The "Disguised" Political Film in Contemporary Hollywood Betty Kaklamanidou, 2018-04-19 With strict guidelines on methodology and time frame -- films produced after September 2001, and a socio-semiotic theoretical framework -- Betty Kaklamanidou unpacks the problematic terms and ideas that go along with defining a new genre. Kaklamanidou considers a different sub-genre per chapter, placing each group of films in their socio-historical context to reach conclusions about the production of political films in millennial Hollywood. In shifting the terms of the debate, *The Disguised Political Film in Contemporary Hollywood* offers a fresh, new approach to the subject of the political film. The political film is not a clearly delineated object but rather an elusive one and resistant to clear boundaries. So, what is a political film? Can *The Hunger Games* (2012) belong to the same category as *Lincoln* (2012)? Is *Jarhead* (2005) a political movie simply because it is set during the Gulf War but with no reference to the motives of the conflict and/or American and Arab relations, and thus in the same group of war films such as *The Three Kings* (1999), another narrative that focuses on the same military conflict but includes direct commentary to governmental and military strategies? Are historical films by definition political since the majority deals with significant events and/or people in a specific socio-cultural landscape?

Biography and History in Film Thomas S. Freeman, David L. Smith, 2019-10-14 The essays in this volume seek to analyze biographical films as representations of historical individuals and the times in which they lived. To do this, contributors examine the context in which certain biographical films were made, including the state of knowledge about their subjects at that moment, and what these films reveal about the values and purposes of those who created them. This is an original approach to biographical (as opposed to historical) films and one that has so far played little part in the growing literature on historical films. The films discussed here date from the 1920s to the 2010s, and deal with males and females in periods ranging from the Middle Ages to the end of the twentieth century. In the process, the book discusses how biographical films reflect changing attitudes towards issues such as race, gender and sexuality, and examines the influence of these films on popular perceptions of the past. The introduction analyses the nature of biographical films as a genre: it compares and contrasts the nature of biography on film with written biographies, and considers their relationship with the discipline of history. As the first collection of essays on this popular but understudied genre, this book will be of interest to historians as well as those in film and cultural studies.

Biopics of Women Karen Hollinger, 2020-04-22 This book is an accessible overview of biographical fiction films of women and is structured around four of the most popular subjects of female biopics: queens and political figures; entertainers; writers; and subjects of current affairs. While the biopic is commonly accepted as a deeply conservative cinematic form that represents glorification of the past and of the self-made individual, a number of biopics of women challenge all of these characterizations. They show the genre to be much more complicated and challenging to regressive ideas than has been proposed, and open to different formats and thematic possibilities. Providing an overview of key subgenres complemented by analyses of key texts that illustrate major aspects of each category, *Biopics of Women* examines the development of biographical films in each area and the images of successful women they project in order to investigate the issues involved in women's representation in the genre as a whole. This is a lively and readable text for students and scholars in Gender and Film, Gender and Media, and Women's Studies.

Key features of the book include: clear definitions of the key terms at the foundation of film studies coverage of the work of key thinkers, explained in their social and historical context a broad range of relevant case studies that reflect the book's approach to global cinema, from Italian white telephone films to Mexican wrestling films innovative and flexible exercises to help readers enhance their understanding of the histories, theories, and examples introduced in each chapter an extensive Interlude introducing readers to formal analysis through the careful explication and application of key terms a detailed discussion of strategies for writing about cinema *Films Studies: A Global Introduction* will appeal to students studying film today and aspiring to work in the industry, as well as those eager to understand the world of images and screens in which we all live.

The Birth of a Queen Sarah Duncan, Valerie Schutte, 2016-08-29 Marking the 500th year anniversary of the birth of Queen Mary I in 1516, this book both commemorates her rule and rehabilitates and redefines her image and reign as England's first queen regnant. In this broad collection of essays, leading historians of queenship (or monarchy) explore

aspects of Mary's life from birth to reign to death and cultural afterlife, giving consideration to the struggles she faced both before and after her accession, and celebrating Mary as a queen in her own right.

