Natural Law and the Law of Nations in Eighteenth- and Nineteenth-Century Italy ,2023-11-07 The open access publication of this book was financially supported by the Swiss National Science Foundation. This volume sheds new light on modern theories of natural law through the lens of the fragmented political contexts of Italy in the eighteenth and nineteenth centuries, and the dramatic changes of the times. From the age of reforms, through revolution and the 'Risorgimento', the unification movement which ended with the creation of the unified Kingdom of Italy in 1861, we see a move from natural law and the law of nations to international law, whose teaching was introduced in Italian universities of the newly created Kingdom. The essays collected here show that natural law was not only the subject of a highly codified academic teaching, but also provided a broader conceptual and philosophical frame underlying the 'science of man'. Natural law is also a language wherein reform programmes of education and of politics have taken form, affecting a variety of discourses and literary genres. Contributors are: Alberto Clerici, Vittor Ivo Comparato, Giuseppina De Giudici, Frédéric Ieva, Girolamo Imbruglia, Francesca Iurlaro, Serena Luzzi, Elisabetta Fiocchi Malaspina, Emanuele Salerno, Gabriella Silvestrini, Antonio Trampus.

Europe in 1848 Dieter Dowe,2001 The events of 1989/90 in Europe demonstrated the renewed relevance of the mid-nineteenth century uprisings: both by showing, once again, how a revolutionary initiative could quickly spread through different European countries, but also by calling into question the nature of revolution and the criteria for a revolution's success and failure. To commemorate the 1848 revolution in a spirit of renewed critical inquiry, an international team of prominent historians have come together to produce what must be the most comprehensive work on this topic to date and to offer a synthesis that sums up the current state of scholarly research, emphasizing the many new interpretations that have developed over several decades.

Subaltern Social Groups Antonio Gramsci,2021-08-10 Antonio Gramsci is widely celebrated as the most original political thinker in Western Marxism. Among the most central aspects of his enduring intellectual legacy is the concept of

subalternity. Developed in the work of scholars such as Gayatri Spivak and Ranajit Guha, subalternity has been extraordinarily influential across fields of inquiry stretching from cultural studies, literary theory, and postcolonial criticism to anthropology, sociology, criminology, and disability studies. Almost every author whose work touches upon subalterns alludes to Gramsci's formulation of the concept. Yet Gramsci's original writings on the topic have not yet appeared in full in English. Among his prison notebooks, Gramsci devoted a single notebook to the theme of subaltern social groups. Notebook 25, which he entitled "On the Margins of History (History of Subaltern Social Groups)," contains a series of observations on subaltern groups from ancient Rome and medieval communes to the period after the Italian Risorgimento, in addition to discussions of the state, intellectuals, the methodological criteria of historical analysis, and reflections on utopias and philosophical novels. This volume presents the first complete translation of Gramsci's notes on the topic. In addition to a comprehensive translation of Notebook 25 along with Gramsci's first draft and related notes on subaltern groups, it includes a critical apparatus that clarifies Gramsci's history, culture, and sources and contextualizes these ideas against his earlier writings and letters. Subaltern Social Groups is an indispensable account of the development of one of the crucial concepts in twentieth-century thought.

España y la República Romana de 1849 Manuel Espadas Burgos, 2000

Emilio Salgari Paola Irene Galli Mastrodonato, 2024-05-15 Who created the most famous Southeast Asian hero during the heyday of imperialism and colonialism? Who inaugurated with *The Mysteries of the Black Jungle* over a century long link uniting the Italian imaginary to the Indian one? Who envisioned the most celebrated interracial love stories of world literature, those between Sandokan, leader of the Tigers of Mompracem, and Marianna, the Pearl of Labuan, between Tremal-Naik, the Bengali snake catcher, and Ada, the Virgin of Kali's temple at the time of the British Raj? Who defined the Caribbean as a symbolic trope of plunder and rebellion through the melancholic viewpoint of the Black Corsair and the forsaken love for his enemy's daughter? Who created Yanez de Gomera, a most famous Portuguese hero, and the imperfect voice of white anti-colonialism? It was Italy's great adventure novelist, Emilio Salgari (Verona, 1862 - Turin, 1911). From the Mahdi's revolt in Sudan to the African slave trade, from the Philippine insurgency to the Mediterranean at war between Turks and Christians, and to ancient Egypt, Salgari's breath-taking plots, together with his indigenous heroes and heroines in Vietnam, Thailand, Venezuela, Arctic Canada, the American Far West, the Chinese diaspora, deeply challenge canonical colonialist representations by contemporary Victorian authors like Conrad, Kipling, and Forster.
