Architecture History and Theory in Reverse Jassen Callender, 2017-07-28 This book looks at architecture history in reverse, in order to follow chains of precedents back through time to see how ideas alter the course of civilization in general and the discipline of architecture in particular. Part I begins with present-day attitudes about architecture and traces them back to seminal ideas from the beginning of the twentieth century. Part II examines how pre-twentieth-century societies designed and understood architecture, how they strove to create communal physical languages, and how their disagreements set the stage for our information age practices. *Architecture History and Theory in Reverse* includes 45 black-and-white images and will be useful to students of architecture and literature.

Fiction Beyond Secularism Justin Neuman, 2014-07-31 Modernist thinkers once presumed a progressive secularity, with the novel replacing religious texts as society's moral epics. Yet religion—beginning with the Iranian revolution of 1979, through the collapse of communism, and culminating in the singular rupture of September 11, 2001—has not retreated quietly out of sight. In *Fiction Beyond Secularism*, Justin Neuman argues that contemporary novelists who are most commonly identified as antireligious—among them Orhan Pamuk, Salman Rushdie, Ian McEwan, Margaret Atwood, Nadine Gordimer, Haruki Murakami, and J. M. Coetzee—have defied assumptions and have instead written some of the most trenchant critiques of secular ideologies, as well as the most exciting and rigorous inquiries into the legacies of the religious imagination. As a result, many readers (or nonreaders) on either side of the religious divide neglect the insights of works like *The Satanic Verses*, *Disgrace*, and *Snow*. *Fiction Beyond Secularism* serves as a timely corrective.

The Cycle Shalene Gupta, 2024-02-27 A groundbreaking exploration of a debilitating disorder that's underdiagnosed and misunderstood. Most days, Shalene Gupta was the person she'd always aspired to be. She was hardworking, excelled at work, and had a long-term boyfriend who she desperately loved. Then, every month like clockwork, it all came crashing down in fits of rage and inconsolable sorrow. Work became meaningless, and she struggled to get through the day. The lows were subterranean. After years of struggling to get an answer from doctors, Shalene learned she was one of millions who live with premenstrual dysphoric disorder (PMDD), a severe form of PMS. The physical and mental effects of this disorder are

undeniable, but for decades some doctors didn't even consider PMDD a real condition. How could so many people be suffering at the hands of a chronic condition that doesn't even exist? The Cycle uncovers a hidden epidemic, delivering the definitive portrait of a widespread chronic illness most people haven't even heard of. From a historical overview of feminist debates, to on-the-ground interviews and a searing critique of menstrual stigma, Shalene Gupta lays out how disregard for this disorder has left too many people scrambling for appropriate healthcare. Deeply researched, movingly intimate, and refreshingly hopeful, this book is essential reading for any curious reader, especially those navigating a world ill-equipped to support their health.

Psychoanalysis for Intersectional Humanity Ricardo Espinoza Lolas, 2023-09-29 Psychoanalysis for Intersectional Humanity considers both the vast realm of sexual diversities emerging under capitalism and outlines what a psychoanalytic clinic that considers these diversities should be like. Ricardo Espinoza Lolas explores these themes hand in hand with the Marquis de Sade, exploring the monstrous side of our existence – not as a negative aspect of humanity, but as a part of us that strives for a freer and more inclusive life. Espinoza Lolas explores aspects of psychoanalysis, feminism, critical theory, philosophy, history, politics and the arts in considering how human determination can be torn from ego and neurosis. The book concludes with a disarticulation of the categories of neurosis, psychosis and perversion of psychoanalysis and the suggestion of a new clinic and a new politics. Psychoanalysis for Intersectional Humanity will be of great interest to psychoanalysts in practice and in training, Lacanian clinicians and scholars of psychoanalytic studies, philosophy and critical theory.

