South Africa and the Global Game Peter Alegi, Chris Bolsmann, 2013-10-18 Firmly situating South African teams, players, and associations in the international framework in which they have to compete, *South Africa and the Global Game: Football, Apartheid, and Beyond* presents an interdisciplinary analysis of how and why South Africa underwent a remarkable transformation from a pariah in world sport to the first African host of a World Cup in 2010. Written by an eminent team of scholars, this special issue and book aims to examine the importance of football in South African society, revealing how the black oppression transformed a colonial game into a force for political, cultural and social liberation. It explores how the hosting of the 2010 World Cup aims to enhance the prestige of the post-apartheid nation, to generate economic growth and stimulate Pan-African pride. Among the themes dealt with are race and racism, class and gender dynamics, social identities, mass media and culture, and globalization. This collection of original and insightful essays will appeal to specialists in African Studies, Cultural Studies, and Sport Studies, as well as to non-specialist readers seeking to inform themselves ahead of the 2010 World Cup. This book was published as a special issue of *Soccer and Society*.

A History of South Africa Leonard Thompson, 2014-04-29 A magisterial history of South Africa, from the earliest known human inhabitation of the region to the present. Lynn Berat updates this classic text with a new chapter chronicling the first presidential term of Mbeki and ending with the celebrations of the centenary of South Africa's ruling African National Congress in January 2012. "A history that is both accurate and authentic, written in a delightful literary style."—Archbishop Desmond Tutu "Should become the standard general text for South African history. . . . Recommended for college classes and anyone interested in obtaining a historical framework in which to place events occurring in South Africa today."—Roger B. Beck, *History: Reviews of New Books*

Business and Governance in South Africa T. Börzel,C. Thauer,2013-06-03 The authors identify conditions under which firms seek higher rather than lower regulation in a context of weak regulatory capacities by engaging in self-regulation or partnering up with the government and/or NGOs. They analyse how firms in the automotive, food, textile, and mining sectors fight environmental pollution and HIV/AIDS.

Childhood Vulnerabilities in South Africa Jan Grobbelaar,Chris Jones,2021-01-26 This book addresses different challenges that endanger the lives of children in South Africa from an ethical perspective. The text is meant to position itself as a resource for specialists (and practitioners) in ethics and childhood studies. The content is systematically and intersectionally presented, based on scholarly analyses, insights, reasoning, and expertise – originating in different disciplines and backgrounds. It endeavours to help especially those who study the sociocultural contexts of children and families in terms of challenges and opportunities, and for possible support.

Information Services for a Sustainable Society Madeleine C. Fombad,Collence Takaingenhamo Chisita,Omwoyo Bosire Onyancha,Mabel K. Minishi-Majanja,2023-07-24 The publication seeks to establish how information professionals are providing information services in a sustainable society in an era of information disorder. It also provides the strategic direction to strengthen the global voice of libraries, inspiring and enhancing professional practice as well as enhancing international cooperation and collaboration among LIS educators and practitioners. The contents is divided according to the following key sub-themes that resonate with the title as outlined below: Library and information services in the information age Data and records in an era of information disorder Archives, data curation and preservation in the digital era Data science, analytics and visualization Information ethics in the digital era Information deluge in the digital era Information and knowledge management Fourth Industrial revolution The highlighted themes explore critical issues relating to how libraries, archives and related institutions are responding to the seismic shifts in the information landscape amidst a myriad of challenges and opportunities. The sub-themes bring together a tapestry of articles that explore the status, experiences and future prospects of the dynamic library and information science practice.

Hunger and Poverty in South Africa Jacqueline Hanoman,2017-09-01 *Hunger and Poverty in South Africa: The Hidden Faces of Food Insecurity* explores food insecurity as an issue of socioeconomic, political, cultural and environmental inequity and inequality. Based on extensive original research in Free State Province, South Africa, the book explores how people

living in poverty make meaning of their food circumstances within the socio-cultural, political and economic contexts of post-apartheid South Africa, how they view the government's food security policies and programs and their perceived agency to affect change. The personal narratives contained in the book show that food insecurity is shaped by many issues, among which are structural poverty, racism, attempts or non-attempts at reconciliation during and after apartheid, public health issues such as HIV/AIDS, and environmental circumstances. At a time when most discourse around food insecurity focuses on how to provide more food to people facing hunger, this book's multidimensional approach is a valuable contribution to the contemporary dialogue on poverty, food security/insecurity, sustainability and democratic agency both within South Africa and around the world. This book will be of interest to researchers in the areas of food security, multidimensional poverty, democratic agency and sustainable development, both in South Africa and internationally.

South African Foreign Policy Review: Volume 2 Masters, Lesley, Zondi, Siphamandla, 2015-07-13 The first two decades of South Africa's democracy have seen a growing breadth and depth in the analysis of South Africa's foreign policy. This second volume of the South African Foreign Policy Review considers the continuity and change in South Africa's foreign policy over the course of two decades, with a particular focus on the more recent approach under the Zuma administration. This includes a closer look at the principles, practices and partnerships that shape South Africa's international relations and is aimed at supporting knowledge for reflection on South Africa's conduct internationally and for anticipating ways in which the country may approach international relations and foreign policy going forward. It discusses the foreign policy making and the nature of South Africa's diplomatic relations with Africa, Asia, the Middle East and North Africa, Latin America, Europe and North America, as well as the country's participation in multilateral diplomacy in Africa, the global South and at the United Nations (UN) to expand the discussion and deepen the debate on the future shape and direction of South Africa's foreign policy.

