How Many Languages Do We Need? Victor Ginsburgh, Shlomo Weber, 2011-04-04 In the global economy, linguistic diversity influences economic and political development as well as public policies in positive and negative ways. It leads to financial costs, communication barriers, divisions in national unity, and, in some extreme cases, conflicts and war--but it also produces benefits related to group and individual identity. What are the specific advantages and disadvantages of linguistic diversity and how does it influence social and economic progress? This book examines linguistic diversity as a global social phenomenon and considers what degree of linguistic variety might result in the greatest economic good. Victor Ginsburgh and Shlomo Weber look at linguistic proximity between groups and between languages. They describe and use simple economic, linguistic, and statistical tools to measure diversity's impact on growth, development, trade, the quality of institutions, translation issues, voting patterns in multinational competitions, and the likelihood and intensity of civil conflicts. They address the choosing of core languages in a multilingual community, such as the European Union, and argue that although too many official languages might harm cohesiveness, efficiency, and communication, reducing their number brings about alienation and disenfranchisement of groups. Demonstrating that the value and drawbacks of linguistic diversity are universal, How Many Languages Do We Need? suggests ways for designing appropriate linguistic policies for today's multilingual world.

Nigerian Languages, Literatures, Culture and Reforms Ozo-mekuri Ndimele, 2016-04-30 The papers in this volume were selected from the Silver Jubilee edition of the Annual Conference of the Linguistic Association of Nigerian (LAN) which was held at the Nigerian Educational Research and Development Council (NERDC), Abuja, Nigeria. The Silver Jubilee edition is dedicated to the father of Nigerian Linguistics, Professor Emeritus Ayo Bamgbose. Professor Emeritus Bamgbose was the first indigenous Professor of Linguistics in Nigeria, and the first black African to teach linguistics in any known university south of the Sahara. He was there from the very beginning, and together with co-operation of people such as the late Professor Kay Williamson, he nurtured Nigerian linguistics. He is not just a foremost Nigerian linguist, but also a most famous, respected, celebrated, distinguished, and cherished African linguist of all times. To be candid, Nigerian linguistics is synonymous with Professor Emeritus Bamgbose. In 58 well-written chapters by experts in their fields, the book covers aspects of Nigerian languages, linguistics, literatures and culture. The papers have not been categorized into sections; rather they flow, hence there is some overlapping in the arrangement. The book is an essential resource for all who are interested to learn about current trends in the study of languages, linguistics and related subject-matters in Nigeria.

Languages of the World Asya Pereltsvaig, 2023-12-07 Are you curious to know what all languages have in common and how they differ? Do you want to find out how language can be used to trace different peoples and their past? Now in its fourth edition, this fascinating book guides beginners through the rich diversity of the world's languages. **African Culture and Global Politics** Toyin Falola, Danielle Sanchez, 2014-01-10 This volume attempts to insert itself within the larger discussion of Africa in the twenty-first century, especially within the realm of world politics. Despite the underwhelming amount of attention given to Africa's role in international politics in popular news sources, it is evident that Africa has a consistent record of participating in world politics- one that pre-dates colonization and continues today. In continuance of this legacy of active participation in global political exchanges, Africans today can be heard in dialogues that span the world and their roles are impossible to replace by other entities. It is evident that a vastly different Africa exists than ones that bolster images of starvation, corruption, and compliance. The essays in this volume center on Africa and Africans participating in international political discourses, but with an emphasis on various forms of expression and

philosophies, as these factors heavily influence Africa's role as a participant in global politics. The reader will find a variety of essays that permeate surface discussions of politics and political activism by inserting African culture, rhetoric, philosophies into the larger discussion of international politics and Africa's role in worldwide political, social, and economic debates.

**Language Documentation and Endangerment in Africa** James Essegbey, Brent Henderson, Fiona McLaughlin, 2015-10-15 This volume brings together a number of important perspectives on language documentation and endangerment in Africa from an international cohort of scholars with vast experience in the field. Offering insights from rural and urban settings throughout the continent, these essays consider topics that range from the development of a writing system to ideologies of language endangerment, from working with displaced communities to the role of colonial languages in reshaping African repertoires, and from the insights of archeology to the challenges of language documentation as a doctoral project. The authors are concerned with both theoretical and practical aspects of language documentation as they address the ways in which the African context both differs from and resembles contexts of endangerment elsewhere in the world. This volume will be useful to fieldworkers and documentalists who work in Africa and beyond.

**Education and the Law** Gerald Stowbridge, Witold Tulasiewicz, 2003-09-02 This edited collection discusses the way legislation affects education and training and shows how the law can influence the level and degree of economic activity.

**Multilingualism and Education in Africa** Ruth W. Nding'u, Martin C. Njoroge, Daniel O. Orwenjo, 2014-10-16 This book is a must-read for every language teaching professional and researcher working in a multilingual context. *Multilingualism and Education in Africa: The State of the State of the Art* is an up-to-date exploration and wide-ranging review of the symbiotic relationship between multilingualism and education in Africa. The African continent is rich in languages. Most of her inhabitants are multilingual and many of the nations have embraced multilingual education. This book examines multilingualism in education from three broad perspectives: multilingualism and language in education policy in Africa; multilingualism as an educational resource in Africa; and attitudes and challenges of multilingualism and education in Africa. The book's nineteen chapters discuss these three perspectives from East, West, Central and South Africa. All the contributors are leading authorities in multilingualism and education. The chapters combine a wide range of viewpoints based on theoretical, empirical and personal experiences. The reader is left with a deeper understanding of the unique features of multilingualism and education in Africa that have seldom been addressed by those who experience them first-hand. The book demonstrates successful practices in multilingualism and education; showing how African nations have determined what works for them without ignoring challenges such as policies on paper, attitudes towards African languages and limited resources. The benefits of multilingual education override the challenges. The book's extensive coverage makes it an important resource for scholars and policy makers in the field of multilingualism and education. Overall, this book represents an important contribution to an important subject in education globally. The editors have provided an introductory overview to the book and commentaries on the three sections.

Nigeria Toyin Falola, Bukola A. Oyeniyi, 2015-02-24 Written by leading experts in African studies, this broad introduction

to Nigeria follows the history of the republic from the early period to the present day. As Africa's most populated country and major world exporter of oil, Nigeria is a nation with considerable international importance—a role that is hampered by its economic underdevelopment and political instability. This book examines all major aspects of Nigeria's geography, politics, and culture, addressing the area's current attempts at building a strong nation, developing a robust economy, and stabilizing its domestic affairs. Perfect for students of African history, geography, anthropology, and political science, this guidebook provides an overview and history of Nigeria from the early period to contemporary times. Chapters focus on each region in the country; the government, economy and culture of Nigeria; the challenges and problems Nigerians face since the country's independence; and topics affecting everyday life, including music, food, etiquette, gender roles, and marriage.

**African Language Digital Media and Communication** Abiodun Salawu, 2018-10-03 While some academic attention has been paid to the impact of new digital technologies on African media in the colonial languages of English, French and Portuguese, there is a dearth of research into African language digital communication. This book analyses the online presence of African language media. The chapters in the book focus on the speed, structure, content, navigation and interactivity, operations and performance, and audience of the online media. They also pay particular attention to how social media such as Facebook, Twitter and WhatsApp have been appropriated by African language media. Using a wide range of case studies, the contributors assess the challenges of adopting digital technologies by the media, and how the technologies have impacted journalistic practice and media operations. Examining the ability of the African language press to adopt new technologies, this book will be of interest to scholars of media, journalism, communication, social media and culture in Africa.
