Ramón Tamames, Antonio Rueda

Introducción a la economía internacional Ramón Tamames, 1994

Introducción a la integración económica Hernando Villamizar Pinto, 2000 Los procesos de integración económica empezaron a ganar importancia a partir de la terminación de la Segunda Guerra Mundial, con motivaciones políticas en algunos casos y económicas en otros. Primeramente se iniciaron en Europa con el objetivo de alcanzar una paz duradera; buscaban a la vez que mediante el esfuerzo conjunto de las naciones de ese continente se marchara, los caminos del progreso y se llegara de esta manera a ocupar posición en el mundo, al lado de los países más poderosos; de ahí surgió cuarenta años más tarde, como un avance más del camino de integración, la Unión Europea, gracias a los acuerdos Maastricht, suscritos solemnemente a principios de 1992 en la holandesa del mismo nombre. En Latinoamérica se siguió el mismo camino con miras a lograr el desarrollo económico a través del mercado común latino; no, al instituirse en 1960 la Asociación latinoamericana de Libre comercio, ALALC, y en Centroamérica, el Mercado Común Centroamericano; con el tiempo vinieron naciendo otros procesos diferentes sub-regiones del continente hasta surgir, en 1990, la de los Estados Unidos de América de crear la zona de libre comercio de las Américas, con la participación de todas las naciones del continente, desde Alaska hasta la Tierra del Fuego.

La economía Ramón Tamames, 2023-11-29 Tras años de reflexión y dedicación, este libro reúne las conclusiones más brillantes del gran economista español Ramón Tamames sobre en la economía internacional y sus ciclos económicos, la cooperación internacional, el desarrollo del comercio mundial, o el sistema monetario internacional del FMI y de la Unión Monetaria Europea. Destila y clarifica la estructura económica mundial y define las estrategias y los límites de la economía sostenible. El pensamiento de Tamames sobre relaciones entre la economía y la ecología, la consecución de un desarrollo respetuoso con el planeta y el análisis económico de un mundo en peligro por la ruptura de equilibrios, como el calentamiento global y el cambio climático, nos ofrecen una visión clarificadora del presente y los retos económicos futuros.

La hora de los economistas Luis Perdiges de Blas, 2010 Se ha celebrado el quincuagésimo aniversario de uno de los hitos de historia económica de España, el Plan de Estabilización de 1959. Momento crucial en el que los economistas tomaron las

riendas de la política nacional y encauzaron a España hacia la apertura económica, conscientes de que acabaría conllevando la apertura política. Desde esa fecha los economistas han desempeñado un papel fundamental en la modernización de la economía española y en el bienestar de los españoles. Sirva de ejemplo su participación en la firma del tratado preferencial con la Comunidad Económica Europea en 1970, los pactos de la Moncloa de 1977, las medidas de ajustes de los gobiernos socialistas de la década de los ochenta, la integración de España en la Unión Europea en 1986 y la incorporación en el Sistema Monetario Europeo. El libro reúne, por primera vez, un amplio conjunto de entrevistas con aquellos economistas que han influido de forma decisiva en el desarrollo y difusión del pensamiento económico en España. Se recogen más de cuarenta entrevistas articuladas en torno a dos grandes grupos. El primero compila entrevistas históricas realizadas en el pasado con economistas que ya no se hallan entre nosotros, abarcando desde Antonio Flores de Lemus hasta Enrique Fuentes Quintana, cuya trascendencia para el pensamiento económico y para la historia reciente de España ha sido decisiva. El segundo presenta entrevistas realizadas ex profeso para este libro con grandes economistas, desde Juan Velarde y Manuel Varela hasta Xavier Sala-i-Martin, provenientes de diferentes áreas de especialización y de distintas regiones españolas.

