I Can't Believe It's Not Buddha! Bodhipaksa, 2018-11-06 Quotes from the Buddha are everywhere: on Facebook, Instagram, coffee mugs, posters. There's only one problem: the Buddha didn't actually say most of them. This humorous and informative book takes these fake Buddha quotes as a launching point for a discussion on what the Buddha really did say, and is a great entry point for those interested in learning more about Buddhism--what it is, and what it isn't. Bodhipaksa, a well-known Buddhist teacher and the founder of fakebuddhaquotes.com, takes a look at some of the quotes that are erroneously attributed to the Buddha, explains the ways in which these disagree (or sometimes agree) with Buddhist teachings, and offers some genuine examples of the Buddha's words. The perfect gift for the Buddhist in your life and an essential addition to any Buddhist library, I Can't Believe It's Not Buddha! is at once humorous and scholarly, and a timely antidote to the fake news that can surround some of the Buddha's teachings.

Digital Dharma shows you a path.”—Sam Altman, CEO of OpenAI In a world captivated yet bewildered by artificial intelligence, spiritual icon Deepak Chopra, MD, illuminates AI’s untapped potential to unravel the enigma of consciousness, positioning AI not as a threat but as a catalyst for personal and collective growth. Deepak Chopra invites us to transcend our limitations and explore a relationship with AI that elevates collective consciousness and personal evolution at the same

time.

Sons And Daughters Of The Buddha Christopher Titmuss, 2010-08-31 Christopher Titmuss believes that the work of the great Buddhist writers can provide profound spiritual, religious, social, political and environmental insights. This collection of inspirational quotes, one thought-provoking excerpt for every day of the year, draws on the very best Buddhist writings from early sages to the work of contemporary writers such as Jack Kornfield and Thich Nhat Hanh. Miraculous Stories from the Japanese Buddhist Tradition Kyoko Motomuchi Nakamura, 2013-09-13 This is the first collection of Buddhist legends in Japan, and these stories form the repertoire of miraculous events and moral examples that later Buddhist priests used for preaching to the people. As Kyokai describes his own intentions, By editing these stories of miraculous events I want to pull the people forward by the ears, offer my hand to lead them to good, and show them how to cleanse their feet of evil (p.222). Nakamura's book is actually two works in one: first an introduction to the Nihon ryoiki, and then an annotated translation. The introduction analyzes the life of the author and the influence of earlier writings, and provides a valuable synthesis of the world view reflected in the work. The annotated translation renders the more than one hundred stories into English narrative, with copious notes. Difficult terms are identified in the text with the original Chinese characters, while historical matters and Buddhist technical terms are explained in the footnotes.

Portraits of Tibetan Buddhist Masters Don Farber, 2018-01-01 Renowned photographer Don Farber, one of the most

important chroniclers of Buddhism today, brings the face and the spirit of contemporary Tibetan Buddhism alive with this remarkable book. Portraits of Tibetan Buddhist Masters—a collection of superb color photographs presented with brief biographies and teachings from each master—is a vibrant work, a testament to the compassion and wisdom that lies at the heart of the Tibetan Buddhist tradition. Farber felt compelled to record the last of the living Buddhist masters who received their training in Tibet and then fled the country following the invasion by China, as well as other masters who survived many years of imprisonment during the Cultural Revolution. He has worked with a sense of urgency to photograph and interview these extraordinary beings who have been the custodians of this endangered Buddhist tradition. His collection of portraits also includes some of the bright lights of Tibetan Buddhism, the younger masters who will carry the tradition into the future. As a photographic archive of Tibetan Buddhist masters, this book plays an important role in preserving Tibetan culture, in all its richness and complexity, through the words and faces of its esteemed masters.

Worldviews and Christian Education W. Shipton, 2013-08-14 Christ's instruction to his disciples was to witness to others about his plan of salvation. This may be relatively easy when it involves our contemporaries and peers. But when we are working with people from a different cultural background or belief system, it can be difficult or seemingly impossible. In *Worldviews and Christian Education*, editors W. A. Shipton, E. Coetzee, and R. Takeuchi have brought together works by experts in cross-cultural religious education. The authors and editors have a wealth of personal experience in presenting the gospel to individuals with various worldviews that differ greatly from those held by Christians who take the Bible as authoritative. They focus on the beliefs and issues associated with witnessing to seekers for truth coming from backgrounds as diverse as animism, Buddhism, Confucianism, Hinduism, Islam, Marxism, Taoism, and postmodernism. The emphasis is on

educational settings, but the sensitivities highlighted and lessons learned are applicable to situations outside this area. Leaders, pastors, teachers, and laypersons will find valuable conceptual models, practical ideas, and bibliographic references presented here. Worldviews and Christian Education challenges all readers to be faithful to the biblical worldview and to approach everyone with sensitivity, so that, like the apostle Paul, they may reach some.

The Dharma Master Chōngsan of Won Buddhism Chongsan,2012-01-01 Won Buddhism emerged in early twentieth-century Korea after a long period of anti-Buddhist repression. It is a syncretic tradition, a form of Buddhism strongly influenced by the Chōson dynasty's Neo-Confucian ethical heritage and by Daoism. Seeking to deliver sentient beings from suffering and to create a just and ethical world, Won Buddhism stresses practical application of the dharma and service. It offers a vision of people as one family, morally perfected. This book provides the first English translations of the writings of Chōngsan (1900–62), the second dharma master of Won Buddhism, who codified the new religion's central doctrines. The translations here include Chōngsan's discussion of Buddha-nature, described as a mind-seal and symbolized by the Irwōnsang (a unitary circle); his synthesis of Confucian moral and political programs with Buddhist notions of emancipation from birth and death; and his expositions on realizing the ideal of all people as one family.

