**Thomas J Gordon**

*By, For, and About Marines* Lt Col Sidney Atwater US Marine Corps, 2021-07-08 *By, For, and About Marines* is a nonfiction collection of notable quotes giving voice to U.S. Marines throughout its storied and illustrious history. Each quote is set in historical context to give the reader a better understanding of where, when, and why the quote is included.

*The Book of Marine Corps Quotes* Mark Phillips, 2008-11-22 Enjoy quotes by and about the United States Marine Corps. This book makes a great gift for birthdays, Christmas, Marine Corps Birthday Celebration and graduating from Boot Camp.

**Forgotten Warriors** T. X. Hammes, 2020-09-01 When the Korean War broke out in 1950, the Marine Corps was ordered to deploy an air-ground brigade in less than ten days, even though no such brigade existed at the time. Assembled from the woefully understrength 1st Marine Division and 1st Marine Air Wing units, the Brigade shipped out only six days after activation, sailed directly to Korea, was in combat within ninety-six hours of landing and, despite these enormous handicaps and numerically superior enemy forces, won every one of its engagements and helped secure the Pusan Perimeter. Despite its remarkable achievements, the Brigade's history has largely been lost amid accounts of the sweeping operations that followed. Its real history has been replaced by myths that attribute its success to tough training, great conditioning, unit cohesion, and combat-experienced officers. None of which were true. T. X. Hammes now reveals the real story of the Brigade's success, prominently citing the Corps' crucial ability to maintain its ethos, culture, and combat effectiveness during the period between World War II and Korea, when its very existence was being challenged. By studying the Corps from 1945 to 1950, Hammes shows that it was indeed the culture of the Corps—a culture based on remembering its storied history and learning to face modern challenges—that was responsible for the Brigade's success. The Corps remembered the human factors that made it so successful in past wars, notably the ethos of never leaving another marine behind. At the same time, the Corps demonstrated commendable flexibility in adapting its doctrine and operations to evolutions in modern warfare. In particular, the Corps overcame the air-ground schism that marked the end of World War II to excel at close air support. Despite massive budget and manpower cuts, the Corps continued to experiment and learn even as it clung to its historical lodestones. This approach was validated during the Brigade's trial by fire. More than a mere battle history, *Forgotten Warriors* gets to the heart of marine culture to show fighting forces have to both remember and learn. As today's armed forces face similar challenges, this book confirms that culture as much as technology prepares America's fighting men and

women to answer their country's call.

Vin Rouge, Vin Blanc, Beaucoup Vin, the American Expeditionary Force in Wwi Van Lee, 2004 World War One was the war to end all wars, but in reality, it was only the beginning. WWI saw America move from an isolated power to a world power, placing it as a leader in international politics. It saw the US military rapidly expand from a second-rate force to a world-class fighting force. It would become a defining moment for the United States, its military, and its citizens. Explore American involvement in the war, learn from where America came and where it would go.

**Powerhouse** Brian MacNeice, James Bowen, 2016-10-03 DISTINGUISHED FAVOURITE: Independent Press Awards 2017 Why are the New Zealand All Blacks the best rugby team in the world? How does the Kirov Ballet produce generation after generation of exceptional ballerinas? How did Southwest Airlines evolve from being an idiosyncratic Texan airline to become one of the most successful businesses internationally? How does the Finnish School Education System deliver great results by breaking conventions? Powerhouse uncovers the performance secrets of some of the most impressive organizations around the world and reveals the key principles they have in common to enable any business to raise their own bar. To understand what makes these organizations great, MacNeice and Bowen have conducted immersive and personal research; investigating their culture, interviewing their leaders and observing their everyday practice. Despite this diverse range of seemingly contrasting industries - business, sport, technology, finance, the arts - each of these successful institutions share a common bond: they are world-class industry leaders and have repeatedly outperformed their competition. Powerhouse explores what lessons can be learnt from these organizations to provide a unique and in-depth analysis of how enduring high performance can be developed.

