The Complete Sagas of Icelanders: An epic. Champions and rogues. Tales of champions and adventures ,1997

The Sagas of the Icelanders Jane Smiley,2005-02-24 In Iceland, the age of the Vikings is also known as the Saga Age. A unique body of medieval literature, the Sagas rank with the world's great literary treasures - as epic as Homer, as deep in tragedy as Sophocles, as engagingly human as Shakespeare. Set around the turn of the last millennium, these stories depict with an astonishingly modern realism the lives and deeds of the Norse men and women who first settled in Iceland and of their descendants, who ventured farther west to Greenland and, ultimately, North America. Sailing as far from the archetypal heroic adventure as the long ships did from home, the Sagas are written with psychological intensity, peopled by characters with depth, and explore perennial human issues like love, hate, fate and freedom.

**Barbarians in the Sagas of Icelanders** William H. Norman,2021-07-29 This book explores accounts in the Sagas of Icelanders of encounters with foreign peoples, both abroad and in Iceland, who are portrayed according to stereotypes which vary depending on their origins. Notably, inhabitants of the places identified in the sagas as Írland, Skotland and Vínland are portrayed as being less civilized than the Icelanders themselves. This book explores the ways in which the Íslendingasögur emphasize this relative barbarity through descriptions of diet, material culture, style of warfare and character. These characteristics are discussed in relation to parallel descriptions of Icelandic characters and lifestyle within the Íslendingasögur, and also in the context of a tradition in contemporary European literature, which portrayed the Icelanders

themselves as barbaric. Comparisons are made with descriptions of barbarians in classical Roman texts, primarily Sallust, but also Caesar and Tacitus, showing striking similarities between Roman and Icelandic ideas about barbarians.

Anger in the Sagas of Icelanders George C. Manning, 2025-07-04 George C. Manning examines the presentation of anger in the *Íslendingasögur* ('Sagas of Icelanders') and associated *Íslendingaþættir* ('Tales of Icelanders'), a remarkable Old Norse-Icelandic corpus of texts written down in the thirteenth and fourteenth centuries that detail conflicts and feuds of Icelanders during the late-ninth, tenth, and early-eleventh centuries. It first shows how various unqualified involuntary somatic responses, facial expressions, and bodily movements frequently indicate angry experience in the sagas, before arguing that anger's mode of expression is contingent on a character's sociocultural identity. Through close analysis of how five groups of characters--men, women, elderly men, berserker (raging warriors), and sovereign figures--exhibit anger, the book demonstrates that these different character groups experience and express emotion in different ways, in accordance with strict social rules: they adhere to different 'emotive scripts', to use Sif Ríkharðsdóttir's term. Importantly, the book shows, through analysis of how these identities experience anger, that emotions institute and uphold gender configurations; its primary focus, therefore, is the nexus between anger and gender. Manning argues that anger is seen as a weakness for most male characters, while female characters, elderly men, berserker, and sovereign figures can exhibit anger without opprobrium and often use it to their advantage. It demonstrates how anger plays a key role in establishing (or resolving) narrative tensions in the sagas and deepens our understanding of the Old Norse-Icelandic terms that saga-authors use to communicate anger. The work--the first book-length investigation of anger in the Sagas of Icelanders--thus functions as a major intervention into the fields of both emotion and gender studies in medieval literature.
