**Studies on Mexican Paleontology** Francisco J. Vega,Torrey G. Nyborg,María del Carmen Perrilliat,Marisol Montellano-Ballesteros,Sergio R.S. Cevallos-Ferriz,Sara A. Quiroz-Barroso,2006-07-15 During the last few years, the number of contributions to the Paleontology of Mexico has increased considerably. Paleontological work in Mexico has been focused on providing important information for petroleum exploration and specific studies dealing with pollen, foraminifera, radiolaria, dinoflagellates, rudists, and ammonites. Often these reports were published only in local or regional journals and therefore not available to the scientific community at large. The purpose of this book is to offer an updated review of the fossil groups from Mexico, providing their significance to the stratigraphy, tectonics, sedimentology, evolution and paleontology of Mexico whose study has proved to be relevant in stratigraphy, tectonics, sedimentology, and evolution. The fossil record of Mexico

ranges from Precambrian to Pleistocene. Almost every Mexican State has reported fossil localities with ongoing studies and potential for the discovery of new localities. Even those localities that have been studied since the eighteen-century, such as the early Cretaceous San Juan Raya, have recently reported new fossil groups. Unfortunately, much of the fossil reports from Mexico have been published in Spanish from local journals, which represent a language barrier to the international community. There is little doubt that the paleontological history of Mexico deserves to be known in other countries. By making this book available to the international scientific community we hope that interest in the fossil record of Mexico will grow.

**Piel negra, máscaras blancas** Frantz Fanon,2009-03-30 Obra de referencia y clásico en la materia, ?Piel negra, máscaras blancas? es un agudo análisis de la formación de la identidad negra en una sociedad blanca, esto es, de cómo el racismo define los modos de reconocimiento, interrelación y construcción de la personalidad individual y social en las sociedades poscoloniales. Esta fantástica edición reúne en un mismo volumen tanto el texto original de Frantz Fanon como un conjunto de textos, escritos por prestigiosos especialistas mundiales, que ayudarán al lector a entender y contextualizar la importantísima obra de Fanon.

**Libros para todos** Judith Gociol,2018-01-26 En 1958 el filósofo Risieri Frondizi fue elegido rector de la Universidad de Buenos Aires y, entre las primeras medidas que tomó fue convocar a diez profesores de distintas facultades para que

estudiase en la constitución de una editorial universitaria. Entre ellos estaba Boris Spivacow. Así nació Eudeba, un emprendimiento cultural que llegó a publicar un libro por día y a traducir materiales franceses, ingleses, rusos, griegos... Quizá no haya vuelto a conjugarse, como en torno al 58, un período en el que tanto el proyecto universitario como el editorial estuvieran tan definidos y articulados: un proceso rico, vasto, complejo y -también- contradictorio que es posible seguir a través del listado de títulos publicados que aquí presentamos. La magnitud -en calidad y cantidad- de ese catálogo, varios de cuyos títulos continúan reeditándose, se presentan enriquecidos por unas 300 reseñas bibliográficas realizadas por especialistas, representantes de un abanico de saber tan diverso como el que albergó Eudeba. Caja de resonancia del devenir político, económico y social del país (y de una Universidad que desde entonces creció exponencialmente), la historia de la editorial fue recuperada también a través de las actas de directorio que dan cuenta de lo realizado por las diferentes gestiones, desde la fundación del sello hasta 2001. Es una invitación a repensar tanto el pasado como el presente de esta experiencia educativa y cultural en el marco del proyecto de recuperación de libros, documentos y testimonios de las experiencias de Eudeba y el Centro Editor de América Latina que la Biblioteca Nacional lleva adelante desde 2006.
