*Zapopan: una historia entre siglos* Miguel García Audelo,Pablo Lemus Navarro,Daniel Aburto Zamudio,Berta Alcañiz Rodríguez,Diana Arenas Zuazua,Jesús Erick González Rizo,Raquel Eréndira Güereca Durán,Clarisa Hernández Esqueda,Tomás de Híjar Ornelas,Abigail López Díaz,Martha Lorenza López Mestas Cambreros,Hilda Monraz Delgado,Laura Pacheco Urista,María de los Ángeles Partida Flores,Juan Ramón Prieto Valencia,Dulce Gabriela Román Mérida,José Rubén Romero Galván,Antonio Rubial García,Leonardo Sánchez Zamarripa,Ángela Renée de la Torre Castellanos,Lourdes Celina Vázquez Parada,2019-01-08 Zapopan, una historia entre siglos reúne las reflexiones de veinte especialistas con un enfoque multidisciplinario. Los autores, de una manera sencilla pero con el rigor académico que los distingue, acercan al lector a la visión que las nuevas generaciones de estudiosos del pasado ofrecen a través de estos trabajos. Elaborado con elementos de un presente que ya no está, en el que no tenemos ninguna influencia o protagonismo, se perciben los sutiles impactos que moldean nuestra identidad. Nuestro pasado tampoco existe salvo cuando lo evocamos; lo inventamos toda vez que hablamos de él, cuando participamos en nuestras festividades, cuando reconocemos el orgullo de ser oriundo de Zapopan y estar conscientes de lo que significó esta antigua villa en la historia contemporánea de Jalisco. Los principales acontecimientos, monumentos, festejos, personajes, ideas y recuerdos se dan cita aquí. Se tocan lindes nunca antes avizorados, pues resulta que al interior de las fronteras de nuestro municipio se hallan los restos de culturas milenarias que en nada desmerecen a lo mejor de los registros arqueológicos de México, así como las prácticas culturales más fascinantes de nuestro país.

**La psicología ante la pandemia** ,2025-04-07 La pandemia de covid-19 tuvo efectos psicológicos indirectos como sentimientos de zozobra y pánico ante la incertidumbre generalizada, soledad y desamparo por la necesidad del distanciamiento social, impotencia y desesperación tras haber abandonado los estudios o perdido el empleo. Algunos de los efectos psicológicos han sido cuidadosamente estudiados y tratados por las autoras y autores que escribieron los diez capítulos de la presente obra colectiva. Estos capítulos nos permiten apreciar cómo ha respondido la psicología a los efectos de la pandemia; qué abordajes y tratamientos han ofrecido las psicólogas y los psicólogos para conocer y enfrentar las

incidencias y las repercusiones en la esfera subjetiva e intersubjetiva, así como en la psíquica individual y psicosocial, abarcan varias corrientes del campo psicológico, entre ellas la cognitiva, la humanista y la psicoanalítica. Por otro lado, el libro incluye múltiples ramas especializadas como la psicología de la salud, la clínica, la social y la educativa. Se ofrece una visión caleidoscópica sobre las incidencias y las repercusiones de la pandemia de covid-19, en el plano psicológico, desde diversas perspectivas y áreas de la psicología. Si bien las aportaciones están situadas en el ámbito específico del estado mexicano de Michoacán, y en especial de la Facultad de Psicología de la Universidad Michoacana de San Nicolás de Hidalgo (umsnh), su especificidad geográfica, institucional, social y cultural, no compromete el alcance general de los hallazgos de cada capítulo, cada uno de ellos refiriéndose a experiencias de la pandemia que se vivieron en otros lugares de México y del mundo. *Estudios psicológicos en el ámbito de la salud, calidad de vida y bienestar* Raquel García Flores,Christian Oswaldo Acosta Quiroz,Jesús Tánori Quintana,2025-01-17 Estudios psicológicos en el ámbito de la salud, calidad de vida y bienestar: una mirada a la vulnerabilidad es una obra cuya finalidad es adentrarnos en el entendimiento de los procesos psicosociales en relación con grupos vulnerables. En la práctica investigativa de la psicología, en temas de salud y bienestar, se está reconociendo la complejidad de las personas que viven dinámicas grupales y sociales que las ponen en desventaja. Las indagaciones empíricas de este trabajo ofrecen una visión y un acercamiento a las condiciones personales, familiares y sociales de algunos grupos en desventaja. Las propuestas teóricas y metodológicas en este trabajo están altamente ajustadas a las necesidades actuales que requieren este tipo de abordajes y poblaciones, ya que se enfocan en líneas como: estudio en población de jubilados y adultos mayores, investigación en enfermedades crónicas degenerativas, análisis experimental de la conducta, bienestar subjetivo en niñas, niños y jóvenes, y responsabilidad social con personas sin hogar permanente, todos esos grupos considerados de alta vulnerabilidad.

