**Rules for Writers with Writing about Literature (Tabbed Version) with 2016 MLA Update** Diana Hacker,Nancy Sommers,2016-07-25 THIS TITLE HAS BEEN UPDATED TO REFLECT THE 2016 MLA UPDATES! Our editorial team has updated this text based on content from The MLA Handbook, 8th Edition. Browse our catalog or contact your representative for a full listing of updated titles and packages, or to request a custom ISBN. When students routinely use their handbook in the course, they see its value, find that it's a faster way to get answers than search engines like Google, learn to rely on it as a reference, and are more likely to achieve the goals of the course. And when that handbook is Rules for Writers, you can be sure the advice they find is practical and reliable—with help for composing and revising, writing arguments, analyzing texts, using grammar and punctuation correctly, and working with sources. In revising the eighth edition, Nancy Sommers has woven a new emphasis on reading critically throughout the first section of the handbook, introduced advice for analyzing multimodal texts, and added help for public speaking. New practical Writing Guides support students working through college assignments in a variety of genres. And new peer review advice helps students effectively comment on drafts and apply feedback to revisions of their own work. All of these improvements help student writers—but they also save you time and effort. You can draw from Rules for Writers for planning class discussions, conducting in-class workshops, and providing feedback on student work that they can easily apply. Rules for Writers even comes with a complete instructor's manual, Teaching with Hacker Handbooks, with stepped-out lesson plans to customize and sample assignments, syllabi, and rubrics from your peers. This easy-to-navigate tabbed version of Rules for Writers includes an additional section with instruction on how to write about literature.

Rules for Writers succeeds because it has always been grounded in classroom experience. By looking at her own students' needs, Diana Hacker created an affordable and practical classroom tool that

doubles as a quick reference. Developed with the help of instructors from two- and four-year schools, the sixth edition gives students quick access to the information they need to solve writing problems in any college course. In the Hacker tradition, the new contributing authors — Nancy Sommers, Tom Jehn, Jane Rosenzweig, and Marcy Carbajal Van Horn — have crafted solutions for the writing problems of today's college students. Together they give us a new edition that provides more help with academic writing and research and one that works better for a wider range of multilingual students. Flexible content options — in print and online — allow students to get more than they pay for.