The Delicate Art of Bureaucracy Mark Schwartz Mark Schwartz, 2020-10-13 Mark Schwartz, author of leadership classics *A Seat at the Table* and *The Art of Business Value*, reveals a new (empowering) model for the often soul-shattering, frustrating, Kafkaesque nightmare we call bureaucracy. Through humor, a healthy dose of history and philosophy, and real-life examples from his days as a government bureaucrat, Schwartz shows IT leaders (and the whole of business) how to master the ways of the Monkey, the Razor, and the Sumo Wrestler to create a lean, learning, and enabling bureaucracy. For anyone frustrated by roadblocks, irritated the business can't move fast enough, or suffering under the weight of crushing procedures, this book is for you. No matter your role, you need a playbook for bureaucracy. This is it. With this playbook, you can wield bureaucracy as a superpower and bust through it at the same time

Cyber Defence in the Age of AI, Smart Societies and Augmented Humanity Hamid Jahankhani, Stefan Kendzierskyj, Nishan Chelvachandran, Jaime Ibarra, 2020-04-06 This publication highlights the fast-moving technological advancement and infiltration of Artificial Intelligence into society. Concepts of evolution of society through interconnectivity are explored, together with how the fusion of human and technological interaction leading to Augmented Humanity is fast becoming more than just an endemic phase, but a cultural phase shift to digital societies. It aims to balance both the positive progressive outlooks such developments bring with potential issues that may stem from innovation of this kind, such as the invasive procedures of bio hacking or ethical connotations concerning the usage of digital twins. This publication will also give the reader a good level of understanding on fundamental cyber defence principles, interactions with Critical National Infrastructure (CNI) and the Command, Control, Communications and Intelligence (C3I) decision-making framework. A detailed view of the cyber-attack landscape will be garnered; touching on the tactics, techniques and procedures used, red and blue teaming initiatives, cyber resilience and the protection of larger scale systems. The integration of AI, smart societies, the human-centric approach and Augmented Humanity is discernible in the exponential growth, collection and use of [big] data; concepts woven throughout the diversity of topics covered in this publication; which also discusses the privacy and transparency of data ownership, and the potential dangers of exploitation through social media. As humans are become ever more interconnected, with the prolificacy of smart wearable devices and wearable body area networks, the availability of and abundance of user data and metadata derived from individuals has grown exponentially. The notion of data ownership, privacy and situational awareness are now at the forefront in this new age.

The Return of Ethics and Spirituality in Global Development Mahmoud Masaeli, Rico Sneller, 2020-06-02 The theory of modernization basically reduces the meaning of development to economic growth often measured by Growth Domestic Product of the country or overall purchase power parity of the nation. This approach ignores the variety of perspectives on development, hence excludes the role of culture, identity, and spirituality as social determinants of good development. More importantly, modernization theory which informs the mainstream view on development ignores the structural causes of underdevelopment, including colonial heritage or the current unbridled capitalism in many societies. Against reductionist views of development, fundamental questions are raised about the theory and programming of development. From what

perspective is the conception of development perceived? Who should decide and depict development goals? What kind of development could result in desirable changes? Is it morally desirable to dictate an exclusively Western understanding of development to others? Is there any link between development and a right of nations to self-determination? Who is morally accountable for global inequality or 'bad development'? The novelty of this book lies in its multidisciplinary approach in exploring the role of ethics and spirituality as the curing alternates for the gamut of ills which originate in global inequality. All authors are academics based in a variety of countries and specialize in questions concerning development and spirituality.

Revisioning Beckett S. E. Gontarski, 2018-05-31 Revisioning Beckett reassesses Beckett's career and literary output, particularly his engagement with what might be called decadent modernism. Gontarski approaches Beckett from multiple viewpoints: from his running afoul of the Irish Censorship of Publications Acts in the 1930s through the 1950s, his preoccupations to "find literature in the pornography, or beneath the pornography," his battles with the Lord Chamberlain in the mid-1950s over London stagings of his first two plays, and his close professional and personal associations with publishers who celebrated the work of the demimonde. Much of that term encompasses an opening to the fullness of human experience denied in previous centuries, and much of that has been sexual or decadent. As Gontarski shows, the aesthetics that emerges from such early career encounters and associations continues to inform Beckett's work and develops into experimental modes that upend literary models and middle-class values, an aesthetics that, furthermore, has inspired any number of visual artists to re-vision Beckett.

