fiction. For each of the literature-based programs, the book provides a description of the project that identifies the appropriate age level and its goals and learning objectives as well as the duration of time and materials needed. While the selection of titles is diverse, special emphasis is given to media and books created by women and people of color. The step-by-step directions, annotation of the book on which the project is based, list of related titles, and special tips ensure that you'll be able to easily implement the program in your classroom or library. Most of the programs have a technology-related component but can be adapted to be done as traditional crafts. All of the programs are appropriate for students in English and creative writing classes as well as for youth or young adults in a public library setting.

Artemis Andy Weir, 2018-07-03 NEW YORK TIMES BESTSELLER • From the renowned author of Project Hail Mary and The Martian comes a “propulsive” (NPR) tale of science, suspense, and humor—a heist story set on the moon. “An action-packed techno-thriller of the first order.”—USA Today Jasmine Bashara never signed up to be a hero. She just wanted to get rich. Not crazy, eccentric-billionaire rich, like many of the visitors to her hometown of Artemis, humanity’s first and only lunar colony. Just rich enough to move out of her coffin-sized apartment and eat something better than flavored algae. Rich enough to pay off a debt she’s owed for a long time. So when a chance at a huge score finally comes her way, Jazz can’t say no. But engineering the perfect crime is just the start of her problems—because her little heist is about to land her in the middle of a conspiracy for control of Artemis herself. Trapped between competing forces, pursued by a killer and the law alike, she’ll have to hatch a truly spectacular scheme to have a chance at staying alive and saving her city. Jazz is no hero, but she is a very good criminal. That’ll have to do.