Orden y caos entre las naciones Edmundo Castillo Salazar, 2023-11-29 De pronto, pareciera que nada pudiera ser ajeno de cuanto acontezca en todos los rincones geográficos, culturales, políticos, comerciales y financieros del mundo. De ahí que, hasta la gente del común, remontando el pensamiento tradicional expresado antes, haya ido adquiriendo una actitud antropológica propensa a lo global, a lo cosmopolita. La evocativa (pero imprecisa) noción de “orden mundial”, de pronto, se ha aproximado tanto a nuestra existencia rutinaria que hasta se confunde con la noción doméstica del “orden público”. Ambos órdenes permiten concretar nuestro proyecto de vida, y cuando se mantienen en reposo, nos evocan ideas de estabilidad y seguridad, y producen una reconfortante sensación existencial de quietud que nos permite enfocarnos en nuestros quehaceres cotidianos. Pero, precisamente, por ese mismo sentido de inmediatez geográfica del mundo de la posmodernidad (que se convierte progresivamente en nuestro “orden público”), somos más sensibles a la inestabilidad del “orden mundial” y su engendro normativo-institucional: el “sistema internacional”. El primero, se ha tornado volátil; el segundo, da muestras de caducidad y amenaza desplomarse. Y esta percepción suscita nuestra imaginación e interés (como intuyendo la gestación de cambios de gran significación histórica), a la vez que hace que nos invada una incómoda y permanente sensación de inquietud, ante la significación de estos cambios en nuestro estilo de vida.

La formación de espacios regionales en la integración de América Latina Edgar Vieira Posada, 2008 CONTENIDO: Pasado y futuro de la integración latinoamericana - La formación de los Estados-nación latinoamericanos y las primeras tentativas de integración - Las tentativas de integración de América Latina en el siglo XX - Evolución de las teorías sobre integración en el contexto de las teorías de relaciones internacionales - Las teorías de desarrollo territorial y regional en el

marco de la globalización - El desarrollo de las regiones en la integración europea - Reformulación de la integración en un contexto de regionalización suramericana y latinoamericana - El desarrollo de bloques regionales subnacionales y transfronterizos: el caso de Colombia y su integración transfronteriza - Perspectivas de una integración suramericana y latinoamericana basada en el desarrollo de las regiones.

De la integración a la exclusión Hilario Ibáñez, 2002 El sistema de producción capitalista requirió el trabajo como factor productivo e hizo de él el elemento de reconocimiento personal y social. Por medio de la integración en el proceso productivo, las sociedades occidentales han conocido las etapas de mayor crecimiento y distribución de la riqueza. La aparición de las nuevas tecnologías, la mundialización de la economía, la fuerza de las empresas transnacionales, con la consiguiente pérdida de poder por parte de los Estados y las economías nacionales, han dado como resultado la aplicación de medidas liberalizadoras de la economía, cuya punta de ataque es el trabajo productivo. Estamos asistiendo, no al fin del trabajo, sino a una nueva manera de estructurar la sociedad, que ha perdido los contornos de la etapa anterior. Cabe preguntarse, como lo hace el autor, cuál es el elemento de cohesión de la sociedad en este momento histórico, qué sociedad queremos construir, qué clase de reivindicaciones y luchas es preciso plantear para construir una sociedad cohesionada, qué tipo de militancia y de organizaciones requiere este presente... Reflexión, análisis y compromiso público son las herramientas que el autor propone para la cohesión social en el presente libro. La sencillez de su lectura y una pequeña guía para el debate lo hacen especialmente oportuno para grupos y colectivos ciudadanos y movimientos en la tarea de transformar un mundo violento y excluyente en un mundo apto para todos. HILARIO IBÁÑEZ MARTÍNEZ, nacido en Vega de Doña Olimpa (Palencia) en 1957, es sacerdote de la diócesis de Palencia. Actualmente trabaja en un barrio obrero de Leganés (Madrid) y es profesor de filosofía en Bachillerato. Licenciado en Teología moral por la Universidad Comillas, ha realizado estudios en el Instituto Superior de Ciencias Morales de Madrid y ha pertenecido a los movimientos apostólicos JOC y HOAC y al Secretariado Social de la diócesis palentina. Tiene varios escritos y da charlas y conferencias a grupos y movimientos en relación con la construcción europea, el futuro del trabajo y la exclusión social.