*La práctica de educación intercultural desde el currículo de las ciencias sociales. El caso del profesorado de secundaria en la provincia de Almería* Manuel José López Martínez,2006-07-14 El tema de esta investigación se ha centrado en describir

e interpretar cómo el docente del área de ciencias sociales, geografía e historia de la enseñanza secundaria utiliza el currículo para atender a un nuevo componente educativo caracterizado por la presencia de la diversidad cultural y étnica en las aulas de la provincia de Almería. Se trata de profundizar en el conocimiento de las acciones educativas que desarrollan estos docentes desde el paradigma de la Educación Intercultural en un contexto pluricultural. Conocer de primera mano qué sienten, qué hacen los docentes en sus aulas, conocer su percepción, más allá de la normativa o de la teoría del experto, y analizar en qué condiciones despliegan el currículo ante un alumnado tan diverso desde el punto de vista cultural y étnico, se ha convertido en una parte fundamental de los objetivos básicos de esta tesis. Y todo esto porque somos conscientes de la dificultad que entraña el trabajo del profesorado en esta nueva situación educativa, generada éste tanto por el fenómeno demográfico de la inmigración como por la falta de una adecuada formación desde el punto de vista pedagógico y didáctico para atender adecuadamente la diversidad, así como de una insuficiencia de medios en el funcionamiento del sistema educativo. Esta tesis se plantea con la intención de aproximarnos al conocimiento real del funcionamiento de los centros públicos multiculturales de la enseñanza secundaria obligatoria de la provincia de Almería. Pretendemos no sólo describir un ambiente concreto de nuestra realidad social más cercana, sino también contribuir, dando a conocer una serie de propuestas prácticas desde la didáctica específica de las ciencias sociales, para favorecer los procesos de enseñanza y aprendizaje y mejorar la acción educativa solventando problemas derivados de un ajuste obligado del actual sistema educativo. Afirmamos que este novedoso contexto socio-educativo en el que nos desenvolvemos aparece como una oportunidad extraordinaria para ser aprovechado positivamente como plataforma para redefinir tanto la función del docente como la función de la escuela pública en una sociedad políticamente democrática, plural desde el punto de vista cultural y globalizada desde el punto de vista económico, cuyo objetivo fundamental es el de mejorar las relaciones de convivencia entre distintas comunidades étnicas y culturales. Estamos obligados a decir que esta tesis tiene sentido y se ha llevado a cabo en unas circunstancias en las que la comunidad educativa almeriense, en concreto el profesorado de la enseñanza secundaria obligatoria, está clamando por disponer de recursos suficientes para atender con garantías esta nueva situación generada en nuestros centros educativos entre otras razones por la inmigración. Por tanto, con la aportación de los contenidos de esta tesis se comprobará la urgente necesidad de incluir con decisión los principios de la Educación Intercultural en la enseñanza obligatoria, máxime cuando sabemos que nuestra comunidad andaluza se ha convertido en lugar de llegada de numerosas familias extranjeras. Este escenario de cruce cultural que se está construyendo en nuestro territorio andaluz exige a los profesionales de la enseñanza, y en especial a los del área de conocimiento de ciencias sociales, la puesta en marcha de prácticas educativas interculturales desde el currículo sustentadas en un eje marcado en gran medida por la educación para una ciudadanía democrática, responsable y crítica. Para llevar a término dicho reconocimiento y su puesta en valor, nuestra tesis se decanta por una orientación en la línea de la búsqueda de significados de los fenómenos educativos a través de la descripción para su

interpretación y comprensión con la intención de mejorar el contexto educativo y social. Esta investigación presenta, pues, una reconciliación entre el carácter cualitativo y la tradición cuantitativa. Nuestra tesis se fundamenta en una combinación entre investigación cualitativa y cuantitativa en la que se hace referencia a diversas perspectivas epistemológicas (construccionismo y subjetivismo) y teórica (interpretación), incluyendo diferentes métodos (investigación por encuesta, etnografía) y técnicas o procedimientos de recogida y análisis de datos (muestreo, cuestionario, observación, entrevista, grupos de discusión, análisis documental, análisis estadístico). Por tanto, la utilización de una metodología cualitativa y cuantitativa, como parte de la investigación cualitativa y cuantitativa, ha representado el camino a seguir desde el curso 2002/03 hasta el 2004/2005 para aproximarnos al conocimiento de una realidad tan compleja y plural como es la educativa.
