Quote the World Forevermore AYDI the Watcher , 2022-09-19 Why do I call myself AYDI the Watcher? That's a good question. I call myself that because I observe our world and the way we interact as humans. Years and years of these observations led me to read up on Psychology, politics and human relations. I listened to many prominent psychologists and therapists to hone my ideas, and the result is this book. Now, this is not a traditional book that delves into the subject matters mentioned above, but a collection of inspiring and thought-provoking quotes fleshed out with my thoughts and feelings, these thoughts and feelings touching on human psychology and behaviour. Some of these quotes were taken from my Facebook page, The Watcher (@AYDItheWatcher) and expanded upon and new ones were added to convey my thoughts on this world that we live in and how hierarchies and human structures affect our daily lives. My goal is to get people thinking and see different perspectives, and protect themselves from harm and manipulation. I hope this goal is achieved and your minds are unlocked. The freer the minds, the better the world.

The Adonis Complex Harrison Pope, Katharine A. Phillips, Roberto Olivardia, 2000 A HEALTH CRISIS THAT STRIKES MEN OF ALL AGES Trying everything from compulsive weight lifting to steroids, more and more boys and men are taking the quest for physical perfection beyond the bounds of normal behavior. The Adonis Complex -- the groundbreaking book that

first gave a name to this phenomenon and sparked nationwide interest in the subject -- identifies for the first time the symptoms and warning signs of this dangerous problem, including: An obsession with exercise, sometimes to the exclusion of all other activities Binge eating, anorexia nervosa, and bulimia The abuse of steroids, muscle-building supplements, and diet aids But perhaps more important, it offers readers an explanation of the underlying causes of the Adonis complex, together with hands-on advice for those who have experienced body obsessions themselves, or who see these problems in a boy or man they love.

A Cautionary Tale Hannah Brockway,2024-05-08 I was diagnosed with anorexia nervosa at the age of sixteen. When I had just turned eighteen, I was admitted to hospital for treatment. After nine weeks on a mental health ward I was discharged, but I was far from recovered. This is the tale of my continuing battle with Anorexia Nervosa, which has taken over half of my life so far. A Cautionary Tale is an incredibly vulnerable and insightful lived experience account of a non-binary late diagnosed Autistic's decades long battle with anorexia nervosa. It is also a scathing rebuke of mainstream anorexia nervosa treatment programs and the deep enduring harm that these can cause. It is a call to action for clinicians in this country to know and do better when supporting their clients with anorexia nervosa. I had the privilege to read an advanced copy of Hannah's book and would love to see this in as many hands as possible. Emma: Autistic ADHD clinician

Beauty, Women's Bodies and the Law Jocelynn A. Scutt,2020-11-17 What makes a woman's body beautiful? Plastic surgery, cosmetic surgery and non-surgical interventions such as Botox are changing women's bodies physically and affecting cultural notions and expectations of what it means to be a woman. Yet where does the law stand? Is the renovation of women's bodies legal? This book explores a range of topics, including: whether shape-changing by surgical and non-surgical means is 'really' what women want; the question of legal intervention when operations, injections and other methods go wrong; the impact of consent determinations on whether women can or cannot freely seek changes to their body structure; and the role which culture and social expectations play in women's decision-making. Taking a legal perspective on the vast range of 'beauty' interventions available to women, Scutt discusses women's perceptions of body and beauty, pressures on women to conform to 'idealised' notions of the perfect woman's body, and outcomes of legal actions including those taken by individual women who are unhappy with results, as well as those launched against companies trading in products advertised as safe and for women's benefit. *Beauty, Women's Bodies and the Law* will appeal to readers with an interest in women's and gender studies, law, and cultural studies.

