**1,600 Quotes & Pieces of Wisdom That Just Might Help You Out When You're Stuck in a Moment (and Can't Get Out of It!)** Gary P. Guthrie,2003-03 John Lennon said, Life is what happens to you while you're busy making other plans.

Sometime today while you're busy following your plan, something may happen that puts you in a funk or motivates you to make a change. Something that could leave you stuck in a moment. But, Marie Curie contended, Nothing in life is to be feared. It is only to be understood. When those moments sneak up on you, you can run to counseling, look yourself in the mirror, crawl over to your favorite self-pity corner or you can open *Stuck in a Moment* and find wisdom to help you understand and, possibly, turn your mood around. Precise in nature, *Stuck...* takes you straight to the heart of life's customary stumbling blocks: your relationships, your job life, your frame of mind and your desire to have the life you dream of. To some, it's an express self-help book; to others, a travel guide for their life. Whether you're following the 12 Steps, looking for an honest, encouraging companion or a fan of inspirational quotes, you'll find 1,600 opportunities to gain new insights in this book - a book of rationale and challenge that you will want to keep handy or gift to someone for those everyday moments.

**You Are a Frequency** Debbie Anne Sellwood, 2024-03-29 A transformation in human consciousness is taking place. And it's generating a growing interest in how subtle elements of the human constitution play a part in the maintenance of our health and wellbeing. *You Are a Frequency* introduces a new paradigm for health and healing based on the whole person, not the physical body on which traditional medicine focuses. In this book, Debbie Sellwood describes the human being's various

energy systems, indicating that everything - animal, vegetable and mineral - has its own unique vibration. She explains how these energy bodies influence our health and wellbeing, that the physical body is a medium for the consciousness of the energy bodies. You Are a Frequency explains that how we perceive and react to life events determine what experiences we attract into our lives, including health. Our reactions also impact the frequency of our vibrations, and by raising our vibrations, we become more empowered, able to take responsibility for ourselves. It is the author's belief that understanding ourselves as energetic beings will ultimately inspire a future health paradigm and lead to the transformation of the medical system. This book will appeal to the increasing number of people who are aware of a spiritual component to their existence, who want to understand who they really are, and their potential, at a more holistic level. The times in which we live are causing us to acknowledge that there is more to life, and to ourselves, than meets the eye - you are more than you think!

The Ripple Effect Normand Desmarais, 2010-10 To open minds, to make you aware, and make you think. To uncover the root causes of who is behind and why. When we see friends and relatives get sick and die too early in life.

You can find more about her work by visiting her website at [www.dianabocco.com](http://www.dianabocco.com). EXCERPT FROM THE BOOK *The Secret* is a self-help book about the power of positive thinking by Rhonda Byrne. The book is based on a pseudo-scientific theory called the law of attraction the principle that like attracts like. Specifically, Byrne focuses on the idea that your dreams do in fact come true thinking about money and wealth will attract these very things, causing them to manifest in your life. Likewise, fretting over a worst-case scenario will only cause your fears to be realized. Hence the importance of positive thinking. There are no accidents and bad luck. Instead Byrne writes, Your life right now is a reflection of your past thoughts. Throughout the book, Byrne intersperses quotes from proponents of the law of attraction, such as Jack Canfield, creator of the *Chicken Soup for the Soul* series. These experts believe the law to be supported by quantum physics, arguing that it is a law of nature like gravity. According to Byrne, the mind is a magnet, emitting and receiving frequencies to and from the Universe. Each thought sends out a signal, which in turn gathers similar frequencies due to the law of attraction before returning back to you. In this fashion, your mind can bring you anything you desire dream of a new house, and somehow, somehow, it will come to you. On the flip side, dwelling on war and poverty will only perpetuate these evils. Byrne even proposes that too much negative thinking can put you in the path of a natural disaster or terrorist attack. The rest of the book explores different methods of using the law of attraction to your advantage. The primary technique is ask, believe, receive. This process involves imagining what you desire and pretending that you already have it. For example, Byrne suggests filling out a fake check and pretending to buy all the things you've always wanted. Doing so, she says, will make you wealthy. Buy a copy to keep reading! You see a friend or a stranger, and they are suffering and perhaps you think, If only I could tell them the secret of what I know then they could be healed. Diana Lynn Rogers wrote this book for that very reason: She wants others to rediscover hope by coming to know the Lord in ways they have never imagined. The insights she shares from her amazing journey will help you develop a stronger bond with the Heavenly Father, find strength in the Lord to overcome setbacks and obstacles, keep your focus on God during troubling times, resist temptation from the devil. Throughout the book, Rogers shares lessons from her journey of self-discovery, one that included finding out that she was a twin torn from her family, suffering a debilitating accident, and losing a marriage. Join the author as she shares hard-won lessons and looks to Scripture and the Lord to find wisdom from her Days of Plunder. Diana has shared some of her most intimate and painful life experiences as she has come to know God in greater ways and become an overcomer in the midst of crisis. *Are You Being Told What to Believe?* Ruth Beebe, 2010-08 The past fifty years has seen a steady progression from Christianity through various alternate systems of belief, including the theory of evolution, UFOs, aliens, paganism, witchcraft, and belief in the presence of gods and goddesses. TV, movies, books, and even our educational system all seem determined to gain control of our thoughts and beliefs. Are you being told what to think? Are you being told what to believe? How important are our beliefs? Most of us don't really give a lot of thought to how our beliefs impact the world around us, or to what our beliefs really mean to us. *Are You Being Told What to Believe?* examines popular beliefs and demonstrates not only how all of these things are connected, but how your beliefs are being controlled. You must take charge of your mind, your thoughts, and your beliefs; if you don't, someone else will! Belief sets are almost as unique as the individual. So how important is this? Does it really matter what we believe? And could there be a greater effort underway to control your mind and thoughts? You decide!
