Eighteenth-Century Naval Officers Evan Wilson, Anna Sara Hammar, Jakob Seerup, 2019-11-06 This book surveys the lives and careers of naval officers across Europe at the height of the age of sail. It traces the professionalization of naval officers by exploring their preparation for life at sea and the challenges they faced while in command. It also demonstrates the uniqueness of the maritime experience, as long voyages and isolation at sea cemented their bond with naval officers across Europe while separating them from landlubbers. It depicts, in a way no previous study has, the parameters of their shared experiences—both the similarities that crossed national boundaries and connected officers, and the differences that can only be seen from an international perspective.

Corruption, Anti-Corruption, Vigilance, and State Building from Early to Late Modern Times Ricard Torra-Prat, Joan Pubill-Brugués, Arndt Brendecke, 2024-08-14 Corruption, Anti-Corruption, Vigilance, and State Building from Early to Late Modern Times challenges current historiographical approaches, proposing new interpretations to rethink the relation between corruption and the socio-political and economic transformations since early globalisation. By adopting both transnational and long-term approaches, the book explores the historical dimension of notions such as accountability, transparency, and vigilance in their immediate political, social, and legal contexts. The starting point is to view corruption not as a moral category that emerged in 1789 to delegitimise past, foreign or present state systems, but as a constantly contested concept that must also be historicised in past societies. The collection revisits chronologies and examines different local, regional, and national frames, highlighting that the path to modernity was contested and affected by a variety of unique circumstances, such as revolutions and external political powers. Building on the latest research and offering new methods of inquiry, this book is a compelling resource for academics interested in political history and the history of corruption.

Chaplains of the King in the Colonial Philippines Alexandre Coello de la Rosa, 2025-07-06 The first of two volumes on the archbishops and cathedral chapters of seventeenth-century Manila, this book fills a historiographical gap by examining the diocesan clergy of the Philippines' political maneuverings. In particular, this volume studies the archbishops' unstable authority and ecclesiastical chapters' preeminence at this time. First, it emphasizes the need for a new paradigm of conflict-ridden Catholic evangelization—ius predicandi—that explores the interactions and engagements of the Church's legal agents, mainly priests, canons, and bishops, and brings their rivalries to the fore. Second, it draws attention to one of the most

neglected topics in Philippine ecclesiastical history, namely the metropolitan cathedral chapters, which, far from being monolithic units at the service of their archbishops, were too highly fragmented to constitute a single power holder. This volume's examination of these power dynamics makes it clear that history of the colonial Catholic Church cannot be separated from political history of the Philippines.

Heritage and the Sea Ana Crespo Solana, Filipe Castro, Nigel Nayling, 2022-03-15 This two-volume set highlights the importance of Iberian shipbuilding in the centuries of the so-called first globalization (15th to 18th), in confluence with an unprecedented extension of ocean navigation and seafaring and a greater demand for natural resources (especially timber), mostly oak (*Quercus spp.*) and Pine (*Pinus spp.*). The chapters are framed in a multidisciplinary and interdisciplinary line of research that integrates history, Geographic Information Sciences, underwater archaeology, dendrochronology and wood provenance techniques. This line of research was developed during the ForSEAdiscovery project, which had a great impact in the academic and scientific world and brought together experts from Europe and America. The volumes deliver a state-of-the-art review of the latest lines of research related to Iberian maritime history and archaeology and their developing interdisciplinary interaction with dendroarchaeology. This synthesis combines an analysis of historical sources, the systematic study of wreck-remains and material culture related to Iberian seafaring from the 15th to the 18th centuries, and the application of earth sciences, including dendrochronology. The set can be used as a manual or work guide for experts and students, and will also be an interesting read for non-experts interested in the subject. Volume 2 focuses on approaches to the study of shipwrecks including a synthesis of dendro-archaeological results, current interdisciplinary case studies and the specialist study of artillery and anchors.