The Secret Place of Thunder John Starke, 2023-02-21 Why do we feel like we are always performing? Where does this impulse come from? As John Starke shows in *The Secret Place of Thunder*, our modern world has internalized the idea that the markers of having an admirable and successful life are primarily visible. It leads us to believe that a sense of self-worth and identity are metrics to be displayed. The performance of the self has become more important than the reality. We live as if the most important things about us are to be performed before others; that our deepest happiness will come from being who others think we ought to be. But when Jesus says, Do not practice your righteousness before others, he is leading us to believe that the most important things about us are hidden. How does the Bible lead us to live primarily before God? How does Jesus lead us to wholeness? Jesus teaches us to live, not for the eyes of others or even for ourselves, but in the secret place where our Father in heaven sees and rewards.

Body Utopianism Franziska Bork Petersen, 2022-07-04 This book investigates how desires to transform our bodies can bring utopia to the present, and how utopian practices often lead to distinctly dystopian or anti-utopian outcomes. It is the first comprehensive study to address the paradoxical relationship between bodies and utopianism. Franziska Bork Petersen

discusses doping, bodybuilding and cosmetic surgery alongside practices such as retouching the 'body as image' on social media, and looks at how fashion modelling and performance 'estrangle' the body. Techniques and technologies to transform our bodies are increasingly accessible and suggest an excessive identification of the body as lacking. To 'be a body' in a culturally meaningful way, we incessantly improve our bodily appearance and capacity. The book therefore addresses the utopianism inherent in a cultural understanding of bodies as increasingly controllable.

Vampire Films Around the World James Aubrey, 2020-10-23 Vampires are arguably the most popular and most paradoxical of gothic monsters: life draining yet passionate, feared yet fascinating, dead yet immortal. Vampire content produces exquisitely suspenseful stories that, combined with motion picture filmmaking, reveal much about the cultures that enable vampire film production and the audiences they attract. This collection of essays is generously illustrated and ranges across sixteen cultures on five continents, including the films Let the Right One In, What We Do in the Shadows, Cronos, and We Are the Night, among many others. Distinctly different kinds of European vampires have originated in Ireland, Germany, Sweden, and Serbia. North American vampires are represented by films from Mexico, Canada, and the USA. Middle Eastern locations include Tangier, Morocco, and a fictional city in Iran. South Asia has produced Bollywood vampire films, and east Asian vampires are represented by films from Korea, China, and Japan. Some of the most recent vampire movies have come from Australia and New Zealand. These essays also look at vampire films through lenses of gender, post-colonialism, camp, and otherness as well as the evolution of the vampiric character in cinema worldwide, together constituting a mosaic of the cinematic undead.

Agewise Margaret Morganroth Gullette, 2013-10-21 Let's face it: almost everyone fears growing older. We worry about losing our looks, our health, our jobs, our self-esteem—and being supplanted in work and love by younger people. It feels like the natural, inevitable consequence of the passing years, But what if it's not? What if nearly everything that we think of as the “natural” process of aging is anything but? In *Agewise*, renowned cultural critic Margaret Morganroth Gullette reveals that much of what we dread about aging is actually the result of ageism—which we can, and should, battle as strongly as we do racism, sexism, and other forms of bigotry. Drawing on provocative and under-reported evidence from biomedicine, literature, economics, and personal stories, Gullette probes the ageism that drives discontent with our bodies, our selves, and our accomplishments—and makes us easy prey for marketers who want to sell us an illusory vision of youthful perfection. Even worse, rampant ageism causes society to discount, and at times completely discard, the wisdom and experience acquired by people over the course of adulthood. The costs—both collective and personal—of this culture of decline are almost incalculable, diminishing our workforce, robbing younger people of hope for a decent later life, and eroding the satisfactions and sense of productivity that should animate our later years. Once we open our eyes to the pervasiveness of ageism, however, we can begin to fight it—and Gullette lays out ambitious plans for the whole life course, from teaching

children anti-ageism to fortifying the social safety nets, and thus finally making possible the real pleasures and opportunities promised by the new longevity. A bracing, controversial call to arms, Agewise will surprise, enlighten, and, perhaps most important, bring hope to readers of all ages.