*Marine Maxims* Thomas J Gordon, 2021-11-10 Marine Maxims is a collection of fifty principle-based leadership lessons that Thomas J. Gordon acquired commanding Marines over a career spanning three decades of service. Dealing with the complexities and challenges of the contemporary operating environment requires an internal moral compass fixed true. These maxims focus on developing inner citadels of character, moral courage, and the resilience to persevere in a contested domain where information is key. Its purpose is to provide future leaders with a professional development plan that will steel their resolve and enable them to lead with honor. Thematically, these maxims build upon a foundation of character, courage, and will. To be effective, a leader must model and inspire the will to persevere in the face of danger or adversity. The essence of effective leadership is credibility. A leader's credibility is derived from a congruence of competence and character. Exceptional leaders are not remembered for what they accomplished, but how they did it. Those that lead with integrity will be remembered as a leader worth following.

*To Lead by the Unknowing, to Do the Unthinkable* Michael Waseleski,2009 *To Lead by the Unknowing, To Do the Unthinkable* tells the story of a squad of marines on the front line of the war in Iraq. It tells of the battles the marines were in and how they had to improvise, adapt, and overcome to complete their missions, as well as the personal struggles they endured and their thoughts while the war was unfolding right in front of them. From Marine Corps boot camp to life out of the marines, *To Lead by the Unknowing, To Do the Unthinkable* is a must read.

Captain Pete Peter S. Clarke,2018-01-15 Peter Silverlos Livingston was born before World War II and would be considered a traditionalist in today's jargon. There is an old saying, "You can take the kid out of Brooklyn but you can't take Brooklyn out of the kid". As a young kid growing up in Brooklyn, New York, Peter had the opportunity of being involved in many activities as a young boy. Brooklyn was the most populated of the five boroughs of New York City with over 3 million people of mostly European extraction including many other ethnic races from all over the world during World War II. New York City was and still is the biggest city in the country. There were more combat troops from Brooklyn than any other area in the country. Over three thousand died in World War II. The average age of those who fought and died in WWII was 26 years old. Believe It or not, the average age of those who fought and died in Vietnam was 19 years old. Also, Marine casualties in Viet Nam totaled over 13 thousand. The Viet Nam war was one of the longest U.S. conflicts to date totaling ten years from 1965 to 1975, but the U.S. had advisors there for a number of years even before 1965. Over 58,000 U.S. troops died in Viet Nam and some are still Missing In Action (MIA's) like the great track and field star Cliff Cushman. He was from the University of Kansas and was a silver medalist in the Olympics and a track buddy of Pete's. He flew an Air Force jet when he went missing. The Viet Nam Veterans Memorial wall in Washington D.C. is a long black slab marble wall dedicated to all the fallen warriors and those that served and fought in Viet Nam, including those who are still MIA. Each of the soldiers names are inscribed on it in chronological order based on the date they died and served. This honor has been bestowed on all these veterans who courageously fought in the Viet Nam war conflict as remembered by the United States which dedicated the building of this wall in their honor. The monument's importance and significance is a symbol for all peoples in the United States and future generations to remember the sacrifice these veterans undertook regarding this conflict.

MARINES Chuck Mansfield,2023-10-29 The history and lore of the United States Marine Corps are likely unmatched. Steeped in the rich history and tradition of the Corps since its founding in 1775, this book focuses on more recent history, specifically the author's experiences as a young Marine in the 1960s, including his tour of duty in Vietnam. It also includes biographical profiles of more than 100 other Marines who fought in Vietnam or other conflicts. Most of those profiled are

Marines with whom the author served or has come to know since his active military service. The 30th Marine Commandant, General Carl Mundy, has written: "Few who have borne the title [United States Marine] fail to identify with it throughout their entire lives." Marines are, as Shakespeare has written, "We few, we happy few, we band of brothers." And brothers are members of a family. This family is "The few. The proud. The Marines."

**World War II Primer** Donald A. Wambold, Jr.,2024-06-28 In this book I have endeavored to cover briefly as a Primer, the compete story (as I know it) of the war in the pacific, of what is often not taught in schools and by teachers. They often miss our great history. I offer this as a guide to teacher and students. I also took the liberty of briefly telling the storied of "unsurpassed courage" at least from Chester County, Pennsylvania.