Bad Christians and Hanging Toads Rochelle Rojas, 2025-03-15 Bad Christians and Hanging Toads tells riveting stories of witchcraft in everyday life in early modern Navarra. Belief in witchcraft not only emerged in moments of mass panic but was woven into the fabric of village life. Some villagers believed witches sickened crops and cows with poisonous powders, others thought they engaged in diabolism and perverted sex, and still others believed they lovingly raised toads used to commit evil deeds. Most villagers, however, simply saw witches as those with reputations of being mala cristianas—bad Christians. Rochelle Rojas illuminates the social webs of accusations and the pathways of village gossip that created the conditions for the witch beliefs and trials of the period. While studies of witchcraft in Spain tend to focus on the inquisitorial trials and witch panic of 1609-14, Bad Christians and Hanging Toads turns to witch trials conducted by the region's secular judiciary, Navarra's royal tribunals, tracing the prosecution of accused witches over 150 years. Using detailed evidence from trial records and neighbors' testimonies, Rojas vividly brings to life the women and men crafted as witches by their neighbors and the authorities and guides readers through the judicial process, from accusations and the examination of the evidence to sentencing and punishment. By privileging the voices of villagers throughout, Bad Christians and Hanging Toads

demonstrates that the inner logic of early modern European witchcraft trials can be understood only by examining of the local, everyday aspects of witch belief.

Emotions and Migration in Argentina at the Turn of the 20th Century María Bjerg,2021-10-07 Revealing the lives of migrant couples and transnational households, this book explores the dark side of the history of migration in Argentina during the late 19th and early 20th centuries. Using court records, censuses, personal correspondence and a series of case studies, María Bjerg offers a portrayal of the emotional dynamics of transnational marital bonds and intimate relationships stretched across continents. Using microhistories and case studies, this book shows how migration affected marital bonds with loneliness, betrayal, fear and frustration. Focusing primarily on the emotional lives of Italian and Spanish migrants, this book explores bigamy, infidelity, adultery, domestic violence and murder within official and unofficial unions. It reveals the complexities of obligation, financial hardship, sacrifice and distance that came with migration, and explores how shame, jealousy, vengeance and disobedience led to the breaking of marital ties. Against a backdrop of changing cultural contexts Bjerg examines the emotional languages and practices used by adulterous women against their offended husbands, to justify domestic violence and as a defence against homicide. Demonstrating how migration was a powerful catalyst of change in emotional lives and in evolving social standards, Emotions and Migration in Early Twentieth-century Argentina reveals intimate and disordered lives at a time when female obedience and male honour were not only paramount, but exacerbated by distance and displacement.

The United Kingdom and Spain in the Eighteenth Century Manuel-Reyes García Hurtado,2024-09-23 This book seeks to bridge a gap in the historiography of Spain and Great Britain by arguing that while the eighteenth century witnessed periods of tension, conflict and hostility between the two powers, their relationship remained multifaceted and significant in other spheres. Throughout the eighteenth century, Spain and Great Britain passed through phases of open warfare, armed peace and deep suspicion. The British capture of Gibraltar and Menorca dealt a severe blow to the newly established Bourbon dynasty in Spain. Even in times of war, however, not all communication channels were closed, with numerous formal and informal contacts being made despite the volatile political climate and enmities. The contributors of this book go beyond the well-known animosity and conflicts to explore the spectrum of interactions, encompassing cultural exchange, traditional diplomacy, trade and espionage plus a multitude of other facets. This book is a valuable resource for researchers and students interested in the complex relations between Great Britain and Spain during the eighteenth century, as well as for a broader audience of historians and both undergraduate and postgraduate students of history and international relations.

Elite Women in Early Modern Catholic Europe Cinzia Recca,Francisco Precioso Izquierdo,2025-02-13 Elite Women in Early Modern Catholic Europe offers a new look at early modern Catholic Europe through the lens of the diverse experiences of elite women, using a historiographical approach to analyze women's roles through changing political, social, and cultural

contexts. Through novel practices and broad social networks, distinguished women assumed prominent roles, from queens and princesses, to aristocrats and great nobles, to women of faith and religion. As the Counter-Reformation and the transition toward Enlightenment ideology swept France, Spain, and Italy, literacy and education became more accessible to upper-class women, who began to create new traditions in place of the old ways that were falling short. The case studies in this volume, ranging from the seventeenth to early nineteenth centuries, uncover the ways in which women were developing leadership skills and preserving status through participation in historical processes that affected real estate, the Church, and the social and family organization across Catholic Europe. This book is an ideal resource for students and researchers studying early modern women and Catholic Europe.

