Blasphemous Art? Adriaan van Klinken,Nella van den Brandt,Mariecke van den Berg,2024-10-31 This book explores the critical and transformative potential of arts and popular culture for constructions of religion, gender and sexuality. Doing so, it deploys and develops the notion of blasphemous art, honouring and building on the work of Anne-Marie Korte. Deliberately articulated with a question mark, Blasphemous Art? raises questions about the spaces, methods and resources available to individuals and communities at the gendered, sexual and racialized margins of society to tell their stories, claim their bodies and perform symbolic and sacred meaning, and it analyses the productive effects – both aesthetically, politically and theoretically – of such provocative work. The book focuses on a wide range of artistic and cultural expressions, featuring case studies from across Europe, South Africa, Israel and the United States. Drawing on feminist, queer and postcolonial perspectives, the book reveals the critical, constructive and imaginative potential of the creative arts (broadly defined) and popular culture in its complex and diverse representation of, and engagement with, religious life, belief, text, ritual and practice.

The Book of Hidden Things Francesco Dimitri,2018-07-03 Four old friends confront their darkest secrets in this fantasy steeped in nostalgia, folklore, religion, and the seductive landscape of Southern Italy—by the Italian Neil Gaiman. “A tale of adventure, mystery, friendship and heart-wrenching beauty that will make you re-examine what is holy, what is true, and what is beyond the realm of possibility.” —BookPage Four old school friends have a pact: to meet up every year in the

small town in Puglia they grew up in. Art, the charismatic leader of the group and creator of the pact, insists that the agreement must remain unshakable and enduring. But this year, he never shows up. A visit to his house increases the friends' worry: Art is farming marijuana. In Southern Italy doing that kind of thing can be very dangerous. They can't go to the Carabinieri so must make enquiries of their own. This is how they come across the rumors about Art—bizarre and unbelievable rumors that he miraculously cured the local mafia boss' daughter of terminal leukemia. And among the chaos of his house, they find a document written by Art, "The Book of Hidden Things", that promises to reveal dark secrets and wonders beyond anything previously known. Set in the beguiling and seductive world of Southern Italy, Francesco Dimitri's first novel in English is a story friendship, landscape, love, betrayal, and mystery that will entrance fans of Elena Ferrante, Neil Gaiman, and Donna Tartt.

Men of a Single Book Mateus De Azevedo,2010-10-16 In this groundbreaking work, award-winning Brazilian journalist Azevedo presents a frank and objective account of how the label of fundamentalism can be applied to religious and secular 'faiths' alike. In the 21st century, passionate and emotional attachment to a single point of view, and the rejection of all others, has become one of the main social, political, and religious issues, leading to conflicts around the globe.

THE ART OF BLASPHEMOUS II. ENRIQUE C. RODRIGUEZ MOGOLLO (FRANCESCO U.),2024

Art Attacks Malvika Maheshwari,2018-10-16 Since the end of the 1980s in India, self-styled representatives of a variety of ascriptive groups—religious, caste, regional, and linguistic—have been routinely damaging artworks, disrupting their exhibition, and threatening and assaulting artists and their supporters. Often, these acts are claimed to be a protest against allegedly 'hurtful' or 'offensive' artworks, wherein its regularity and brazenness has led to an intensifying sense of fear, frustration, and anger within the art world. *Art Attacks* tells the story of this phenomenon and maps the concrete political transformations that have informed the dynamic unfolding of violent attacks on artists. Based on extensive interactions with offence-takers, assailants, and artists, the author argues that these attacks are not simply 'anti-democratic' but are dependent in perverse ways on the very logics of democracy's functioning in India. At the same time, they have been contained, at least until now, by this very democratic system, which has prevented the spiralling of attacks into an outright condition of art plunder.

Blasphemy S. Brent Plate,2006 Through an examination of a broad range of contentious imagery in art, this book questions the status of blasphemy in a world ever more divided in its views of what is acceptable, and aims to provide a vantage point from which to view the interrelations between religion, politics and the visual arts.

