Library: An Unquiet History Matthew Battles, 2011-02-07 Splendidly articulate, informative and provoking....A book to be savored and gone back to.—Baltimore Sun On the survival and destruction of knowledge, from Alexandria to the Internet. Through the ages, libraries have not only accumulated and preserved but also shaped, inspired, and obliterated knowledge. Matthew Battles, a rare books librarian and a gifted narrator, takes us on a spirited foray from Boston to Baghdad, from

classical scriptoria to medieval monasteries, from the Vatican to the British Library, from socialist reading rooms and rural home libraries to the Information Age. He explores how libraries are built and how they are destroyed, from the decay of the great Alexandrian library to scroll burnings in ancient China to the destruction of Aztec books by the Spanish—and in our own time, the burning of libraries in Europe and Bosnia. Encyclopedic in its breadth and novelistic in its telling, this volume will occupy a treasured place on the bookshelf next to Baker's *Double Fold*, Basbanes's *A Gentle Madness*, Manguel's *A History of Reading*, and Winchester's *The Professor and the Madman*.

The Library at Night Alberto Manguel, 2011-07-27 In the tradition of *A History of Reading*, this book is an account of Manguel's astonishment at the variety, beauty and persistence of our efforts to shape the world and our lives, most notably through something almost as old as reading itself: libraries. *The Library at Night* begins with the design and construction of Alberto Manguel's own library at his house in western France – a process that raises puzzling questions about his past and his reading habits, as well as broader ones about the nature of categories, catalogues, architecture and identity. Thematically organized and beautifully illustrated, this book considers libraries as treasure troves and architectural spaces; it looks on them as autobiographies of their owners and as statements of national identity. It examines small personal libraries and libraries that started as philanthropic ventures, and analyzes the unending promise – and defects – of virtual ones. It compares different methods of categorization (and what they imply) and libraries that have built up by chance as opposed to by conscious direction. In part this is because this is about the library at night, not during the day: this book takes in what happens after the lights go out, when the world is sleeping, when books become the rightful owners of the library and the reader is the interloper. Then all daytime order is upended: one book calls to another across the shelves, and new alliances are created across time and space. And so, as well as the best design for a reading room and the makeup of Robinson Crusoe's library, this book dwells on more nocturnal subjects: fictional libraries like those carried by Count Dracula and Frankenstein's monster; shadow libraries of lost and censored books; imaginary libraries of books not yet written. *The Library at Night* is a fascinating voyage through the mind of one of our most beloved men of letters. It is an invitation into his memory and vast knowledge of books and civilizations, and throughout – though mostly implicitly – it is also a passionate defence of literacy, of the unique pleasures of reading, of the importance of the book. As much as anything else, *The Library at Night* reminds us of what a library stands for: the possibility of illumination, of a better path for our society and for us as individuals. That hope too, at the close, is replaced by something that fits this personal and eclectic book even better: something more fragile, and evanescent than illumination, though just as important.

The Pataphysician's Library Ben Fisher, 2000-12-01 *The Pataphysician's Library* is a study of aspects of 1890s French literature, with specific reference to the traditions of Symbolism and Decadence. Its main focus is Alfred Jarry, who has proved, perhaps surprisingly, to be one of the more durable fin-de-siècle authors. The originality of this study lies in its use of

the enigmatic list of books termed the livres pairs, which appears in Jarry's 1898 novel *Gestes et Opinions du docteur Faustroll*, pataphysicien, his best-known prose work. The greatest interest of the livres pairs lies in a group of works by Jarry's friends and contemporaries, primarily Leon Bloy, Georges Darien, Gustave Kahn, Catulle Mendes, Josephin Madan, Rachilde, and Henri de Regnier. Several of these authors feature as the lords of islands visited by the pataphysician Dr Faustroll in his curious voyage around Paris. In conjunction with Jarry's own works, the contemporary livres pairs serve to illustrate the vibrant and experimental atmosphere in which these authors worked.

Witchcraft. The Library of Esoterica Jessica Hundley, Pam Grossman, 2021-11-03 A spellbinding journey through the global history of witchcraft, the third volume in *The Library of Esoterica* follows this magickal tradition from its ancient roots to its modern incarnations. Through more than 400 artworks, and revelatory essays and interviews with modern practitioners, *Witchcraft* chronicles a cathartic evolution, from the...

The Library Beneath the Streets Daniel Hale, 2018-04-19 There are stories that matter. There are stories that shape the world. There are writers who long to tell them. And there is a place where some, disillusioned and bereft, go to write them. But the *Library Beneath the Streets* will not allow just anyone to enter its doors, and those who do so unauthorized or with plagiarism in mind may find more than they expect. Come in, Reader, and wander the stacks, where many tales of imagination await you. Just be sure your Library card is up to date; you really won't like the penalties.

The National Electronic Library Gary Pitkin, 1996-06-30 The National Information Infrastructure will bring information to the doorstep of every household. Librarianship must respond to this development through the National Electronic Library. Librarianship as a profession must set the information agenda if it is to be a viable and influential entity in the electronic environment. Traditional library services are being redefined by technology, and the concept of the National Electronic Library must combine the roles of the academic institution, public enterprise, and library education. This professional reference is a guide to assist librarians in planning for the future. The volume maintains that the growing electronic environment is driving a cultural transformation in which libraries must examine and understand what libraries have been, what they are, and what they need to be. Libraries need to participate actively in this transformation in order to remain the central providers of information and related services. The book explores the National Electronic Library as a concept and formal organization. Library services, collections, and the physical facility are examined in terms of present and future needs based on the rapidly changing electronic environment, and the volume relates the future management of information to

administrative structures, constituencies, public and technical services, collection development, education, and strategic planning.

Together, they delve into the secrets of the Vault of Time, uncover hidden chambers, decode ancient texts, and confront the Shadow Council in a series of intense and dangerous battles. As they race against time, Eleanor and her allies uncover a final prophecy that foretells a great confrontation between light and darkness. Widener Matthew Battles, 2004 Since 1915, the Harry Elkins Widener Memorial Library has led a spirited life as Harvard's physical and, in a sense, its spiritual heart. With copious illustrations and wide-ranging narrative, this book is not only a record of benefactors and collections; it is the tale of the students, scholars, and staff who give a great library its life.

Border Conditions Kevin M. F. Platt, 2024-02-15 Border Conditions combines history and memory studies with literary and cultural studies to examine lives at the limits of contemporary Europe: Russian speakers living in Latvia. Since the fall of the USSR in 1991, Latvia's Russian speakers have balanced between Russia and Europe as well as a socialist past, a capitalist and liberal present, and an illiberal regime rising in the Russian Federation. Kevin M. F. Platt describes how members of this population have defined themselves through art, literature, cultural institutions, film, and music—and how others have sought to define them. At the end of the Cold War, many anticipated that societies globally could agree on the meaning of past history and a just politics in the present. The view from the borders of Europe demonstrates the contradictions pertaining to terms like empire, state socialism, liberalism, and nation that have made it impossible to achieve a consensus. In refocusing the examination of state socialism's aftermath around questions of empire and postcolonialism, Border Conditions helps us understand the distinctions between Russian and Western worldviews driving military confrontation to this day.
