The Fifth Season Rose Mary Long,2008-11 Very few stories are written by or about speech-language pathologists. Rose has written a gem, a story about a lonely widow, a supportive friend, a passionate lover, a faithful Christian, an involved mother, and a determined individual repurposing her life after tragedy strikes. If you don't understand what a speech-language pathologist does before you read this book, you certainly will when you have finished it. If you are a speech-language pathologist, you'll delight in this story about one of us who helps others regain the ability to communicate at work while she regains her ability to love at home. I can't wait for the sequel Christy Strole, M.S., CCC/SLP, past president Illinois Speech-Language-Hearing Association Widowed speech-language pathologist Maren Kepple packs her youngest son off to college and decides to set new professional goals. She accepts a contract at a hospital near Chicago, leaves the security of working in the public schools of Edgelawn, and commutes to work She is challenged by patients with medical communication and swallowing disorders and intimidated by hospital politics. She receives support from old friends in Edgelawn, and a young surgeon with a growing interest in medical missions, at the hospital. Maren becomes romantically involved with two men, one in the city and one in her home town. She is unable to make a commitment to either, causing her life to be painfully divided. When her son becomes involved in a cult, a sequence of events transpires that leads her to make decisions that set her on a new course personally and professionally. Native American legend and poetry frame this unforgettable story and give clues about the conclusion. Long after the last page has been turned you will find yourself wondering what these compelling characters are doing now, in the next phase of their lives.

Orchestral "Pops" Music Lucy Manning, 2013-10-10 In this second edition of *Orchestral "Pops" Music: A Handbook*, Lucy Manning brings forward to the present her remarkable compendium of information about this form of orchestral music. Since the appearance of the first edition in 2008, this work has proven critical to successful "pops" concert programming. With changes in publishers and agents, the discontinuation of the publication of certain original material or, worst of all, presses going out of business, music directors, orchestra conductors, and professional instrumentalists face formidable challenges in tracking down accurate information about this vast repertoire. This revised handbook alleviates the time-consuming task of researching these changes by offering a list of works for orchestral "pops" concerts that is comprehensive, informative, and current. Manning's emphasis on clarity and accuracy gives users an indispensable tool for gathering vital information on the style, instrumentation, and availability of the repertoire listed, as well as notes on its performance. The user-friendly appendices include expanded instrumentation choices, easy-to-find durations, and handy title cross-references. In addition to corrections and updates, this new edition of *Orchestral "Pops" Music* includes at least 1,000 new title listings. *Orchestral "Pops" Music: A Handbook* is the ideal tool for working conductors and orchestral librarians, as well as music program directors at colleges, conservatories, and orchestras.

Canadian Band Music Michael Burch-Pesses, 2008-01-01 (Meredith Music Resource). With up-to-date biographies of 63 Canadian composers and more than 200 of their works in grades 1 through 6, this book's listing of each work includes program notes, description of the piece, grade level, duration, and publisher. Also included are easy-to-use, four-year performance sequences for each grade level. ...should be of interest to anyone passionate about discovering new repertoire and excited by the quest to uncover many hidden treasures.