A History of Victims of Crime Stephen Strauss-Walsh, 2023-05-19 This book examines the evolution of the contemporary crime victim's procedural place within modern Western societies. Taking the history of the Irish crime victim as a case study, the work charts the place of victims within criminal justice over time. This evolves from the expansive latitude that they had during the eighteenth century, to their major relegation to witness and informer in the nineteenth, and back to a more contemporary recapturing of some of their previous centrality. The book also studies what this has meant for the position of suspects and offenders as well as the population more generally. Therefore, some analysis is devoted to examining its impact on an offender's right to fair trial and social forms. It is held that the modern crime victim has transcended its position of marginality. This happened not only in law, but as the consequence of the victim's new role as a key sociopolitical stakeholder. This work flags the importance of victim rights conferrals, and the social transformations that engendered such trends. In this way victim re-emergence is evidenced as being not just a legal change, but a consequence of several more recent sociocultural transformations in our societies. The book will be of interest to researchers, academics, and policy makers in criminal law, human rights law, criminology, and legal history.

Performing Ethics Through Film Style Edward Lamberti, 2019-11-06 Proposing a relationship between Levinasian ethics and film style, and bringing it into a productive dialogue with theories of performativity, this book explores this

influence through three directorial bodies of work: those of Barbet Schroeder, Paul Schrader and the Dardenne Brothers.

Progressive Violence Michael Blain, Angeline Kearns-Blain, 2018-06-12 This book examines the role of collective violence in the achievement of solidarity, shedding light on the difficulty faced by sociology in theorizing violence and warfare as a result of the discipline's tendency to idealize society in an attempt to legitimize the idea of progressive social change. Using the global War on Terror as a focal point, the authors develop this argument through the related issues of power, knowledge, and ethics, explaining the War on Terror in terms of the Anglo-American tradition of imperial power and domination. Exploring the victimage rituals through which society is brought together in the ritual domination and destruction of a constructed villain, *Progressive Violence: Theorizing the War on Terror* also considers the price of the liberal moral values in terms of which the global war on terror is frequently justified, and the volume of progressive violence involved in advancing the cause of freedom. The authors use this case to theorize the general role of vicarious victimage ritual in the social genesis of political violence and sadism, and its calculated use by politicians to achieve their imperial aims. As such, it will appeal to scholars of sociology and social theory with interests in terrorism, violence, and geopolitics.

Troubled Everyday Alison Taylor, 2017-04-28 Extreme violence in contemporary European art cinema is generally interpreted for its affective potential, but what about the significance of the everyday that so often frames and forms the majority of these films? Why do the sudden moments of violence that punctuate films like Catherine Breillat's *Fat Girl* (2001), Gaspar Noe's *Irreversible* (2002) and Markus Schleizer's *Michael* (2011) seem so reliant on everyday routines and settings for their impact? Addressing these questions through a series of case-studies, and considering notorious films in their historical and philosophical context, *Troubled Everyday* offers the first detailed examination of the relationship between violence and the everyday in European art cinema. It calls for a re-evaluation of what gives these films such affective force, and such a prolonged grip on our imagination.

Angela Carter and Surrealism Anna Watz, 2016-07-15 In 1972, Angela Carter translated Xavière Gauthier's groundbreaking feminist critique of the surrealist movement, *Surréalisme et sexualité* (1971). Although the translation was never published, the project at once confirmed and consolidated Carter's previous interest in surrealism, representation, gender and desire and aided her formulation of a new surrealist-feminist aesthetic. Carter's sustained engagement with surrealist aesthetics and politics as well as surrealist scholarship aptly demonstrates what is at stake for feminism at the intersection of avant-garde aesthetics and the representation of women and female desire. Drawing on previously unexplored archival material, such as typescripts, journals, and letters, Anna Watz's study is the first to trace the full extent to which Carter's writing was influenced by the surrealist movement and its critical heritage. Watz's book is an important contribution to scholarship on Angela Carter as well as to contemporary feminist debates on surrealism, and will appeal to scholars across

the fields of contemporary British fiction, feminism, and literary and visual surrealism.

