Idir Laïbi, Salim Laïbi

Cancer, Panorama des solutions naturelles Florence Collins, 2024-09-13 Quelle est la meilleure hygiène de vie pour prévenir le cancer ? Et si j'ai un cancer, quelles sont les méthodes naturelles pour accompagner les traitements conventionnels et m'aider dans ma guérison ? Pour m'éviter une récurrence ? Pour limiter les effets indésirables des traitements ? Ou alors, comment puis-je aider un proche touché par le cancer ? Dédié à toute personne désireuse de prendre sa santé en main, ce recueil de citations est un concentré de conseils de bien-être donnés par des médecins, des naturopathes ainsi que par des auteurs de tout horizon. Sans aucune prétention d'exhaustivité, les citations sont présentées par ordre alphabétique comme un dictionnaire. Elles ont pour objectif de vous faire comprendre que le cancer n'est pas une fatalité; il se comprend, il se guérit et il peut - et d'ailleurs même il doit -, nous faire grandir. Alors, lisez, méditez et agissez selon ce que vous souffle votre cœur

Affamer le cancer Jane McLelland, Schwartz, 2023-11-28 Jane McLelland ne devrait pas être en vie. Selon les médecins et les statistiques sur le cancer, elle n'aurait dû vivre que 12 semaines environ. En s'appuyant sur ses connaissances médicales, elle a décidé de prendre les choses en main et de fouiller dans les journaux médicaux, se penchant sur des recherches oubliées depuis longtemps et des preuves négligées, à la recherche d'indices pour vaincre son cancer. Elle a découvert un chaînon manquant pour vaincre le cancer : l'affamer. Sur la base de ce concept, elle a mis au point son propre cocktail pour vaincre le cancer - en utilisant un régime alimentaire, des suppléments et des médicaments. Aujourd'hui, 18 ans plus tard, après avoir souffert d'un cancer du col de l'utérus, d'un cancer secondaire du poumon et d'une myélodysplasie liée au traitement, elle est en vie, en bonne santé et sans cancer ; Et elle s'est donnée pour mission d'aider d'autres malades du cancer à obtenir les mêmes résultats. Jane McLelland a travaillé pendant de nombreuses années comme kinésithérapeute, puis comme entrepreneure. Aujourd'hui, elle consacre son temps à aider les malades du cancer ; elle est suivie par des milliers de personnes sur son groupe Facebook : Jane McLelland Off Label Drugs for Cancer. Elle vit à Londres, avec son mari et ses fils.

Mikey's Journey pet hospice care Nik Rich, This book is a must have for any pet owner. Inside this book is all the info of what one has to do to properly care for their pet if the pet has terminal cancer or any other terminal illness. Inside this book are tons of the supplements and herbs listed that I used with Mikey to fight cancer, and support his body and brain

health. With that info the reader can do further research and choose which supplements will suit their pet the best. Nutrition is needed for the terminal ill pet, to be able to live as good as possible. If the pet has cancer or another illness, I have had 14 dogs in my hospice care over 22 years. I learned a lot, I'm sharing this info with you the reader, so you don't have to go through dog after dog to learn all those things, instead you just read this book and will have lots of info at your finger tips. Being a caretaker to your best furry family member is never easy, but with this information in the book, I'm hoping to help many people and their pets. From choosing better nutrition, to keeping our pets comfy and safe and most of all pain free and still able to live a quality life. This book also talks about how to reconnect with our loved ones after they leave this earth. The signs to look for. There's info on how to help ourselves combating the daily stress when we do hospice care, natural remedies for better sleep. Mikey wanted me to write this book as he himself was a hospice care taker of his previous owner, his Dad who died of colon cancer just one week after we took Mikey into our rescue. You can check us out at Www.sadt.info Sending our healing vibes to everyone that's going through a similar situation with their beloved pet.

Évitons 80% des maladies graves David Giquello, 2022-01-17 Ce livre présente les informations qui permettent d'éviter la grande majorité des maladies, et peuvent être suivies avec confiance, puisqu'elles proviennent de professionnels de la santé et de chercheurs scientifiques diplômés. C'est désormais 35 livres, dont 25 auteurs sont médecins, 7 sont des docteurs en science (PhD), et deux sont nutritionniste diététiciennes diplômées, exerçant en milieu hospitalier. J'ai ajouté un article sur l'état de santé au départ à la retraite, car il est assez mauvais, alors que c'est enfin le moment de la grande liberté dans la vie de millions de personnes. Contre les MCV j'ai ajouté le livre du Dr Caldwell qui prouve que les résultats positifs du régime méditerranéen peuvent être augmentés en supprimant les huiles, même l'huile d'olive. Il y a d'autres médecins qui sont arrivés à cette conclusion, et c'est ce que concluait aussi la grande étude de Chine. Contre le cancer j'ai ajouté un livre du Dr Servan-schreiber qui décrit les composantes du mode de vie adapté, mais surtout, aborde le problème de l'inflammation chronique qui précède l'apparition du cancer. J'ai aussi ajouté des études Européennes récentes qui montrent enfin les processus moléculaires à l'œuvre qui lient certains cancers avec la viande et la malbouffe, la science avance. Contre les démences j'ai ajouté le livre du Dr Bredesen et sa publication de 2014, avec son programme qui permet de prévenir Alzheimer, mais aussi les autres maladies de civilisation. Contre le diabète j'ai résumé le livre du Dr Fung, un néphrologue américain, plein de détails sur les méfaits de beaucoup d'aliments. Et contre la cinquième cause de mortalité, le suicide, j'ai ajouté le livre du Pr Joyeux, ainsi qu'un chapitre sur l'intérêt biochimique de la vitamine C contre la dépression.