**Business Agility** Michael H. Hugos,2009-03-04 The relentless pursuit of industrial efficiency no longer yields the profits it once did because it requires a level of business predictability that no longer exists. Instead, the Internet and global video and telecom systems provide a massive and continuous flow of data that causes the whole world to behave like a giant stock market, with all the volatility and uncertainty that goes along with such markets. Responsiveness now trumps efficiency. By being responsive to the evolving needs and desires of specific groups of customers, companies can wrap their products and services in a tailored blanket of value-added services to consistently earn an additional four percent or more gross margin than they would otherwise earn for the product or service alone. This customer and market specialization is the most promising and the most sustainable source of profits in our fluid, real-time economy. Part of the Microsoft Executive Leadership Series, Business Agility discusses the three fundamental process loops that drive an agile enterprise and how they work together to deliver the responsiveness that generates profits in a high-change economy. Providing strategies for innovative and pragmatic use of people, process, and technology to drive operations in an agile enterprise, this book reveals the principles of the agile enterprise, backed by real-world case studies from the author's own experience. Michael Hugos is a speaker, writer, and practitioner in IT and business agility, and agile system development methods. He writes a column for Computerworld and a blog titled Doing Business in Real Time for CIO magazine.

*The Ghost Mountain Boys* James Campbell,2007-10-02 Lying due north of Australia, New Guinea is among the world's largest islands. In 1942, when World War II exploded onto its shores, it was an inhospitable, cursorily mapped, disease-ridden land of dense jungle, towering mountain peaks, deep valleys, and fetid swamps. Coveted by the Japanese for its strategic position, New Guinea became the site of one of the South Pacific's most savage campaigns. Despite their lack of jungle training, the 32nd Division's Ghost Mountain Boys were assigned the most grueling mission of the entire Pacific campaign: to march 130 miles over the rugged Owen Stanley Mountains and to protect the right flank of the Australian army as they fought to push the Japanese back to the village of Buna on New Guinea's north coast. Comprised of National

Guardsmen from Michigan and Wisconsin, reserve officers, and draftees from across the country, the 32nd Division lacked more than training—they were without even the basics necessary for survival. The men were not issued the specialized clothing that later became standard issue for soldiers fighting in the South Pacific; they fought in hastily dyed combat fatigues that bled in the intense humidity and left them with festering sores. They waded through brush and vines without the aid of machetes. They did not have insect repellent. Without waterproof containers, their matches were useless and the quinine and vitamin pills they carried, as well as salt and chlorination tablets, crumbled in their pockets. Exhausted and pushed to the brink of human endurance, the Ghost Mountain Boys fell victim to malnutrition and disease. Forty-two days after they set out, they arrived two miles south of Buna, nearly shattered by the experience. Arrival in Buna provided no respite. The 32nd Division was ordered to launch an immediate assault on the Japanese position. After two months of furious—sometimes hand-to-hand—combat, the decimated division finally achieved victory. The ferocity of the struggle for Buna was summed up in Time magazine on December 28, 1942, three weeks before the Japanese army was defeated: “Nowhere in the world today are American soldiers engaged in fighting so desperate, so merciless, so bitter, or so bloody.” Reminiscent of classics like *Band of Brothers* and *The Things They Carried*, this harrowing portrait of a largely overlooked campaign is part war diary, part extreme adventure tale, and (through letters, journals, and interviews) part biography of a group of men who fought to survive in an environment every bit as fierce as the enemy they faced.

**Seapower** Geoffrey Till, 2018-06-19 This is the fourth, revised and updated, edition of Geoffrey Till's *Seapower: A Guide for the Twenty-first Century*. The rise of the Chinese and other Asian navies, worsening quarrels over maritime jurisdiction and the United States' maritime pivot towards the Asia-Pacific region reminds us that the sea has always been central to human development as a source of resources, and as a means of transportation, information-exchange and strategic dominion. It has provided the basis for mankind's prosperity and security, and this is even more true in the early twenty-first century, with the emergence of an increasingly globalised world trading system. Navies have always provided a way of policing, and sometimes exploiting, the system. In contemporary conditions, navies, and other forms of maritime power, are having to adapt, in order to exert the maximum power ashore in the company of others and to expand the range of their interests, activities and responsibilities. While these new tasks are developing fast, traditional ones still predominate. Deterrence remains the first duty of today's navies, backed up by the need to 'fight and win' if necessary. How navies and their states balance these two imperatives will tell us a great deal about our future in this increasingly maritime century. This book investigates the consequences of all this for the developing nature, composition and functions of all the world's significant navies, and provides a guide for anyone interested in the changing and crucial role of seapower in the twenty-first century. *Seapower* is essential reading for all students of naval power, maritime security and naval history, and highly

recommended for students of strategic studies, international security and international relations.
