*A History of Arab Graphic Design* Bahia Shehab,Haytham Nawar,2020-12-15 The first-ever book-length history of Arab graphic design PROSE AWARD WINNER, ART HISTORY & CRITICISM Arab graphic design emerged in the early twentieth century out of a need to influence, and give expression to, the far-reaching economic, social, and political changes that were taking place in the Arab world at the time. But graphic design as a formally recognized genre of visual art only came into its own in the region in the twenty-first century and, to date, there has been no published study on the subject to speak of. A History of Arab Graphic Design traces the people and events that were integral to the shaping of a field of graphic design in the Arab world. Examining the work of over eighty key designers from Morocco to Iraq, and covering the period from pre-1900 to the end of the twentieth century, Bahia Shehab and Haytham Nawar chart the development of design in the region, beginning with Islamic art and Arabic calligraphy, and their impact on Arab visual culture, through to the digital revolution and the arrival of the Internet. They look at how cinema, economic prosperity, and political and cultural events gave birth to and shaped the founders of Arab graphic design. Highlighting the work of key designers and stunningly illustrated with over 600 color images, A History of Arab Graphic Design is an invaluable resource tool for graphic designers, one which, it is hoped, will place Arab visual culture and design on the map of a thriving international design discourse.

Cities' Identity Through Architecture and Arts Yasser Mahgoub,Nicola Cavalagli,Antonella Versaci,Hocine Bougdah,Marta Serra-Permanyer,2020-11-28 This book covers a broad range of topics relating to architecture and urban design, such as the conservation of cities' culture and identity through design and planning processes, various ideologies and approaches to achieving more sustainable cities while retaining their identities, and strategies to help cities advertise themselves on the global market. Every city has its own unique identity, which is revealed through its physical and visual form. It is seen through the eyes of its inhabitants and visitors, and is where their collective memories are shaped. In turn, these factors affect tourism, education, culture & economic prosperity, in addition to other aspects, making a city's identity one of its main assets. Cities' identities are constructed and developed over time and are constantly evolving physically,

culturally and sociologically. This book explains how architecture and the arts can embody the historical, cultural and economic characteristics of the city. It also demonstrates how cities' memories play a vital role in preserving their physical and nonphysical heritage. Furthermore, it examines the transformation of cities and urban cultures, and investigates the various new approaches developed in contemporary arts and architecture. Given its scope, the book is a valuable resource for a variety of readers, including students, educators, researchers and practitioners in the fields of city planning, urban design, architecture and the arts.

Conservation of Architectural Heritage Antonella Versaci,Hocine Bougdah,Natsuko Akagawa,Nicola Cavalagli,2022-03-01 This book focuses on the management and conservation of architectural heritage with the aim of increasing awareness about the value of such conservation and of saving what is left of history, which in turn rewards societies by supporting the tourism industry, generating economic return, and preserving communities' identities. Since it has become an essential need to manage and conserve the architectural heritage in order to protect the identity and heritage of a city, there appeared a gap between the theory and its application. Therefore, a considerable amount of attention has been directed by experts in this field toward emphasizing the contribution of heritage conservation in order to inspire the development of imaginative, useful high-quality design.

**Cultural Sustainable Tourism** Uglješa Stankov,Sofia-Natalia Boemi,Sahar Attia,Stella Kostopoulou,Nabil Mohareb,2019-04-23 This book includes research papers submitted to and presented during the first international conference on Cultural Sustainable Tourism (CST) that was held in Thessaloniki, Greece in November of 2017. Discussing complex relations between Culture, tourism, and the role of planners and architects in their maintenance, this conference was jointly organized by IEREK -International Experts for Research Enrichment and Knowledge Exchange- and Aristotle University of Thessaloniki. The conference was an attempt to shed a light on the significance of Culture and Heritage as two important factors attracting tourists and promoting economic growth and convey civilizations through tourism. Themes covered in this book give an overview on current research and topics of discussion that focus on Cultural sustainable tourism through several sections. The first section, titled "Art, Architecture and Culture", discusses urban regeneration as a road to the preservation of cultural and tourist destinations and the importance of understanding and benefitting from our heritage to allow for modern day improvements. "Heritage Tourism", the section 2 of the book, is more focused on offering nontraditional solutions and management plans to sustain cultural tourism and improve quality of life around historically significant areas. The third section on the "City and Rural Tourism" follows by providing sustainable strategies to attract tourists and promoting the use of existing resources. The last and final section with the title of "Sustainable Tourism, Development and Environmental Management" maneuvers around the different yet common environmental issues existing

today and proposes new and innovative solutions for their elimination. Presenting a wide range of topics in chapters, this book provides the scientific community with a collection of unique and enlightening literature.

