Children's Rights to Participate in Out-of-Home Care Claudia Equit,Jade Purtell,2022-11-30 For centuries, residential child and youth care systems worldwide have provided homes for vulnerable children and adolescents. The implementation of children's rights, especially the right of participation, is assessed as an important base for promoting the best interests of the child in an out-of-home care environment. Featuring contributions from distinguished international authors, this volume offers an in-depth understanding of crucial participation processes and underlying power structures when involving young people in decision-making about their care and everyday life in different out-of-home care institutions. Contributions cover a broad spectrum of current research findings concerning the participation of young people in foster families and residential living groups in Australia, Canada, Germany, Ireland, Italy, Portugal, Norway, Sweden, and Switzerland as well as cross-nationals perspective on children and young people's participation in foster and residential care placements in Great Britain and France. The volume fills major gaps concerning the participation of young people in different out-of-home care and policy settings and will be required reading for policymakers, researchers, practitioners, scholars, and students interested in increasing opportunities for young people's participation and creating better out-of-home care settings for vulnerable young people.

Confronting the Racist Legacy of the American Child Welfare System Alan J. Dettlaff, 2023-07-28 In *Confronting the Racist Legacy of the American Child Welfare System*, Alan J. Dettlaff presents a call to abolish the American child welfare system due to the harm and destruction it causes Black families. Dettlaff traces the origins of the modern child welfare system, which emerged following the abolition of slavery, to demonstrate that the harm and oppression that result from child welfare intervention are not the result of unintended consequences but rather are the clear intents of the system and the foreseeable results of the policies that have been put in place over decades. By tracing the history of family separations in the United States since the era of slavery, *Confronting the Racist Legacy of the American Child Welfare System* demonstrates that the intended outcomes of those separations--the subjugation of Black Americans and the maintenance of white supremacy--are the same intended outcomes of the family separations done today. What distinguishes contemporary family separations from those that occurred during slavery is that today's separations occur under a facade of benevolence, a myth that has been perpetuated over decades that family separations are necessary to save the most vulnerable children. *Confronting the Racist Legacy of the American Child Welfare System* presents evidence of the vast harms that result from family separations to make a case that the child welfare system is beyond reform. Rather, the only solution to ending these harms is complete abolition of this system and a fundamental reimagining of the way society cares for children, families, and communities.

Decision-Making and Judgment in Child Welfare and Protection John D. Fluke, Mónica López López, Rami Benbenishty, Erik J. Knorth, Donald J. Baumann, 2020 Professionals in child welfare and protection are often required to make decisions--fraught with many difficulties and shortcomings--that have crucial implications for children and families. There are many indications that these decisions are frequently unreliable and involve unavoidable errors in judgement due to the uncertainties. This book applies much-needed insights gleaned from the fields of business and behavioral economics to child welfare practice, bridging a critical gap in the child welfare and protection research agenda.

Young People Transitioning from Out-of-Home Care Philip Mendes, Pamela Snow, 2016-09-26 This book challenges and revises existing ways of thinking about leaving care policy, practice and research at regional, national and international levels. Bringing together contributors from fifteen countries, it covers a range of topical policy and practice issues within national, international or comparative contexts. These include youth justice, disability, access to higher education, the role of advocacy groups, ethical challenges and cultural factors. In doing so it demonstrates that, whilst young people are universally a vulnerable group, there are vast differences in their experiences of out-of-home care and transitions from care, and their shorter and longer-term outcomes. Equally, there are significant variations between jurisdictions in terms of the legislative, policy and practice supports and opportunities made available to them. This significant edited collection is essential reading for all those who work with young people from care, including social workers, counsellors, and youth and community practitioners, as well as for students and scholars of child welfare.