The Tudors on Film and Television Sue Parrill, William B. Robison, 2013-02-06 With its mix of family drama, sex and violence, Britain's Tudor dynasty (1485-1603) has long excited the interest of filmmakers and moviegoers. Since the birth of movie-making technology, the lives and times of kings Henry VII, Henry VIII, and Edward VI and queens Mary I, Jane Grey and Elizabeth I have remained popular cinematic themes. From 1895's *The Execution of Mary Stuart* to 2011's *Anonymous*, this comprehensive filmography chronicles every known movie about the Tudor era, including feature films; made-for-television films, mini-series, and series; documentaries; animated films; and shorts. From royal biographies to period pieces to modern movies with flashbacks or time travel, this work reveals how these films both convey the attitudes of Tudor times and reflect the era in which they were made.

Royal Fever Cele C. Otnes, Pauline Maclaran, 2015-10-19 No monarchy has proved more captivating than that of the British Royal Family. Across the globe, an estimated 2.4 billion people watched the wedding of Prince William and Catherine Middleton on television. In contemporary global consumer culture, why is the British monarchy still so compelling? Rooted in fieldwork conducted from 2005 to 2014, this book explores how and why consumers around the world leverage a wide range of products, services, and experiences to satisfy their fascination with the British Royal Family brand. It demonstrates the monarchy's power as a brand whose narrative has existed for more than a thousand years, one that shapes consumer behavior and that retains its economic and cultural significance in the twenty-first century. The authors explore the myriad ways consumer culture and the Royal Family intersect across collectors, commemorative objects, fashion, historic sites, media products, Royal brands, and tourist experiences. Taking a case study approach, the book examines both producer and consumer perspectives. Specific chapters illustrate how those responsible for orchestrating experiences related to the British monarchy engage the public by creating compelling consumer experiences. Others reveal how and why people devote their time, effort, and money to Royal consumption—from a woman who boasts a collection of over 10,000 pieces of British Royal Family trinkets to a retired American stockbroker who spends three months each year in England hunting for rare and expensive memorabilia. *Royal Fever* highlights the important role the Royal Family continues to play in many people's lives and its ongoing contribution as a pillar of iconic British culture.

Christians in the Movies Peter E. Dans, 2009-05-16 *Christians in the Movies* traces the arc of the portrayal in film of Christians from 1905 to the present. For most of the first six decades, the portrayals were favorable and even reverential. By contrast, from 1970 on, Christians have often been treated with hostility and often outright ridicule. This book explores this shift through in-depth reviews and commentaries on 100 important films, as well as briefer discussions of about 75 additional Christian-themed films. Peter E. Dans examines various causative factors for this change such as the abolition of the Hays

Motion Picture Production Code, the demise of the Catholic Legion of Decency, and the associated profound societal and cultural changes. From a look at the real story behind the Scopes trial to portraits of actors, directors and writers most prominently associated with films involving Christians and Christianity, *Christians in the Movies* provides a great resource for those who wish to select films for showing at churches, universities or for personal viewing and critical examination of the recent cultural movements and thought.

Music in Epic Film Stephen Meyer, 2016-09-01 As both a distinct genre and a particular mode of filmmaking, the idea of the epic has been central to the history of cinema. Including contributions from both established and emerging film music scholars, the ten essays in *Music in Epic Film: Listening to Spectacle* provide a cross-section of contemporary scholarship on the subject. They explore diverse topics, including the function of music in epic narratives, the socio-political implications of cinematic music, and the use of pre-existing music in epic films. Intended for students and scholars in film music, film appreciation, and media studies, the wide range of topics and the diversity of the films that the authors discuss make *Music in Epic Film: Listening to Spectacle* an ideal introduction to the field of music in epic film.

The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all-inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three- to five-star entries (three stars=good; four stars=excellent; five stars=masterpiece), and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre (i.e. animated, drama, sports, mystery, adventure etc.) as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

Medieval film Anke Bernau, Bettina Bildhauer, 2021-06-15 Medieval film explores theoretical questions about the ideological, artistic, emotional and financial investments inhering in cinematic renditions of the medieval period. What does it mean to create and watch a 'medieval film'? What is a medieval film and why are they successful? This is the first work that attempts to answer these questions, drawing, for instance, on film theory, postcolonial theory, cultural studies and the growing body of work on medievalism. Contributors investigate British, German, Italian, Australian, French, Swedish and American film, exploring topics such translation, temporality, film noir, framing and period film - and find the medieval lurking in unexpected corners. In addition it provides in-depth studies of individual films from different countries including *The Birth of a Nation* to *Nosferatu*, and *Robin Hood: Prince of Thieves*. Hollywood and History Jem Duducu, 2023-09-15 There is no shortage of Hollywood films about historical events, but what do the movies actually get right, and why do they get so much wrong? Hollywood loves a story: good guys versus bad guys, heroes winning the day, and the guy gets the girl. But we all know real life isn't exactly like that, and this is even more true when we look at history. Rarely do the just prevail and the three-act story cannot exist over continents and decades of human interaction. So, when Hollywood decides to exploit history for profit, we end up with a wide array of films. Some are comedies like *Monty Python and the Holy Grail*, others are little more than action films playing dress up like *Gladiator*, and many are Oscar contenders burdened with an enormous sense of self-importance. But very few are historically accurate. From *Cleopatra* to *Da 5 Bloods*, the reality is no matter what Hollywood's intentions are, almost all historical films are an