Man and Place Asmaa Ibrahim, Mady A. A. Mohamed, Mohamed Fekry, 2024-05-10 This book is a result of the 1st ARCH and DESN International Conference (previously Memaryat) Conference held at Effat university on the 8th and 9th of February 2023, and includes chapters dealing with the critical manifestation of “Man and Place” to accommodate and embrace social, economic, and environmental needs within a balanced, integrated system. The book is groundbreaking in that it brings together some of the brightest minds in academia and industry. The book includes a diverse range of contributions from esteemed academics and practitioners and offers a unique platform for thought-provoking discussions and innovative strategies that will help shape the cities of tomorrow. Further chapters include topics such as sustainability and creative transformations, smart cities, environmental resilience, resilient local economies, manufacturing innovations, and smart products. This book will be of interest to decision-makers, architects, interior designers, product designers, urban planners, urban designers, entrepreneurs, educators, and agencies.

**Who's Who in the Arab World 2007-2008** Publitec Publications, 2011-12-22 Who's Who in the Arab World 2007-2008 compiles information on the most notable individuals in the Arab world. Additionally, the title provides insight into the historical background and the present of this influential and often volatile region. Part I sets out precise biographical details on some 6,000 eminent individuals who influence every sphere of public life in politics, culture and society. Part II surveys the 19 Arab Countries, providing detailed information on the geography, history, constitution, economy and culture of the individual countries. Part III provides information on the historical background of the Arab world. Indexes by country and profession supplement the biographical section. A select bibliography of secondary literature on the Middle East is also included.

*Bulletin of the Egyptian Museum* ,2005

*Modern Art in Egypt* Fatenn Mostafa Kanafani, 2020-06-25 Following a spectacular surge in interest for Egyptian masters, *Modern Art in Egypt* fills the void in Egyptian art history, chronicling the lives and legacies of six pioneering artists working under the British occupation. Using Western-style academic art as a starting point, these artists championed cultural progress, re-appropriating Egyptian visual culture from European orientalists to found a neo-Pharaonic School of Realism. *Modern Art in Egypt* charts the years from Muhammad Ali's educational reforms to the mass influx of foreigners during the nineteenth-century. With a focus on the al-Nahda thought movement, this book provides an overview of the key policy-makers, reformists and feminists who founded the first School of Fine Arts in Egypt, as well as cultural salons, museums and arts collectives. By combining political and aesthetic histories, Fatenn Mostafa breaks the prevailing understanding that has preferred to see non-Western art as derivatives of Western art movements. *Modern Art in Egypt* re-establishes Egypt's

presence within the global Modernist canon.

Resilient and Responsible Smart Cities Norsidah Ujang, Tomohiro Fukuda, Anna Laura Pisello, Dinko Vukadinović, 2021-08-18 This book focuses on the ways in which resiliency can foster the transformation of cities. There is a growing need for our cities to be transformed into “smart” cities; in this regard, tremendous efforts are called for in order to face the environmental challenges that play a major role in the creation or transformation of cities and environments. This book covers a broad range of applications and approaches that are “smart” and “resilient,” which, when combined, offer much more flexibility concerning the future of our cities. Consequently, this simple combination, which is producing sweeping changes around the globe, has attracted considerable attention from scholars and decision-makers alike.

Conservation of Architectural Heritage Dean Hawkes, Hocine Bougdah, Federica Rosso, Nicola Cavalagli, Mahmoud Yousef M. Ghoneem, Chaham Alalouch, Nabil Mohareb, 2019-07-26 History is one of the main aspects that shapes a country’s culture and leaves its traces on the built environment in the form of an architectural heritage. Such a heritage records the existence of humans, their past endeavours and in doing so preserves their cultures and traditions for future generations and contributes to the formation of their identities by acting as an inspiration for their architectural achievements. From this perspective, conservation of architectural heritage becomes important to both current and future architectural endeavours. This book discusses several topics of great importance and relevance to the conservation of worldwide architectural heritage. From historic cities and cultural landscapes to some of the largest archaeological sites in the world, conserving such a legacy is a challenging task that requires commitment, effort and international cooperation that this book proves possible. The book has an abundance of information that undoubtedly covers major areas in the field of architecture heritage. It discusses the challenges faced in the field and demonstrates the importance of such an undertaking to individuals, communities, and cities’ identity all over the world. It also highlights the role of individuals and organizations in the precise and complex process of conserving architectural heritage.

**Advanced Studies in Energy Efficiency and Built Environment for Developing Countries** Chaham

Alalouch, Hassan Abdalla, Emmanuel Bozonnet, George Elvin, Oscar Carracedo, 2019-05-21 This edited volume consists of three parts. It is a culmination of selected research papers presented at the second version of the international conference on Improving Sustainability Concept in Developing Countries (ISCDC) and the second version of the international conference on Alternative and Renewable Energy Quest in Architecture and Urbanism (AREQ), organized by IEREK in Egypt, 2017. It discusses major environmental issues and challenges which threaten our future. These include climate change impact, environmental deterioration, increasing demand for energy and new approaches for alternative renewable energy sources which became a necessity for survival. In addition to addressing the different environmental issues witnessed today, research

presented in this book stressed on the need of sustainably shaping buildings and cities using renewable energy sources. Topics included in this book are (1) Resilience in the Built Environment, (2) Design for energy-efficient architecture and (3) Alternative and Renewable Energy Resources Quest in Architecture and Urbanism. The book is of interest to researchers and academicians who continuously aim to update their knowledge in these fields, as well as decision makers needing the enough knowledge to carry out the right decisions towards the benefit of the environment and society.