Resilience and Contagion Kristi Heather Kenyon, 2017-10-26 HIV represents not only an unprecedented pandemic but also a site of civil society innovation. In the midst of devastation, activists in sub-Saharan Africa are progressing from traditional forms of health advocacy to strategies that engage human rights principles, techniques, and language. Employing a comparative case-study approach, *Resilience and Contagion* considers the efforts of nine local civil society organizations in Ghana, Uganda, South Africa, and Botswana. Kristi Heather Kenyon examines who adopts rights-based discourse and why, arguing that leadership, individual beliefs, and structure all play a critical role in framing advocacy. Beyond changing laws or policies, the most important impact of promoting the rights of people living with HIV, she attests, is that it enables individuals to interact with health services from a position of resilience, strength, and empowerment. This book delves into discourse at the juncture of human rights, social theory, and global health, prompting significant and relevant discussion on advocacy's evolution in the region of the world hit hardest by the HIV pandemic. Drawing on 145 interviews, extensive participant observation, and fascinating document analysis, *Resilience and Contagion* foregrounds the voices of civil society

actors who have conducted the most vocal, widespread, and innovative health advocacy to date.

Agricultural and Climate Change Adaptation Law in Africa Habib Sani Usman, 2025-02-17 This book presents an analysis of climate change and agricultural laws in Kenya, Nigeria, and South Africa in order to determine whether they adequately addressed the concept of agricultural adaptation. Agriculture is one of the sectors of the economy that is contributing to climate change, and at the same time the sector is heavily impacted by climate change. Therefore agricultural adaptation is required. Focusing on three countries, this book provides a novel, comparative examination of how and to what extent the law promotes agriculture-focused adaptation in these countries. The role of the law in addressing issues such as water management strategies, soil conservation methods, and crop production methods is discussed. This book identifies gaps in the regulatory frameworks for agricultural adaptation and highlights the lack of adaptive capacity of African agriculture due to weak or non-existing legal frameworks. It discusses ways to remedy these gaps through specific on-farm adaptation strategies, legislative amendments to consolidate all relevant national climate change-related policies and laws with agricultural policies and laws that have relevant provisions on adaptation as medium-term solutions, and the development of a specific framework law for agriculture-focused adaptation, incorporating essential agricultural adaptation strategies, could perhaps be enacted as long-term solutions to the regulatory gaps. This book will be of great interest to students and scholars of law, climate change, food and agriculture, sustainable development, and African studies.

Handbook of Research on Information and Records Management in the Fourth Industrial Revolution Chigwada, Josiline Phiri, Tsvuura, Godfrey, 2021-06-25 Information and records management has been an important part of society for establishing procedures to effectively manage information. As technology has increased in society, this essential function has been impacted as well. With the onset of technological tools brought upon by the fourth industrial revolution, technologies such as artificial intelligence, the internet of things, big data, and more have changed the face of information and records management. These technologies and tools have paved new ways for security, efficiency in timely processes, new ways to create and process records, and other beneficial traits. Along with these advancements come new contemporary issues, leading to the need for research on how exactly information records management is functioning in modern times, the technologies brought on by the fourth industrial revolution, and both the benefits and challenges to this transition. The Handbook of Research on Information and Records Management in the Fourth Industrial Revolution showcases

contemporary issues and demonstrates the value of information and records management in the fourth industrial revolution. The book provides a summary of the key activities undertaken by information and records managers as they seek to make records and information management more visible in the modern knowledge-driven society. The chapters highlight innovation, the use of information and communication technology in information and records management, best practices, challenges encountered, and how they are overcome. The target audience of this book will be composed of professionals, librarians, archivists, lecturers, and researchers working in the field of library and information science, along with practitioners, academicians, and students interested in information and records management in the 21st century.

Policing and Boundaries in a Violent Society Guy Lamb,2022-01-31 This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service (SAPS). By means of a historical analysis of South Africa, this book introduces a new concept, 'police frontierism', which illuminates the nature of the relationships between the police, policing and boundaries, and can potentially be used for future case study research. Drawing on a wealth of research, this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa, and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary. Focusing on cases of high-density police operations, public-order policing and the recent policing of the COVID-19 lockdown, this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa. This book will be of interest to scholars and students interested in policing in post-colonial societies characterised by high levels of violence, as well as police work and police militarization.

National Intellectual Capital and the Financial Crisis in Israel, Jordan, South Africa, and Turkey Carol Yeh-Yun Lin,Leif Edvinsson,Jeffrey Chen,Tord Beding,2013-09-04 In the first decade of the twenty-first century, the biggest event of worldwide proportion was the 2008 global financial crisis, which was caused primarily by ineffective governance, failed surveillance systems, and implementation flaws. While fiscal and monetary policies succeeded in pulling many countries out of a financial freefall, most economies have performed beneath pre-recession levels as governments continued to struggle with their finances. Examining the financial crisis from the viewpoint of intangible assets provides a different perspective from traditional economic approaches. National Intellectual Capital (NIC), comprised mainly of human capital, market capital, process capital, renewal capital, and financial capital, is a valuable intangible asset and a key source of national competitive advantage in today's knowledge economy. The authors—pioneers in the field—present extensive data and a rigorous

conceptual framework to analyze the connections between the global financial crisis and NIC development. Covering the period from 2005 to 2010 across 48 countries, the authors establish a positive correlation between NIC and GDP per capita and consider the impact of NIC investment for short-term recovery and long-term risk control and strategy formulation. Each volume in a series of SpringerBriefs on NIC and the financial crisis provides in-depth coverage of the impact of the crisis, the aftermath, future prospects, and policy implications for a regional cluster. This volume focuses on Israel, Jordan, South Africa, and Turkey.