Natural Literacy Doug Dix, 2008-02-27 Harold Shapiro, the former president of Princeton, ventured to say that theology had been divorced from the liberal. Professor Doug Dix's book is about arranging a remarriage. His analysis suggests the divorce goes deeper than Shapiro may have realized. Love has been divorced from learning because money has replaced truth as the object of affection. Now students learn to earn. Natural Literacy strives to motivate students and faculty to

instead learn to love. What do we truly want to know? Doug Dix proposes that readers discover authentic answers by repairing their motives and returning to their natural roots. His perspective is innovative and certain to be controversial.

Drug Delivery Technology Development in Canada Kishor M.Wasan,Ildiko Badea,2019-12-19 Canada continues to have a rich history of ground-breaking research in drug delivery within academic institutions, pharmaceutical industry and the biotechnology community. Over the past 30 years, numerous Canadian-based biotechnology companies have been formed from the inventions conceived and developed within academic institutions that have led to the development of important drug delivery products that have enhanced the landscape of drug therapy in the treatment of cancer to infectious diseases. This Special Issue serves to highlight and capture the contemporary progress of drug delivery within the prevailing Canadian context. We invite articles on all aspects of drug delivery sciences from pre-clinical formulation development to human clinical trials that bring to light the world-class research currently undertaken in Canada for this Special Issue.

New Insights on Vitamin C and Cancer Michael J. Gonzalez,Jorge R. Miranda-Massari,2014-09-18 Research on vitamin C and its effects on cancer is growing in popularity around the world as positive research continues to accumulate building a stronger case for its effectiveness. This concise SpringerBrief on Vitamin C and Cancer presents the latest findings on how vitamin C induces apoptosis. A high concentration of vitamin C allows for ascorbate to generate hydrogen peroxide in tissue that can selectively kill cancer cells. Research has confirmed that high-dose vitamin C is cytotoxic to a wide variety of cancer cell lines, and that it also boosts the anti-cancer activity of several common chemotherapy drugs. Vitamin C also does more than just kill cancer cells. It boosts immunity by stimulating collagen formation to help the body wall off the tumor. It inhibits hyaluronidase, an enzyme that tumors use to metastasize and invade other organs throughout the body. This concise and up-to-date Brief is geared towards cancer researchers and scientists, as well as physicians interested in the basic science and the translational potential of vitamin C in cancer therapeutics.

Cumulated Index Medicus ,1990

Vitamin C and Cancer Evelleen Richards,1991-06-18 A study of the development and rejection of vitamin C as a treatment for cancer, this text also explores the evaluation process of such a contentious treatment. Based on social,

economic and financial considerations, it sees these decisions as political rather than objective assessments.

Les secrets de santé d'une sorcière 2.0 Elisabeth Couffignal, 2021-07-23 Savez-vous que l'on peut soulager, voire guérir une sciatique grâce à une technique simple à base d'eau de mer, issue des travaux de René Quinton ? Que l'on peut vider sa vésicule biliaire régulièrement grâce à une méthode déjà pratiquée du temps des Égyptiens ? Que l'on peut développer nos enzymes de rajeunissement en suivant la méthode du docteur Shinya ? En parallèle, et non en opposition, avec la médecine occidentale « classique », les sorcières 2.0 ont beaucoup de solutions à indiquer et de pistes à proposer. Vous serez stupéfait de la richesse, du sérieux et de la solidité de ces solutions et de ces pistes dont vous aurez un aperçu en consultant la table des matières. Ici, « sorcellerie » rime avec « science » ! Mais qui sont ces sorcières 2.0 ? C'est ce que vous découvrirez en lisant ce livre qui pourrait changer votre vie ! Et si ces sorcières étaient en réalité des fées ?

The Cancer War Herbert Leon Newbold, 1979-01-01

Cancer and Vitamin C Ewan Cameron, Linus Pauling, 1993 Looks at vitamin C's value in cancer prevention and treatment.

Homemade Liposomal Vitamin C Cherry White, 2020-03-21 Homemade Liposomal Vitamin C Taking a liposomal form of vitamin C is much more effective and efficient than traditional methods of vitamin C supplements in terms of absorption. Vitamin C is a potent antioxidant that can counteract and neutralize the oxidative stress caused by reperfusion when delivered intravenously. Intravenous vitamin C can be used in high doses to fight cancer in tandem with traditional chemotherapy. It may not eradicate cancer on its own, but it improves the quality of life, increasing energy and mood for many cancer patients. The benefits of liposomal vitamin C cannot be overemphasized. This guide will walk you through the entire process of preparing a highly nutritional vitamin C using readily available and affordable ingredients. CLICK ON BUY

Vitamin C Against Cancer H. L. Newbold, 1981 Presents, with the assistance of four Nobel laureates, the evidence in support of the use of vitamin C as treatment for and preventive against cancer

Vitamin C in Human Health and Disease Wang Jae Lee, 2019-08-06 This book presents the scientific evidence for the role of vitamin C in health and disease and offers new guidance on vitamin C intake in humans. The importance of vitamin C in preventing cancer and cardiovascular disease, its relevance to aging and stress, and its impacts on each of the human body systems are thoroughly assessed on the basis of the author's extensive research and his deep understanding, as an anatomy professor, of the body as a whole. Findings published in the international scientific literature are fully taken into account, and due consideration is also given to empirical evidence, bearing in mind that mechanisms of action cannot always be precisely defined in the absence of human experiments. Beyond providing an up-to-date scientific perspective on the effects of vitamin C, the author hopes to promote human health worldwide by encouraging proper use of the vitamin. To this end, recommendations are made on the amount of vitamin C that should be taken daily and on the best way to take it. The book will be of interest to researchers, clinicians, and all others who wish to learn more about this vitamin and its significance.
