The Longest Day Cornelius Ryan, 2010-02-16 The unparalleled, classic work of history that recreates the battle that changed World War II—the Allied invasion of Normandy. *The Longest Day* is Cornelius Ryan's unsurpassed account of D-Day, a book that endures as a masterpiece of military history. In this compelling tale of courage and heroism, glory and tragedy, Ryan painstakingly recreates the fateful hours that preceded and followed the massive invasion of Normandy to retell the story of an epic battle that would turn the tide against world fascism and free Europe from the grip of Nazi Germany. This book, first published in 1959, is a must for anyone who loves history, as well as for anyone who wants to better understand how free nations prevailed at a time when darkness enshrouded the earth.

Inspired by True Events Robert J. Niemi, 2013-10-17 An up-to-date and indispensable guide for film history buffs of all kind, this book surveys more than 500 major films based on true stories and historical subject matter. When a film is described as based on a true story or inspired by true events, exactly how true is it? Which factual elements of the story were distorted for dramatic purposes, and what was added or omitted? *Inspired by True Events: An Illustrated Guide to More Than 500 History-Based Films*, Second Edition concisely surveys a wide range of major films, docudramas, biopics, and documentaries based on real events, addressing subject areas including military history and war, political figures, sports, and art. This book provides an up-to-date and indispensable guide for all film history buffs, students and scholars of history, and fans of the cinema.

Histories on Screen Sam Edwards, Faye Sayer, Michael Dolski, 2018-02-08 How, as historians, should we 'read' a film? *Histories on Screen* answers this and other questions in a crucial volume for any history student keen to master source use. The book begins with a theoretical 'Thinking about Film' section that explores the ways in which films can be analyzed and interrogated as either primary sources, secondary sources or indeed as both. The much larger 'Using Film' segment of the book then offers engaging case studies which put this theory into practice. Topics including gender, class, race, war, propaganda, national identity and memory all receive good coverage in what is an eclectic multi-contributor volume. Documentaries, films and television from Britain and the United States are examined and there is a jargon-free emphasis on

the skills and methods needed to analyze films in historical study featuring prominently throughout the text. *Histories on Screen* is a vital resource for all history students as it enables them to understand film as a source and empowers them with the analytical tools needed to use that knowledge in their own work.

Twentieth Century-Fox Peter Lev, 2013-03-15 When the Fox Film Corporation merged with Twentieth Century Pictures in 1935, the company posed little threat to industry juggernauts such as Paramount and MGM. In the years that followed however, guided by executives Darryl F. Zanuck and Spyros Skouras, it soon emerged as one of the most important studios. Though working from separate offices in New York and Los Angeles and often of two different minds, the two men navigated Twentieth Century-Fox through the trials of the World War II boom, the birth of television, the Hollywood Blacklist, and more to an era of exceptional success, which included what was then the highest grossing movie of all time, *The Sound of Music*. *Twentieth Century-Fox* is a comprehensive examination of the studio's transformation during the Zanuck-Skouras era. Instead of limiting his scope to the Hollywood production studio, Lev also delves into the corporate strategies, distribution models, government relations, and technological innovations that were the responsibilities of the New York headquarters. Moving chronologically, he examines the corporate history before analyzing individual films produced by Twentieth Century-Fox during that period. Drawn largely from original archival research, *Twentieth Century-Fox* offers not only enlightening analyses and new insights into the films and the history of the company, but also affords the reader a unique perspective from which to view the evolution of the entire film industry.

Combat Films Steven Jay Rubin, 2011-06-28 This critical text offers a behind-the-scenes look at fifteen of the most important American war films of the last 60 years. Based on original interviews and archival research and featuring rare photographs, this book covers films considered unusually realistic for the genre. The original edition (1981) covered war films through World War II, while the present, expanded edition includes seven new chapters covering the Civil War, the American gunboat presence in China in the 1920s, the Korean War, the Vietnam War, the fighting in Mogadishu in 1993 and the war in Iraq.

Elmo Williams Elmo Williams, 2006-09-26 Fate has thrown me some interesting curves, says Elmo Williams, the farm boy turned film editor, director and producer. As a young boy, he traveled with his family in a covered wagon to a new life in a New Mexico homestead. After struggling to help raise his siblings, in 1932 as a young teen he began working for film editor Merrill White. As White's gopher, he spent his spare time watching and learning the art of film editing. Within three years he was a partner in an editing company with White in London. In subsequent years his career bloomed to include producing, editing and directing. In 1954 he was awarded an Academy Award for film editing for *High Noon*. He also worked for Walt

Disney, Darryl F. Zanuck Productions, 20th Century-Fox and others. His works include the films *The Tall Texan*, *The Longest Day*, *Tora! Tora! Tora!*, *The Poseidon Adventure*, *Zorba The Greek*, and *Caravans*, and the TV series *Hee Haw*, *Explore*, *Soggy Bottom U.S.A.* and *Man, Woman and Child*. This memoir traces Williams's life from his early childhood to his views on life at age 93. It is a story of hard work rewarded with a satisfying life, and of one man's efforts to communicate with others in the universal language of film--and of laughter. I intend to keep laughing, he says, a habit I adopted as a child. If I can keep it up, I'll still be around to celebrate my centennial.