The Jesuits Michael Walsh, 2022-09-20 The Society of Jesus - the Jesuits - is the largest religious order in the Roman Catholic Church. Distinguished by their obedience and their loyalty to the Holy See, they have never, during nearly five hundred years' history, produced a pope until now: Pope Francis is the first Jesuit Pope. Michael Walsh tells the story of the Society through the stories and exploits of its members over five hundred years, from Ignatius of Loyola to Pope Francis himself. He explores the Jesuits' commitment to humanist philosophy, which over the centuries has set it at odds with the Vatican, as well as the hostility towards the Jesuits both on the part of Protestants and also Roman Catholics - a hostility which led one pope to attempt to suppress the Society worldwide towards the end of the eighteenth century. Drawing on the author's extensive inside knowledge, this narrative history traces the Society's founding and growth, its impact on Catholic education, its missions especially in the Far East and Latin America, its progressive theology, its clashes with the Vatican, and the emergence of Jorge Bergoglio, the first Jesuit to become Pope. Finally, it reflects on the Society's present character and contemporary challenges.

Imperial Inequalities Gurminder K. Bhambra, Julia McClure, 2022-11-29 Imperial Inequalities takes Western European empires and their legacies as the explicit starting point for discussion of issues of taxation and welfare. In doing so, it addresses the institutional and fiscal processes involved in modes of extraction, taxation, and the hierarchies of welfare distribution across Europe's global empires. The idea of 'imperial inequalities' provides a conceptual frame for thinking about the long-standing colonial histories that are responsible, at least in part, for the shape of present inequalities. This wide-ranging volume challenges existing historiographical accounts that present states and empires as separate categories. Instead, it views them as co-constitutive units by focusing upon the politics of economic governance across imperial spaces. Authors examine the fiscal innovations that enabled European empires to finance their expansion, the politics of redistribution that were important to constructing the veneer of legitimacy of taxation, and the fiscal mechanisms that were established to ensure that the imperial contours of inequality continued to define the postcolonial world. These diverse contributions provide new resources for how we think about issues of taxation and welfare across the longue durée. This

book is relevant to United Nations Sustainable Development Goal 10, Reduced inequalities

Spanish Warships in the Age of Sail, 1700-1860 Rif Winfield, John Tredrea, Enrique García-Torralba Pérez, Manuel Blasco Felip, 2023-05-30 "A beautiful work . . . certain to become the standard work in English on the Spanish sailing navy." —Seaways' Ships in Scale This book is the latest contribution to a unique series in a common format documenting in great detail the warships of the major naval powers during the age of sail. To date, four volumes have covered the British Navy, two have been devoted to the French Navy and one each to the Dutch and Russian Navies. This volume on the Spanish Navy, for much of its history the third largest in the world, fills the final gap in the ranks of the major maritime powers. This book is the first comprehensive listing of these ships in English and covers the development of all the naval vessels owned or deployed by Spain during the period of the Bourbon monarchy from 1700 to 1860 (including the period of French control during the Napoleonic Wars), but it also sets the scene for that period by summarizing the origins of Spanish naval development under the preceding Habsburg regime. As with previous volumes in the series, the main chapters list all the naval vessels from 1700 onwards (including those 16th-century ships which survived into the new regime in 1700) by type, with the first chapters listing the ships of the line (navíos in Spanish terminology) and frigates in descending order of firepower, and subsequent chapters covering minor and ancillary vessels. Where available, a brief service history of each individual ship is given. Its publication is of the utmost importance to every naval historian and general reader interested in the navies of the sailing era.

[From Ignatius to Francis](#) Michael Walsh, 2022-10-09 2023 Catholic Media Association Honorable Mention, History Pope Francis is the first member of the Society of Jesus, the Catholic Church's largest religious order of men, to be elected to the papacy in its nearly five-hundred-year existence, even though the Society is known for the special vow of obedience to the papacy taken by its leading members. Yet despite that oath of loyalty, Jesuits and popes have frequently been at loggerheads, eventually leading to one pope imprisoning the Jesuit superior general and entirely abolishing the Society. While recounting the more significant events in the history of the Jesuit order, this book pays particular attention to the controversies that have surrounded it, especially those concerning human freedom.

