*Design and Make Curtains and Drapes* Heather Luke, 1996 DECORATING To the growing list of how-to books on curtains and blinds (e.g., Yvonne Rees's *Quick and Easy Curtains and Blinds*, LJ 1/96, and Carol Parks's *Complete Book of Window Treatments and Curtains*, Lark, 1994), Luke brings her expertise as head of a soft furnishings school. She begins each book with clear, well-illustrated instructions on basics such as sewing techniques, measuring, equipment, and set-up. She then proceeds with directions for the simplest treatments unlined curtains and roller blinds continues with more complicated designs such as interlined drapes and Austrian blinds and concludes with embellishments and decorations. A glossary and care instructions are also included. Missing are illustrations of the various hardware used for curtain and shade hangings that is included in Parks's book, which prevents these books from being truly comprehensive. Still, these are solid additions where more window treatment instruction books are needed.-

*The Well-Dressed Window* Sandy Brown, 2017-06-13 *The Well-Dressed Window: Curtains at Winterthur* is a unique compendium of design and textile history and an invaluable resource for designers and homeowners alike. Today Henry Francis du Pont, the force behind the transformation of Winterthur from a family house to the premier museum of American decorative arts, is recognized, along with Henry Davis Sleeper and Elsie de Wolfe, as one of the early leaders of interior design in this country. Working with architects, curators, and antiques dealers, du Pont created some 175 room settings within the house. He assembled his rooms using architectural elements from historic houses along the East Coast and filled them with an extraordinary collection of American furniture and decorative arts. Du Pont's unique talent was his ability to arrange historically related objects in a beautiful way, in settings that enhanced their shape and form through the choice of color, textiles, and style. Du Pont paid particular attention to the design of the curtains, and *The Well-Dressed Window* surveys his achievement, explaining how the fabrics were selected as well as their relationship to the architecture and other decorative elements in the rooms. Forty rooms are presented, each specially photographed to show the overall space in addition to details of fabric and trim. A series of stereoviews taken in the 1930s as well as other period photographs reveal the evolution of the window treatments and upholstery over nearly sixty years. Of particular interest is du Pont's seasonal changing of the curtains, which were rotated throughout the year as the lighting and colors in the surrounding garden shifted.

**Curtains & Drapes** Jenny Gibbs, 1996 Originally published in 1994, an illustrated history of the development of curtains and drapes from medieval times to the modern day, which describes the many influences that produced distinctive period styles, with discussion of developments in textile production and interior design.