The D-Day Landing on Gold Beach Andrew Holborn, 2015-09-24 The Normandy landings of 6 June 1944, across five sectors of the French coast - Utah, Omaha, Gold, Juno and Sword - constituted the largest amphibious invasion in history. This study analyses in depth the preparations and implementation of the D-Day landing on Gold Beach by XXX Corps. Historians have tended to dismiss the landing on Gold Beach as straightforward but the evidence points to a different reality. Armour supported the infantry landing and prior bombing was intended to weaken German defences; however, the bulk of the bombing landed too far inland, and many craft foundered in difficult conditions at sea. It was the tenacity of the assault units and the flexibility of the follow up units which enabled the Gold landing to secure the right flank of the British Army in Normandy. Using detailed primary evidence from The National Archives and the Imperial War Museum, this volume provides a substantial assessment of the background to the landing on Gold, and analyses the events of D-Day in the wider context of the Normandy Campaign.

Penguin Book of New Zealanders at War Gavin McLean, 2009-08-31 The New Zealand Wars of the 1840s and 1860s, other nineteenth-century military encounters, the South African War, the First and Second World Wars, Korea, Malaya, Vietnam, the Gulf War, modern-day peacekeeping . . . The Penguin Book of New Zealanders at War contains the best, widest range of published and non-published written material on our people in warfare. This is a soldier's book - thus letters, diaries, journalists' reports, memoirs. The focus is on actual experience and on human responses to war. A vast array of personal experiences is covered, including POWs, the home front, medical/nursing efforts, as well as coverage of conscientious objectors.

Politics and Cultures of Liberation ,2018-05-29 *Politics and Cultures of Liberation: Media, Memory, and Projections of Democracy* focuses on mapping, analyzing, and evaluating memories, rituals, and artistic responses to the theme of "liberation." How is the national framed within a dynamic system of intercultural contact zones highlighting often competing agendas of remembrance? How does the production, (re)mediation, and framing of narratives within different social, territorial, and political environments determine the cultural memory of liberation? The articles compiled in this volume seek

to provide new interdisciplinary and intercultural perspectives on the politics and cultures of liberation by examining commemorative practices, artistic responses, and audio-visual media that lend themselves for transnational exploration. They offer a wide range of diverse intercultural perspectives on media, memory, liberation, (self)Americanization, and conceptualizations of democracy from the war years, through the Cold War era to the 21st century.

The Book of Enoch Enoch,2022-10-23 The Book of Enoch is an ancient religious text, traditionally ascribed to the Judeo-Christian prophet Enoch, the ancestor of the biblical figure, Noah. Some scholars estimate that some parts of the book vary widely in age from several hundred years before Christ to the last parts in the century before the birth of Jesus. This text is widely considered non-canonical although it is accepted that it is a genuine attempt to record information as best the authors were able in the pre-Christian era. In the text, Enoch is a figure who receives direct personal revelation from God. He sees the magnificence of God and begins to preach to those around him against sin. He warns that the sinners will be winnowed and that God himself will appear on Mount Sinai to judge the humans as well as the fallen angels on Earth. Among the more controversial material within this text is the detailed account it gives of fallen angels on earth and their cursed offspring, the Nephilim. Azazel features heavily as the instigator of metal weapon production, the use of cosmetics and advocate of widespread promiscuity and fornication. In this book, the figure of Enoch is charged with the knowledge of God's chosen and brutal punishment for the Nephilim, their human mothers and their Angel fathers. August Dillman's translation from the Ethiopian is part of his extensive work translating biblical era manuscripts and this particular version is augmented with his observations, Latin excerpts and a stunning foreword by R. H. Charles. One of the most important apocryphic works of the Second Temple Period is Enoch. According to the biblical narrative (Genesis 5:21-24), Enoch lived only 365 years (far less than the other patriarchs in the period before the Flood). Enoch walked with God; then he was no more for God took him. The original language of most of this work was, in all likelihood, Aramaic (an early Semitic language). Although the original version was lost in antiquity, portions of a Greek translation were discovered in Egypt and quotations were known from the Church Fathers. The discovery of the texts from Qumran Cave 4 has finally provided parts of the Aramaic original. In the fragment exhibited here, humankind is called on to observe how unchanging nature follows God's will. The Book of Enoch is a pseudoepigraphal work (a work that claims to be by a biblical character). The Book of Enoch was not included in either the Hebrew or most Christian biblical canons, but could have been considered a sacred text by the sectarians. The original Aramaic version was lost until the Dead Sea fragments were discovered.
