Captain Pete Peter S. Clarke,2018-01-15 Peter Silverlos Livingston was born before World War II and would be considered a traditionalist in today's jargon. There is an old saying, "You can take the kid out of Brooklyn but you can't take Brooklyn out of the kid". As a young kid growing up in Brooklyn, New York, Peter had the opportunity of being involved in many activities as a young boy. Brooklyn was the most populated of the five boroughs of New York City with over 3 million people of mostly European extraction including many other ethnic races from all over the world during World War II. New York City was and still is the biggest city in the country. There were more combat troops from Brooklyn than any other area in the country. Over three thousand died in World War II. The average age of those who fought and died in WWII was 26 years old. Believe It or not, the average age of those who fought and died in Vietnam was 19 years old. Also, Marine casualties in Viet Nam totaled over 13 thousand. The Viet Nam war was one of the longest U.S. conflicts to date totaling ten years from 1965 to 1975, but the U.S. had advisors there for a number of years even before 1965. Over 58,000 U.S. troops died in Viet Nam and some are still Missing In Action (MIA's) like the great track and field star Cliff Cushman. He was from the University of Kansas and was a silver medalist in the Olympics and a track buddy of Pete's. He flew an Air Force jet when he went missing. The Viet Nam Veterans Memorial wall in Washington D.C. is a long black slab marble wall dedicated to all the fallen warriors and those that served and fought in Viet Nam, including those who are still MIA. Each of the soldiers names are inscribed on it in chronological order based on the date they died and served. This honor has been bestowed on all these veterans who courageously fought in the Viet Nam war conflict as remembered by the United States which dedicated the building of this wall in their honor. The monument's importance and significance is a symbol for all peoples in the United States and future generations to remember the sacrifice these veterans undertook regarding this conflict.

Culture in Conflict Paula Holmes-Eber,2014-05-21 In response to the irregular warfare challenges facing the U.S. in Iraq and Afghanistan in 2005, General James Mattis—then commander of Marine Corps Combat Development Command—established a new Marine Corps cultural initiative. The goal was simple: teach Marines to interact successfully with the local population in areas of conflict. The implications, however, were anything but simple: transform an elite military culture founded on the principles of locate, close with, and destroy the enemy into a culturally savvy Marine Corps. *Culture in Conflict: Irregular Warfare, Culture Policy, and the Marine Corps* examines the conflicted trajectory of the Marine Corps' efforts to institute a radical culture policy into a military organization that is structured and trained to fight conventional wars. More importantly, however, it is a compelling book about America's shifting military identity in a new world of unconventional warfare.

The Vital Dead Alison Bell,Alison, Kay Bell,2022 This book builds on recent anthropological work to explore the social and cultural dynamics of cemetery practice and its transformation over generations in Virginia's Shenandoah Valley. Anthropologist Alison Bell finds that people are using material culture-images and epitaphs on grave markers, as well as objects they leave on graves-to assert and maintain relationships and fight against alienation. She draws on fieldwork, interviews, archival sources, and disciplinary insights to show how cemeteries both reveal and participate in the grassroots cultural work of crafting social connections, assessing the transcendental durability of the deceased person, and asserting particular cultural values. The book's chapters range across cemetery types, focusing on African American burials, grave sites of institutionalized individuals, and modern community memorials--

Kat and the Bone Tom Hoch,2015-10-30 Jim Snertzbaum is an easy target for his middle school classmates. With a

name like his and a short chubby physique, he might as well have the old 'kick me' sign taped to his back. Unlike most of the young people around him, Jim matures quickly in mind and body. He is motivated to improve himself by two things: A teacher who takes an interest in him and the new kid that moves to town. He is already a financial success by the time he enters his junior year. When Jim steps on the football field that fall, he is laughed at by many of his peers and even by one of the coaches. It doesn't take long for the new improved Jim Snertzbaum to turn the animosity into admiration. Even his harshest critics have to admit that Jim, and his best friend Kat, are two of the finest high school players in the state.

India's Futuristic Democracy - Threats of Constitutional Gaps and Digital Era PRAHALAD RAO, 2022-12-12 India is moving towards becoming an intelligent and industrious nation in the world but unmoving in its installing pillars, political stability and communal conflagration. Every citizen's welfare is the only way to make the nation great. A nation is built not by one Faith but by all the Faiths together as an integral part of the Nation. On 15th August 2022, we celebrated 75th Year of our Independence that looked decorative than democratic. Former is showmanship and latter is workmanship. Nation's wealth should make all the sectors healthy. The Constitution defines Constituents or Organs but not the Pillars or the making up the Gaps. The Gaps which our Constitution makers left open was to test the sensibility, prudence and wisdom of the generations to come. The Gaps have the strength to generate orderliness in the democracy. Their ignorance or indifference masked the working of democracy.