Con pase y de etiqueta Raquel Sánchez, David San Narciso, 2023-09-22 Las élites han estado en el centro de muchos de los debates de las últimas décadas y a ellas se alude constantemente; sin embargo, la discusión ha estado tradicionalmente constreñida a interpretaciones categóricas que han tendido a criticar la traición de la burguesía a la revolución en pro de su aristocratización. En un momento fundamental de desmantelamiento del Antiguo Régimen y construcción del Estado-nación liberal, este grupo situado en la cúspide social vivió un profundo y radical cambio en su propia naturaleza. Para complejizar este proceso histórico apelando a una interpretación cultural, se estudian una serie de espacios y prácticas de sociabilidad donde se negociaron las fronteras de definición del concepto mismo de élite. Se analizan, así, lugares tradicionales que

sufrieron, a lo largo del siglo XIX, una profunda reconfiguración. Es el caso de los salones, las tertulias, los museos, las academias o los teatros de ópera, pero también de una serie de espacios vinculados a nuevos valores burgueses que implicaron una redefinición de las prácticas y los valores elitistas, como sucedió, por ejemplo, con los balnearios, los casinos o los clubes deportivos. Con una perspectiva interdisciplinar, se estudian tanto la escasa sociabilidad institucionalizada de las élites como, particularmente, aquella otra informal en la que se produjo este complejo proceso de formación de una nueva clase dirigente nacida del encuentro entre la vieja aristocracia y la nueva burguesía.

Estudios sobre la corrupción en España y América (siglos XVI - XVIII) Francisco Gil Martínez, Amorina Villarreal
Brasca, 2017-12-05 La corrupción es uno de los temas que más interés y debate suscita en el panorama historiográfico, pero también uno de los más difíciles de aprehender por el historiador. Este libro es un intento colectivo de especialistas de diferentes ámbitos por abordar los numerosos problemas metodológicos que el tema plantea. El objetivo es abordar la corrupción en la Monarquía Hispánica desde una perspectiva que tenga en cuenta las facetas política, social y económica del fenómeno y que permita analizarlo partiendo de los conceptos y percepciones de los contemporáneos. Se integra además en una línea de trabajo que aboga por analizar de forma conjunta las similitudes y divergencias de los territorios peninsulares y americanos de la Monarquía.

Artesanos. Una historia social en España (siglos XVI-XIX) Francisco Hidalgo Fernández, José Antolín Nieto Sánchez, En «Artesanos. Una historia social en España (siglos XVI-XIX)» se integran un conjunto de contribuciones que tienen a los artesanos y las artesanas de la Edad Moderna y primera contemporaneidad como objeto de estudio. Reconociendo las nuevas perspectivas y aportaciones de la historia social y la historia del trabajo manufacturero, la obra tiene como objetivo reunir a un conjunto de especialistas en las diferentes líneas de investigación llevadas a cabo por la historiografía española de los últimos años sobre el artesanado. Es una puesta al día en la materia, pero también un punto de inicio de investigaciones que podrán desarrollarse al calor de las reflexiones, perspectivas, temáticas y conclusiones elaboradas a lo largo de estas páginas. Entre los temas desarrollados: nuevas categorías y retos conceptuales, mercados profesionales marcados por características propias de acuerdo con el espacio, pero también con cronologías particulares, el aprendizaje gremial, los movimientos migratorios, la participación de las mujeres en las actividades de producción, la conflictividad laboral o el corporativismo artesano en el XIX. En suma, la obra es un alto en el camino que nos permite debatir y pensar antes de continuar trabajando en un mundo laboral moderno repleto de aristas, contrariedades, estereotipos y tópicos todavía por superar.