*Urban Environment* Sébastien Rauch,Gregory Morrison,Stefan Norra,Nina Schleicher,2013-12-09 Over half of the global population now lives in cities. This ongoing urbanisation is making it increasingly important to adequately manage urban systems and preserve urban environments. This book is the outcome of the 11th Urban Environment Symposium (UES) held on 16-19 September 2012 in Karlsruhe, Germany. The UES aims at providing a forum on the sciences and practices needed to promote a sustainable future in urban environments. Papers by leading experts are presented in sections on Urban Management and Spatial Planning, Green Cities and Urban Ecosystems, Urban Planning and Development, Air Quality and Noise, Urban Climate Change and Adaptation, and Contamination of Urban Waters and its Effects.

**Advances in Architecture, Engineering and Technology** Haşim Altan,Samad Sepasgozar,Abdullateef Olanrewaju,Francisco José García Peñalvo,Alessandro Gaetano Severino,Tiko Iyamu,Ju Hyun Lee,2022-12-14 This book summarizes the latest studies regarding innovation in urban design and planning. It shares many tips and insights about sustainable solutions for the issues facing transport systems, innovative digital technologies, and ICT trends. The book touches upon the need to integrate the three fields of Architecture, Engineering, and Technology that have become indispensable. This is intended to respond to the increasing human needs and population growth in cities on one hand and to develop a holistic approach that helps overcome challenges to sustainability and environment management on the other hand. With the power of engineering in practice, problems of design and development once considered too complex to be dealt with other than empirically, intuitively, or by trial and error, are now becoming more solvable and applicable. This book offers strategies and solutions that enable designers to bring together knowledge in the fields of architecture, engineering, and technology to overcome challenges facing in modern times.

Digital Transformation, Perspective Development, and Value Creation Małgorzata Pańkowska,2023-10-02 This edited collection aims to provide relevant theoretical frameworks and the latest empirical research findings in the area of business management. It covers case studies provided by teachers visiting the University of Economics in Katowice, Poland, within Erasmus and CEEPUS Programmes. Over 12 years, approximately 25 teachers have been coming year by year to Katowice, presenting their monographic lectures and participating in seminars on their research results and educational achievements. This book contains descriptions of case studies, elaborated by Erasmus and CEEPUS teachers, illustrating that the case study

is a method of research as well as a method applied in education and emphasizing the value of qualitative methods by example of case studies. The key benefit of qualitative research is that it allows a researcher to perceive and understand context within which decisions and actions take place. Hence, to understand peoples' motivations, their reasons, their actions, and the context for their beliefs and actions, qualitative research is the best route. Assuming that business organizations as well as individuals are entirely linked together via the Internet, a new approach to business communication and marketing, business modelling and management are developed to reveal an increase of business synergy effects, the alignment of information and communication technologies (ICT) and business and social value creation, as well as sustainability and environment protection. Through this book, readers have an opportunity to learn about relevance and rigor in qualitative research and how the case study can be applied in various organizational contexts.

*Environment, Health, and Sustainable Development* Mostafa Kamal Tolba, Aleya Abdel-Hadi, Salah Soliman, 2010 Offers insights into the planning, design, and management of sustainable and healthy environments. The planning, design, and management of sustainable and healthy environments are the key themes addressed in the papers in this book, selected from the IAPS 19 Conference held in Alexandria (Egypt).

*Urban and Transit Planning* Hocine Bougdah, Antonella Versaci, Adolf Sotoca, Ferdinando Trapani, Marco Migliore, Nancy Clark, 2019-07-20 A volume of five parts, this book is a culmination of selected research papers from the second version of the international conferences on Urban Planning & Architectural Design for sustainable Development (UPADSD) and Urban Transit and Sustainable Networks (UTSN) of 2017 in Palermo and the first of the Resilient and Responsible Architecture and Urbanism Conference (RRAU) of 2018 in the Netherlands. This book, not only discusses environmental challenges of the world today, but also informs the reader of the new technologies, tools, and approaches used today for successful planning and development as well as new and upcoming ones. Chapters of this book provide in-depth debates on fields of environmental planning and management, transportation planning, renewable energy generation and sustainable urban land use. It addresses long-term issues as well as short-term issues of land use and transportation in different parts of the world in hopes of improving the quality of life. Topics within this book include: (1) Sustainability and the Built Environment (2) Urban and Environmental Planning (3) Sustainable Urban Land Use and Transportation (4) Energy Efficient Urban Areas & Renewable Energy Generation (5) Quality of Life & Environmental Management Systems. This book is a useful source for academics, researchers and practitioners seeking pioneering research in the field.