Research Handbook on the Law of Virtual and Augmented Reality Woodrow Barfield,Marc Jonathan Blitz,2018-12-28 Virtual and augmented reality raise significant questions for law and policy. When should virtual world activities or augmented reality images count as protected First Amendment 'speech', and when are they instead a nuisance or trespass? When does copying them infringe intellectual property laws? When should a person (or computer) face legal consequences for allegedly harmful virtual acts? The Research Handbook on the Law of Virtual and Augmented Reality addresses these questions and others, drawing upon free speech doctrine, criminal law, issues of data protection and privacy, legal rights for increasingly intelligent avatars, and issues of jurisdiction within virtual and augmented reality worlds.

Religious Objects in Museums Crispin Paine,2013-08-29 In the past, museums often changed the meaning of icons or statues of deities from sacred to aesthetic, or used them to declare the superiority of Western society, or simply as cultural and historical evidence. The last generation has seen faith groups demanding to control 'their' objects, and curators recognising that objects can only be understood within their original religious context. In recent years there has been an explosion of interest in the role religion plays in museums, with major exhibitions highlighting the religious as well as the historical nature of objects. Using examples from all over the world, *Religious Objects in Museums* is the first book to

examine how religious objects are transformed when they enter the museum, and how they affect curators and visitors. It examines the full range of meanings that religious objects may bear - as scientific specimen, sacred icon, work of art, or historical record. Showing how objects may be used to argue a point, tell a story or promote a cause, may be worshipped, ignored, or seen as dangerous or unlucky, this highly accessible book is an essential introduction to the subject.

Image and Presence Natalie Carnes, 2017-12-12 Images increasingly saturate our world, making present to us what is distant or obscure. Yet the power of images also arises from what they do not make present—from a type of absence they do not dispel. Joining a growing multidisciplinary conversation that rejects an understanding of images as lifeless objects, this book offers a theological meditation on the ways images convey presence into our world. Just as Christ negates himself in order to manifest the invisible God, images, Natalie Carnes contends, negate themselves to give more than they literally or materially are. Her Christological reflections bring iconoclasm and iconophilia into productive relation, suggesting that they need not oppose one another. Investigating such images as the biblical golden calf and paintings of the Virgin Mary, Carnes explores how to distinguish between iconoclasms that maintain fidelity to their theological intentions and those that lead to visual temptation. Offering ecumenical reflections on issues that have long divided Protestant, Catholic, and Orthodox traditions, *Image and Presence* provokes a fundamental reconsideration of images and of the global image crises of our time.

Faith and Choice in the Works of Joss Whedon K. Dale Koontz, 2015-02-12 Joss Whedon once identified himself as an angry, hard-line atheist who is nevertheless fascinated by the concept of devotion. While organized religion seems to hold no satisfactory answers for Whedon, his dedication to exploring the meanings of faith and belief can be seen in many of the characters he has created for such works as *Buffy the Vampire Slayer*, *Angel*, *Firefly*, *Serenity*, and *Fray*. This work examines a variety of Whedon's characters and discusses what can be learned from their struggles and discoveries regarding religion and belief. Part One focuses on the characters' search for purpose, revealing how Dawn, Spike, and Angel attempt to define the meaning of their lives in *Buffy the Vampire Slayer* and its spin-off, *Angel*. Part Two focuses on family, examining the unconventional family dynamic in Whedon's comic book miniseries *Fray* and television series *Firefly*. Part Three centers around the concept of redemption, using *Angel*'s Doyle, *Firefly*'s Malcolm Reynolds and Shepherd Book, and *Buffy*'s Faith Lehane to examine the characters' search for salvation and their own acceptance of their past actions. Finally, Part Four focuses on the harmful potential of religious zealotry, revealing the negative aspects of absolute belief through *Firefly*'s River and *Buffy*'s Caleb. A primary source guide follows the main text, providing the writer, director, and air date of each television episode, along with publication data for Whedon's print works, including the in-publication Season 8 comic books for *Buffy the Vampire Slayer*.