Los arcanos de la memoria familiar Francisco Precioso Izquierdo, 2024-05-22

Vistiendo al rey. Indumentaria, artesanos y trayectorias sociales en la corte de los Austrias (1598-1700) Álvaro Romero González, Vistiendo al rey es una obra que no se centra en los grandes personajes históricos que han acaparado la atención

de la mayoría de las investigaciones. Sus protagonistas son los sastres, bordadores, zapateros y todos aquellos encargados de confeccionar el vestuario de los reyes hispánicos durante el siglo XVII. A partir de la Historia del Arte y de aplicar una metodología metapictórica junto con la Historia Social y la Historia de la Familia como perspectiva de investigación, el objetivo es profundizar en el conocimiento de un grupo escasamente conocido por la historiografía como eran los artesanos de la corte. Entre otros aspectos llamativos, se han estudiado desde el trabajo y las remuneraciones obtenidas por estos trabajadores del rey hasta dónde vivían, con quién y qué atesoraban en sus casas, para atender especialmente sus trayectorias vitales y familiares.

Identidades, segregación, vulnerabilidad. ¿Hacia la construcción de sociedades inclusivas? Un reto pluridisciplinar.
Sandra Olivero Guidobono,Alfredo José Martínez González,2021-12-22 Las identidades sociales de grupos étnicos, religiosos, de géneros, corporaciones, etc. se construyen y resignifican a lo largo de las trayectorias vitales de individuos, familias y redes relationales a través de la historia. Conceptos tales como raza, etnicidad, identidad están siendo analizados desde múltiples enfoques disciplinarios y con el uso de una diversidad de fuentes. La heterogeneidad étnica, cultural, social, económica, religiosa genera espacios de encuentros e integración, pero también espacios de conflicto, miedos y discriminación. Instituciones, sectores políticos, económicos y sociales generan fragmentación y un organigrama donde los diferentes grupos sociales deben ser ubicados para conservar un orden conveniente. Dicha fragmentación origina marginalidad, exclusión y reacciones discriminatorias de dominantes sobre oprimidos. Manifestaciones tales xenofobia y racismo se hallan presente a lo largo de la historia y es necesario desde los estudios académicos poner de manifiesto cómo se construyen las identidades sociales -individuales y colectivas- y se resignifican a medida que las sociedades cambian. Esas fronteras indefinidas generan la necesidad de establecer lindes, es decir conducen implícitamente a la discriminación, los comportamientos desigualdades y la exclusión.

LA REAL ARMADA Y EL MUNDO HISPÁNICO EN EL SIGLO XVIII GUIMERÁ RAVINA, Agustín ,CHALINE , Olivier ,2022-05-13 Tras la paz de Utrecht en 1713, la nueva dinastía de los Borbones se esforzó en recuperar el protagonismo español en la esfera internacional. En primer lugar, recuperó gran parte de sus posesiones italianas. Luego, desarrolló su marina de guerra -denominada la Real Armada- a partir de 1714, como arma disuasoria en su política exterior, sus navegaciones europeas y la defensa de su imperio americano y filipino. El esfuerzo que realizó la monarquía hispánica fue enorme y los resultados fueron muy positivos hasta comienzos de la década de 1790, convirtiéndose en la tercera potencia naval europea, después de Gran Bretaña y Francia.

Exploring Iberian Counterpoints in the Eighteenth- and Nineteenth-Century Pacific Rainer F. Buschmann,David Manzano Cosano,2024-04-01 Through a number of significant case studies, this volume examines changing Iberian dynamics in the Pacific, bridging the gaps between English and Spanish speaking scholarship to highlight understudied actors and debates in

the eighteenth and nineteenth centuries. The book shifts the predominant emphasis on Anglo-American studies and the historical neglect of Iberian endeavors in this ocean by focusing on several episodes that illuminate Spanish engagement in the Pacific. It describes Spain's treatment of this sea from its discovery to the end of the overseas empire in 1899, becoming the first book to place its analytical focus in the heart of the islands rather than the Pacific Rim. In tracing shifting Spanish positions and policies, the book cautions against making generalities about the distinct histories of Pacific islands and their Indigenous populations, uncovering a much more heterogeneous world than previous research may convey. Exploring Iberian Counterpoints in the Eighteenth and Nineteenth-Century Pacific is the perfect resource for students and researchers of the Iberian world, Hispanic studies, and the Pacific Ocean in early modern and modern eras.
