Manly Palmer Hall. Secret Teachings of All Ages Manly Palmer Hall,2022 Renowned philosopher and lecturer Manly P. Hall's masterful encyclopedia of ancient symbols, hidden rituals, and arcane practices has remained a classic since first published in 1928. Hall's densely detailed writings explore topics ranging from Hermeticism to Tarot, Egyptian mythology to Pythagorean theory. Each chapter is accompanied by the vivid illustrations of artist J. Augustus Knapp, with additional images by Mihran Serailian found in the companion volume, each taking their own unique approach to nearly 60 artworks depicting occult subject matter. The initial concept for what became known as Hall's Great Book, first began in 1923 when the young Los Angeles-based orator began a months-long trip around the globe. Circumnavigating by ship, Hall visited Egypt, China and India, immersing himself in the philosophical and religious history of each country. Upon his return he spent the next seven years penning his massive compendium of philosophy and myth. Nearly a century after its release, this iconic masterwork has been reproduced for the first time from the rare and extravagant original edition. This meticulously-restored version of Hall's Great Book is also accompanied by an expansive companion book, featuring condensed summaries of each chapter of *The Secret Teachings*, alongside newly-discovered artworks, rare photography from Hall's archives as well as essays from journalists Mitch Horowitz and Jessica Hundley.

The Secret Teaching of All Ages Manly Hall, 2022-10-31

The Secret Teachings of All Ages Manly Palmer Hall, 2020-09-28 NUMEROUS volumes have been written as commentaries upon the secret systems of philosophy existing in the ancient world, but the ageless truths of life, like many of the earth's greatest thinkers, have usually been clothed in shabby garments. The present work is an attempt to supply a tome worthy of those seers and sages whose thoughts are the substance of its pages. To bring about this coalescence of Beauty and Truth has proved most costly, but I believe that the result will produce an effect upon the mind of the reader which will more than justify the expenditure. Work upon the text of this volume was begun the first day of January, 1926, and has continued almost uninterruptedly for over two years. The greater part of the research work, however, was carried on prior to the writing of the manuscript. The collection of reference material was begun in 1921, and three years later the plans for the book took definite form. For the sake of clarity, all footnotes were eliminated, the various quotations and references to other authors being embodied in the text in their logical order. The bibliography is appended primarily to assist those interested in

selecting for future study the most authoritative and important items dealing with philosophy and symbolism. To make readily accessible the abstruse information contained in the book, an elaborate topical cross index is included. I make no claim for either the infallibility or the originality of any statement herein contained. I have studied the fragmentary writings of the ancients sufficiently to realize that dogmatic utterances concerning their tenets are worse than foolhardy. Traditionalism is the curse of modern philosophy, particularly that of the European schools. While many of the statements contained in this treatise may appear at first wildly fantastic, I have sincerely endeavored to refrain from haphazard metaphysical speculation, presenting the material as far as possible in the spirit rather than the letter of the original authors. By assuming responsibility only for the mistakes which may appear herein, I hope to escape the accusation of plagiarism which has been directed against nearly every writer on the subject of mystical philosophy. Having no particularism of my own to promulgate, I have not attempted to twist the original writings to substantiate preconceived notions, nor have I distorted doctrines in any effort to reconcile the irreconcilable differences present in the various systems of religio-philosophic thought. The entire theory of the book is diametrically opposed to the modern method of thinking, for it is concerned with subjects openly ridiculed by the sophists of the twentieth century. Its true purpose is to introduce the mind of the reader to a hypothesis of living wholly beyond the pale of materialistic theology, philosophy, or science. The mass of abstruse material between its covers is not susceptible to perfect organization, but so far as possible related topics have been grouped together.