Disintegration: Bad Love, Collective Suicide, and the Idols of Imperial Twilight Mark P. Worrell, 2020-02-17 Together again for the first time, Marx and Durkheim join forces in the pages of *Disintegration: Bad Love, Collective Suicide, and the Idols of Imperial Twilight* for a dialectical exploration of the moral economy of neoliberalism, animated, as it is not only by the capitalist chase for surplus value, but also by an immortal vortex of sacred powers. Classical sociology and psychoanalysis are reconstituted within Hegelian social ontology and dialectical method that differentiates between the ephemeral and free and the eternal and fixed aspects of modern life.

The Little Database Daniel Scott Snelson, 2025-06-24 A poetics for reading the everyday objects that populate a hard drive Bespoke online archives like PennSound and Eclipse host an astounding array of “old media” artifacts, posing a handcrafted counterpoint to the immense databases aggregated by digital titans like Google and Facebook. In *The Little Database*, Daniel Scott Snelson argues for the significance of these comparatively “small” collections, exploring how digital archives dramatically transform the artifacts they host and how they might help us better understand our own private collections in turn. Examining curated collections such as Textz, UbuWeb, and the Electronic Poetry Center, Snelson explores media-specific works by poets and artists, including William Carlos Williams, Tracie Morris, Bill Bissett, Nam June Paik, and Vicki Bennett. He develops creative tools and contingent methods for reading cultural data, whether found on the internet or in our own collections of TXT, JPG, MP3, and MOV artifacts, presenting case studies to show how these objects have come to find revised meaning in their digital contexts. Along the way, experimental poetic interludes give readers practical entry points into the creative practice of producing new meanings in any given little database. Inventive and interdisciplinary, *The Little Database* grapples with the digitized afterlives of cultural objects, showing how the past is continually reconfigured to shape the present. It invites readers to find playful and personal means for unpacking their own data collections, in the process discovering idiosyncratic ways to explore and connect with digital archives. Book of the Banned Simon Mirauda, 2023-08-01 BLASPHEMY AND HORROR! SAUCY SWEDES! LUKE SKYWALKER'S CHARRED AUNT & UNCLE! Australia has censored it all. Did you know Aussie audiences were originally banned from watching bona fide classics *The Night of the Hunter*, *Breathless* and *The Texas Chain Saw Massacre* (to name just a few out of literal hundreds), or that Australians initially saw a watered-down version of *Star Wars* in cinemas? *Book of the Banned* is a rigorous, rollicking, riotous and righteously-furious jaunt through film history that reveals the shocking stories behind Australia's classification system and how your favourite movies have been snipped down under, featuring interviews with Margaret Pomeranz, David Stratton, a bunch of 'banned' filmmakers and even their censors. Like any good story, there are heroes, anti-heroes, unexpected criminals and downright dastardly villains, though they're not always whom you'd expect. But by discussing the movies, scenes and lines of dialogue deemed too extreme for Aussie eyes and ears, we can see how far we've come in Australia... and how far we have to go. 'A uniquely Australian ride into the dark side of film censorship, pearl-clutching outrages and moral panics, Simon Mirauda's *Book of the Banned* is an essential book for film fans, cinema scholars and card-carrying perverts alike.' —Alexandra Heller-Nicholas, author *1000 Women in Horror* 'This book is f***ing great. And if they put asterisks in this quote, the censors will have won again. Impeccably researched and superbly written, *Book of the Banned* is an endlessly riveting slice of film history that demands to be read.' —Chris Taylor, *The Chaser & Upright* 'Mirauda masterfully guides us through the tangled and surprisingly fascinating history of Australian censorship and takes us on a wild journey through the rule-breaking films that tested those boundaries. Anchored by a detailed account of film history and censorship policy plus interviews with leading researchers and cinephiles, *Book of the Banned* is both a lively love-letter to controversial and challenging films and a call for our censorship practices to be reviewed.' —Flick Ford, *Triple R's Primal Screen* "Important, because it pulls together the exhaustive record of snipped and smothered films, lying in the wake of decisions by Australian authorities." —John Safran