Eight Step Recovery (new edition) Valerie Mason-John,2018-06-01 This new edition includes a Foreword by Jon Kabat-Zinn, how to run an Eight Step Recovery meeting, and how to teach a Mindfulness Based Addiction Recovery programme, including teacher's notes and handouts.All of us can struggle with the tendency towards addiction, but for some it can destroy their lives. The Buddha-Christ as the Lord of the True Self Fritz Buri,1997 This translation of a 1982 volume published in Bern (Paul Haupt Verlag) by a Swiss theologian with a longstanding interest in dialogue between Buddhism and Christianity features an examination of the Kyoto school of Japanese philosophers who attempted to engage with both Christianity and secular Wes

God or the Divine? Bernhard Nitsche,Marcus Schmücker,2023-03-20 Is there a language of transcendence which does not fall under the well-worn categories of monism, theism, pantheism, biblical or pagan monotheism, personal or tripersonal God, or an impersonal absolute, conceived as immanent and/or transcendent? The present set of studies from different fields of research centers on the question whether it is possible to speak at all of transcendence or a divinity, and if it is, under

what limitations does such speech proceed. In current discussion in theology and in philosophy of religion, there is a pervasive awareness that the inherited terms and alternatives, developed in the western tradition, no longer facilitate an adequate understanding of the divine. Increasing familiarity with the languages of 'immanence' and 'transcendence' (under erasure) in Hindu and Buddhist thought has further jumbled our coordinates, while holding out the promise of a more subtle and vital engagement with the matter itself of religious inquiry. A further long-established distinction, between 'personal' and 'impersonal,' also takes on rich new hues in Asian contexts, where the very notion of 'person' may undergo unsettling critiques. Transgressing the categories of 'personal' and 'impersonal' points to the mystical depth of religious traditions, emphasizes their openness and reintegrates essential elements of both perspectives. Advancing with curiosity and caution, all the contributors take seriously the diversity of historical religious traditions, while nevertheless searching for a fresh language that may connect these traditions and provide a common ground of understanding.

Wisdom, Compassion, and the Search for Understanding Gajin Nagao, 2000-01-01 The field of Buddhist studies is an international and interdisciplinary one. By its nature, the study of Buddhism must take into account phenomena that cross national and cultural boundaries, as well as the more artificial boundaries of modern academic fields. This volume presents 18 studies, the subjects of which range over India, China, Tibet and Japan, and deal with an ever broader range of subjects. It includes many essays on Buddhist philosophy, a number of which deal with the Madhyamaka tradition of Nagarjuna and his successors, while others examine the Yogacara tradition of Asanga, Vasubandhu, and their successors. These essays investigate areas of doctrinal interest such as the so-called Two-Truth theory, and the doctrine of the equivalence of nirvana and samsara, as well as such topics as the nature and practice of compassion, and Indian Buddhist cosmology. Still other studies examine topics such as the meditation practices of the Japanese Pure Land founder Honen, some of the earliest Chinese Buddhist art objects yet known and their importance for the transmission of Buddhism to China, later Indian logic, epistemology and the theory of meaning, what we know about the ear

Handing Down the Faith Christian Smith, Amy Adamczyk, 2020-07-02 A new examination of how and why American religious parents seek to pass on religion to their children The most important influence shaping the religious and spiritual lives of children, youth, and teenagers is their parents. A myriad of studies show that the parents of American youth play the leading role in shaping the character of their religious and spiritual lives, even well after they leave home and often for the rest of their lives. We know a lot about the importance of parents in faith transmission. However we know much less about the actual beliefs, feelings, and activities of the parents themselves, what Christian Smith and Amy Adamczyk call the intergenerational transmission of religious faith and practice. To address that gap, this book reports the findings of a new national study of religious parents in the United States. The findings and conclusions in *Handing Down the Faith* are based on 215 in-depth, personal interviews with religious parents from many traditions and different parts of the country, and

sophisticated analyses of two nationally representative surveys of American parents about their religious parenting. *Handing Down the Faith* explores the background beliefs informing how and why religious parents seek to pass on religion to their children; examines how parenting styles interact with parent religiousness to shape effective religious transmission; shows how parents have been influenced by their experiences as children influenced by their own parents; reveals how religious parents view their congregations and what they most seek out in a local church, synagogue, temple, or mosque; explores the experiences and outlooks of immigrant parents including Latino Catholics, East Asian Buddhists, South Asian Muslims, and Indian Hindus. Smith and Adamczyk step back to consider how American religion has transformed over the last 100 years and to explain why parents today shoulder such a huge responsibility in transmitting religious faith and practice to their children. The book is rich in empirical evidence and unique in many of the topics it explores and explains, providing a variety of sometimes counterintuitive findings that will interest scholars of religion, social scientists interested in the family, parenting, and socialization; clergy and religious educators and leaders; and religious parents themselves.