exaggeration or distortion of what really happened. Sometimes the alterations are for the sake of brevity, as watching a movie in real time about the Hundred Years War would literally kill you. Other additions may be out of necessity, since nobody thought to write down the everyday conversations between King Henry VIII and his second wife, Anne Boleyn, for *The Other Boleyn Girl*. And some projects twist the facts to suit a more sinister purpose. In *Hollywood and History*, Jem Duducu takes readers through thousands of years of global history as immortalized and ultimately fictionalized by Hollywood, exploring many facets of the representation of history in movies from the medieval times to the wild west and both World Wars. Along the way, readers will also better understand Hollywood's own history, as it evolved from black and white silent shorts to the multiplex CGI epics of today. As studios and audiences have matured through the years, so too have their representations of history. Armies will clash, leaders will be slain, empires will fall, and a few historical inaccuracies will be pointed out along the way. A must-read for film and history fans alike.

Film England Andrew Higson, 2010-12-30 In a film business increasingly transnational in its production arrangements and global in its scope, what space is there for culturally English filmmaking? In this groundbreaking book, Andrew Higson demonstrates how a variety of Englishnesses have appeared on screen since 1990, and surveys the genres and production modes that have captured those representations. He looks at the industrial circumstances of the film business in the UK, government film policy and the emergence of the UK Film Council. He examines several contemporary 'English' dramas that embody the transnationalism of contemporary cinema, from *'Notting Hill'* to *'The Constant Gardener'*. He surveys the array of contemporary fiction that has been re-worked for the big screen, and the pervasive - and successful - Jane Austen adaptation business. Finally, he considers the period's diverse films about the English past, including big-budget, Hollywood-led action-adventure films about medieval heroes, intimate costume dramas of the modern past, such as *'Pride and Prejudice'*, and films about the very recent past, such as *'This is England'*.

Women during the English Reformations K. Kramer, Julie Chappell, 2014-11-19 Catholic or Protestant, recusant or godly rebel, early modern women reinvented their spiritual and gendered spaces during the reformations in religion in England during the sixteenth century and beyond. These essays explore the ways in which some Englishwomen struggled to erase, rewrite, or reimagine their religious and gender identities.

National Medievalism in the Twenty-first Century Matthias D. Berger, 2023 How ideas and ideals of an imagined, protean, national Middle Ages have once again become a convergence point for anxieties about politics, history and cultural identity in our time - and why. After a period of abeyance, the link forged in the nineteenth century between the Middle Ages and national identity is increasingly being reclaimed, with numerous groups and individuals mining an imagined medieval past to present ideas and ideals of modern nationhood. Today's national medievalism asserts itself at the interface of culture and politics: in literature and television programming, in journalism and heritage tourism, and in the way political actors of various stripes use a deep past that supposedly proves the nation's steady exceptionalism in a hectic globalised world. This book traces these ongoing developments in Switzerland and Britain, two countries where the medieval past has recently been much invoked in negotiations of national identity, independence and Euroscepticism. Through comparative analysis, it explores examples of reemerging stories of national exceptionalism - stories that, ironically, echo those of other nations. The author analyses depictions of Robert the Bruce and Wilhelm Tell; medievalism in the discourse surrounding Brexit as well as at the Welsh Senedd; novels like Paul Kingsnorth's *The Wake*; community-based art such as the Great Tapestry of Scotland; and elaborate public commemorations of Swiss victories (and defeats) in battle. Basing his critical readings in current theories of cultural memory, heritage and nationalism, the author explores how the protean national Middle Ages have once again become a convergence point for anxieties about politics, history and cultural identity in our time - and why.
