*Le manuel scolaire* Monique Lebrun, 2006-02-12T00:00:00-05:00 Dans le présent ouvrage, certaines équipes étudient l'utilisation du manuel lors de l'intervention éducative; d'autres se penchent sur le manuel comme discours ou sur la description des pratiques relatives à la conception, à la production et à la diffusion de manuels; d'autres enfin analysent le contenu des manuels, en touchant leurs aspects disciplinaires, didactiques et sociologiques.

**Semiotic Approaches in Science Didactics** Catherine Houdement, Cécile de Hosson, Christophe Hache, 2022-11-01 The sciences are, in essence, highly semiotized. Our ways of thinking and communicating about science are based on permanent transformations from one system of signs to another, such as scriptural, graphic, symbolic, oral and gestural signs. The semiotic focus studied in this book makes it possible to grasp part of the complexity of teaching and learning phenomena by focusing on the variety of possible interpretations of the signs that circulate within the science classroom. *Semiotic Approaches in Science Didactics* brings together contributions from didactic research involving various disciplines such as mathematics, chemistry, physics and geography, which mobilize different types of semiotic support. It offers the key to understanding and even reducing some of the misunderstandings that can arise between a speaker and a receiver in scientific teaching situations.

Manuel et anthologie de littérature belge à l'usage des classes terminales de l'enseignement secondaire Paul Aron, Françoise Chatelain, 2021-08-09 Enseigner la littérature belge de langue française dans l'enseignement secondaire est un objectif commun aux programmes de tous les réseaux. Mais pourquoi ? Et comment ? Telles sont les questions auxquelles répond ce manuel novateur destiné aux enseignants et aux élèves. Les auteurs n'ont pas voulu écrire une nouvelle histoire de cette littérature, ni composer un recueil de morceaux choisis. Ils proposent des séquences et des « situations-problèmes » concrètes permettant aux élèves de s'approprier du savoir littéraire. Ils rassemblent à cette fin des textes connus et moins connus, des références, des suggestions, bref un matériau volontairement diversifié décliné en de multiples séquences d'apprentissage. Chaque extrait peut, à son tour, susciter des travaux personnels, tant en compréhension qu'en production, et faire l'objet de comptes rendus, de débats, ou être le point de départ d'une recherche personnelle ou en groupe. À PROPOS DES AUTEURS Françoise Chatelain est licenciée en philologie romane (ULB) et prépare une thèse sur

l'enseignement de la littérature française en Belgique francophone. Elle est professeur de français dans l'enseignement secondaire depuis trente ans. Elle a publié *Durendal*, une revue catholique au tournant du siècle (Bruxelles, ARLLF, 1983), collaboré au *Dictionnaire des œuvres. Lettres françaises de Belgique* (Bruxelles, De Boeck, 1988 et suiv. ) et à l'*Anthologie du roman historique en Belgique francophone* (Bruxelles, Le Cri, 2008). Paul Aron est directeur de recherches au FNRS et professeur à l'Université libre de Bruxelles. Il est l'auteur de plusieurs ouvrages sur l'histoire de la littérature belge et collaborateur de la revue *Textyles*. Parmi ses publications dans le domaine belge, on citera : *La mémoire en jeu. Une histoire du théâtre de langue française en Belgique* (Bruxelles, La Lettre volée-Théâtre National de la Communauté française de Belgique, 1995) ; *La littérature prolétarienne en Belgique francophone depuis 1900* (Bruxelles, Labor, 2006) ; *Vérités et mensonges de la collaboration. Trois écrivains racontent « leur » guerre* (Raymond De Becker, Félicien Marceau, Robert Poulet) (avec Cécile Vanderpelen-Diagre - Bruxelles, Labor, 2006). Il a dirigé avec José Gotovitch le récent *Dictionnaire de la Seconde Guerre mondiale en Belgique* (Bruxelles, André Versaille éditeur, 2008).

**Chapitre 4 - La carte au cœur des apprentissages disciplinaires** Sophie GAUJAL,Caroline LEININGER-FRÉZAL,2022-04-01 La cartographie est au cœur des apprentissages en géographie. Son apprentissage est complexe et parfois réduit à des tâches de faible intensité intellectuelle. Ce chapitre interroge la manière dont les manuels scolaires se sont emparés de la nouvelle épreuve du baccalauréat (exercice de transposition d'un texte en croquis) pour initier les élèves au langage cartographique. Mots-clés : didactique, géographie, carte, croquis, sémiologie. DOI : 10.51926/ISTE.9070.ch4

J'enseigne l'égalité filles-garçons - 2e éd. Naïma Anka Idrissi,Fanny Gallot,Gaël Pasquier,2023-08-16 L'École compte parmi ses missions fondamentales celle de garantir l'égalité entre les filles et les garçons. La promotion de l'égalité repose sur la formation initiale et continue de l'ensemble des personnels et sur la prise en compte de celle-ci au cœur des enseignements et de la pratique pédagogique. La communauté éducative, notamment dans les INSPE, est ainsi formée à la déconstruction des préjugés et à la prévention du harcèlement et des violences sexistes et sexuelles. Mettre en œuvre des pratiques de classe égalitaires ? Prendre en compte l'enchevêtrement des discriminations ? Questionner les stéréotypes de sexe ? Diversifier les représentations ? Éduquer à la sexualité ? Travailler avec des supports originaux ? Tenir compte du genre dans les disciplines et les savoirs scolaires ? Découvrez 38 outils indispensables pour enseigner l'égalité filles-garçons. Chaque outil est présenté de façon visuelle sur 2 ou 4 pages : schéma de synthèse, résumé de l'outil, objectifs et contexte d'utilisation, méthodologie à suivre, avantages et précautions à prendre. Des exemples d'applications en classe renforcent la

pédagogie concrète du livre.

Learning to Read, Learning Religion Britta Juska-Bacher,Matthew Grenby,Tuija Laine,Wendelin Sroka,2023-01-06

Catechism primers are inconspicuous but telling little books for children combining the teaching of reading skills and religious catechesis. From the 16th to the 19th centuries, they have been produced, disseminated and used in huge numbers in many regions of the world, in particular in Europe. Remarkably, similar texts appeared across the continent, spanning confessional traditions that were in other respects highly divergent. In different places, and across the whole period, different denominations used not only similar pedagogical and religious strategies, but also shared the same formats and iconography. This volume, edited by scholars from Finland, Germany, Switzerland, and the United Kingdom, is the result of a collaborative transnational and interdisciplinary effort including education, language teaching, children's literature, book history, and religious studies. With contributions on seventeen European countries and regions, it sheds new light on a fascinating but largely neglected part of European cultural heritage, and, by establishing a comprehensive and authoritative summary of the field, offers fresh impetus for further transnational research.