Handbook of Foster Youth Elizabeth Trejos-Castillo, Nancy Trevino-Schafer, 2018-03-22 Currently, there are over 400,000 youth living in foster care in the United States, with over 20,000 aging out of the child welfare system each year. Foster youth are more prone to experience short- and long-term adverse developmental outcomes including diminished academic achievement and career opportunities, poor mental and overall health, financial struggles, homelessness, early sexual intercourse, and substance abuse, many of these outcomes are risk factors for involvement in the juvenile justice system. Despite their challenges, foster youth have numerous strengths and positive assets that carry them through their journeys, helping them to overcome obstacles and build resilience. The Handbook of Foster Youth brings together a prominent group of multidisciplinary experts to provide nuanced insights on the complex dynamics of the foster care system, its impact on youth's lives, and the roles of institutions and policies in the foster system. It discusses current gaps and future directions as well as recommendations to advance the field. This book provides an opportunity to reflect on the many challenges and strengths of foster youth and the child welfare system, and the combined efforts of caregivers, community volunteers, policy makers, and the professionals and researchers who work with them.

Evidence for Child Welfare Practice Michael J. Austin, 2013-09-13 This book provides a work-in-progress that seeks to capture the micro (direct service) and macro (managerial) perspectives related to identifying evidence for practice within the practice domain of public child welfare. It is divided into two categories; namely, evidence for direct practice and evidence for management practice. In Part I, the articles are categorized in the areas of child welfare assessment and child welfare outcomes. Expanded versions of the chapters can be accessed at www.bassc.net. In Part II, the focus is on organizational issues that relate to evidence for management practice. This section includes an overview of evidence-based practice from an organizational perspective along with evidence related to the experiences of others in implementing evidence-based practice.

This book pushes the discussion of evidence-based practice in several new directions regarding: 1) the use of structured reviews to complement the systematic reviews of the Cochrane and Campbell Collaboratives, 2) the process of viewing the call for evidence-based practice as a goal or future vision of practice and evidence for practice provides a more immediate approach to promote evidence-informed practice, and 3) a recognition that evidence-informed practice is part of building agency-based knowledge sharing systems that involve the tacit and explicit knowledge needed to improve the outcomes of social services. This book was published as a special issue of the Journal Of Evidence-Based Social Work.

Dettlaff, 2020-11-27 This volume examines existing research documenting racial disproportionality and disparities in child welfare systems, the underlying factors that contribute to these phenomena and the harms that result at both the individual and community levels. It reviews multiple forms of interventions designed to prevent and reduce disproportionality, particularly in states and jurisdictions that have seen meaningful change. With contributions from authorities and leaders in the field, this volume serves as the authoritative volume on the complex issue of child maltreatment and child welfare. It offers a central source of information for students and practitioners who are seeking understanding on how structural and institutional racism can be addressed in public systems.

Trauma Responsive Child Welfare Systems Virginia C. Strand, Ginny Sprang, 2017-10-24 This comprehensive reference offers a robust framework for introducing and sustaining trauma-responsive services and culture in child welfare systems. Organized around concepts of safety, permanency, and well-being, chapters describe innovations in child protection, violence

prevention, foster care, and adoption services to reduce immediate effects of trauma on children and improve long-term development and maturation. Foundations and interventions for practice include collaborations with families and community entities, cultural competency, trauma-responsive assessment and treatment, promoting trauma-informed parenting, and, when appropriate, working toward reunification of families. The book's chapters on agency culture also address staffing, supervisory, and training issues, planning and implementation, and developing a competent, committed, and sturdy workforce. Among the topics covered: Trauma-informed family engagement with resistant clients. Introducing evidence-based trauma treatment in preventive services. Working with resource parents for trauma-informed foster care. Use of implementation science principles in program development for sustainability. Trauma informed and secondary traumatic stress informed organizational readiness assessments. Caseworker training for trauma practice and building worker resiliency. Trauma Responsive Child Welfare Systems ably assists psychology professionals of varied disciplines, social workers, and mental health professionals applying trauma theory and trauma-informed family engagement to clinical practice and/or research seeking to gain strategies for creating trauma-informed agency practice and agency culture. It also makes a worthwhile text for a child welfare training curriculum.

Take Me Home Jill Duerr Berrick, 2009 There is a profound crisis in the United States' foster care system, Jill Duerr Berrick writes. No state has passed the federally mandated Child and Family Service Review; two-thirds of the state systems have faced class-action lawsuits demanding change; well over half of all children who enter foster care never go home.
