Emilio Jean-Jacques Rousseau,2007-01-26 Rousseau es una fuerza que se anticipa a su época para crear ideas y situaciones, y para señalar rumbos educativos en un mundo sumergido en antiguas costumbres y tabúes. Leyendo a este Emilio exaltado, libre, amante de la vida, asistimos a un espectáculo sorprendente de descubrimientos pedagógicos aún valederos.

Debating Sex and Gender in Eighteenth-Century Spain Marta V. Vicente,2017-10-05 Eighteenth-century debates continue to set the terms of modern day discussions on how 'nature and nurture' shape sex and gender. Current dialogues - from the tension between 'real' and 'ideal' bodies, to how nature and society shape sexual difference - date back to the early modern period. Debating Sex and Gender is an innovative study of the creation of a two-sex model of human sexuality based on different genitalia within Spain, reflecting the enlightened quest to promote social reproduction and stability. Drawing on primary sources such as medical treatises and legal literature, Vicente traces the lives of individuals whose ambiguous sex and gender made them examples for physicians, legislators and educators for how nature, family upbringing, education, and the social environment shaped an individual's sex. This book brings together insights from the histories of sexuality, medicine and the law to shed new light on this timely and important field of study.

Emilio o De la educación Jean-Jacques Rousseau,1995

French Opera 1730-1830: Meaning and Media David Charlton,2024-10-28 The majority of these collected essays date from 1992 onwards, three of them having been specially expanded for this volume. Drawing on recent archival research and new musicological theory, they investigate distinctive qualities in French opera from early opéra comique to early grand opera. 'Media' is interpreted in terms of both narrative systems and practical theatre resources. One group of essays identifies narrative systems in 'minuet-scenes', in the diegetic romance, and in special uses of musical motives. Another group concerns the theory and aesthetics of opera, in which uses of metaphor help us interpret audience reception. A third group focuses on orchestral and staging practices, brought together in a new theory of the 'melodrama model' linking various genres from the 1780s with the world of the 1820s. French opera's relation with literature and politics is a continuing theme, explored in writings on prison scenes, Ossian, and public-private dramaturgy in grand opera. David Charlton has written widely on French music and opera topics for over 25 years. The selection of his articles presented here focuses on the period

1730-1830 when Paris was a hotbed of influential ideas in music and music theatre, with many of these ideas taken up by foreign composers. This volume assesses the French contribution to the development of Classical and Romantic styles and genres which has hitherto not received the attention it deserves.

Du contrat social de Jean-Jacques Rousseau (Analyse de l'oeuvre) lePetitLitteraire,,Gabrielle Yriarte,Johanne Morrhaye,2017-11-23 Décryptez Du contrat social de Jean-Jacques Rousseau avec l'analyse du PetitLitteraire.fr ! LePetitLittéraire.fr est reconnu d'intérêt pédagogique par le ministère de l'Éducation. Plus d'informations sur lepetitlitteraire.fr

New Perspectives on the History of Facial Hair Jennifer Evans,Alun Withey,2018-03-02 This volume brings together a range of scholars from diverse disciplinary backgrounds to re-examine the histories of facial hair and its place in discussions of gender, the military, travel and art, amongst others. Chapters in the first section of the collection explore the intricate history of beard wearing and shaving, including facial hair fashions in long historical perspective, and the depiction of beards in portraiture. Section Two explores the shifting meanings of the moustache, both as a manly symbol in the nineteenth century, and also as the focus of the material culture of personal grooming. The final section of the collection charts the often-complex relationship between men, women and facial hair. It explores how women used facial hair to appropriate masculine identity, and how women's own hair was read as a sign of excessive and illicit sexuality.

Music for the Melodramatic Theatre in Nineteenth-Century London and New York Michael V. Pisani,2014-07-01 Throughout the nineteenth century, people heard more music in the theatre—accompanying popular dramas such as *Frankenstein*, *Oliver Twist*, *Uncle Tom's Cabin*, *Lady Audley's Secret*, *The Corsican Brothers*, *The Three Musketeers*, as well

as historical romances by Shakespeare and Schiller—than they did in almost any other area of their lives. But unlike film music, theatrical music has received very little attention from scholars and so it has been largely lost to us. In this groundbreaking study, Michael V. Pisani goes in search of these abandoned sounds. Mining old manuscripts and newspapers, he finds that starting in the 1790s, theatrical managers in Britain and the United States began to rely on music to play an interpretive role in melodramatic productions. During the nineteenth century, instrumental music—in addition to song—was a common feature in the production of stage plays. The music played by instrumental ensembles not only enlivened performances but also served other important functions. Many actors and actresses found that accompanimental music helped them sustain the emotional pitch of a monologue or dialogue sequence. Music also helped audiences to identify the motivations of characters. Playwrights used music to hold together the hybrid elements of melodrama, heighten the build toward sensation, and dignify the tragic pathos of villains and other characters. Music also aided manager-directors by providing cues for lighting and other stage effects. Moreover, in a century of seismic social and economic changes, music could provide a moral compass in an uncertain moral universe. Featuring dozens of musical examples and images of the old theatres, *Music for the Melodramatic Theatre* charts the progress of the genre from its earliest use in the eighteenth century to the elaborate stage productions of the very early twentieth century.

Handbook of Food Analysis Leo M.L. Nollet, 2004-06-01 This two-volume handbook supplies food chemists with essential information on the physical and chemical properties of nutrients, descriptions of analytical techniques, and an assessment of their procedural reliability. The new edition includes two new chapters that spotlight the characterization of water activity and the analysis of inorganic nutri

Althusser, The Infinite Farewell Emilio de Ípola, 2018-05-03 In *Althusser, The Infinite Farewell*—originally published in Spanish and appearing here in English for the first time—Emilio de Ípola contends that Althusser's oeuvre is divided between two fundamentally different and at times contradictory projects. The first is the familiar Althusser, that of *For Marx* and *Reading Capital*. Symptomatically reading these canonical texts alongside Althusser's lesser-known writings, de Ípola reveals a second, subterranean current of thought that flows throughout Althusser's classic formulations and which only gains explicit expression in his later works. This subterranean current leads Althusser to move toward an aleatory materialism, or a

materialism of the encounter. By explicating this key aspect of Althusser's theoretical practice, de Ípola revitalizes classic debates concerning major theoretico-political topics, including the relationship between Marxism, structuralism, and psychoanalysis; the difference between ideology, philosophy, and science; and the role of contingency and subjectivity in political encounters and social transformation. In so doing, he underscores Althusser's continuing importance to political theory and Marxist and post-Marxist thought.

Animation, Plasticity, and Music in Italy, 1770-1830 Ellen Lockhart,2017-09-19 This pathbreaking study of Italian stage works reconsiders a crucial period of music history: the late eighteenth century through the early nineteenth century. In her interdisciplinary examination of the statue animated by music, Ellen Lockhart deftly shows how Enlightenment ideas influenced Italian theater and music and vice versa. As Lockhart concludes, the animated statue became a fundamental figure within aesthetic theory and musical practice during the years spanning 1770-1830. *Animation, Plasticity, and Music in Italy, 1770-1830* begins with an exploration of a repertoire of Italian ballets, melodramas, and operas from around 1800, then traces and connects a set of core ideas between science, philosophy, theories of language, itinerant performance traditions, the epistemology of sensing, and music criticism.
