Audiobooks, Literature, and Sound Studies Matthew Rubery, 2011-05-09 This is the first scholarly work to examine the cultural significance of the talking book since the invention of the phonograph in 1877, the earliest machine to enable the reproduction of the human voice. Recent advances in sound technology make this an opportune moment to reflect on the evolution of our reading practices since this remarkable invention. Some questions addressed by the collection include: How does auditory literature adapt printed texts? What skills in close listening are necessary for its reception? What are the social consequences of new listening technologies? In sum, the essays gathered together by this collection explore the extent to which the audiobook enables us not just to hear literature but to hear it in new ways. Bringing together a set of reflections on the enrichments and impoverishments of the reading experience brought about by developments in sound technology, this collection spans the earliest adaptations of printed texts into sound by Charles Dickens, Thomas Hardy, and other novelists from the late nineteenth century to recordings by contemporary figures such as Toni Morrison and Barack Obama at the turn of the twenty-first century. As the voices gathered here suggest, it is time to give a hearing to one of the most talked about new media of the past century.

Homeless, jobless, directionless, Jordan heads to one of his mother's pet charities: Better the Second Time Around Rescue ranch. With his family name and charm, he has the staff eating out of his hand in no time—except for one man. Russ has never been handed anything, and he resents the spoiled rich brat using the ranch to live out a fantasy. And can Russ accept that Jordan can grow—and that he wants him?

Two Thumbs Up Stephanie Ross, 2020-11-10 “An expansive and witty examination of the usefulness of criticism” from the realm of professional tastemakers to the vast landscape of social media (Times Literary Supplement, UK). Far from an elite practice reserved for the highly educated, criticism is all around us. We turn to the Yelp reviewers to help us pick restaurants, to Rotten Tomatoes to guide our movie choices, and to voices on social media for critiques on everything from political candidates to beach resorts. Yet even amid this sea of opinions, professional critics still hold considerable power in guiding how we make aesthetic judgements. In *Two Thumbs Up*, philosopher Stephanie Ross examines how critics influence our decisions, and why that's a good thing. Starting from David Hume's conception of ideal critics, Ross refines his position and makes the case that review-based journalistic or consumer reporting criticism proves the best model for helping us find and appreciate quality. Ross demonstrates how aesthetic and philosophical concerns permeate our lives, choices, and culture. Ultimately, whether we're searching for the right wine or the best concert, Ross encourages us all to find and follow critics whose taste we share.

Digital Audiobooks Iben Have, Birgitte Stougaard Pedersen, 2015-08-11 Audiobooks are rapidly gaining popularity with widely accessible digital downloading and streaming services. This book engages with the digital form of audiobooks, framing audiobook listening as both a remediation of literature and an everyday activity that creates new reading experiences that can be compared to listening to music or the radio. Have and Stougaard Pedersen challenge the historical notion that audiobook listening is a compensatory activity or a second-rate reading experience, while seeking to establish a dialogue between sound studies and media studies, comparative literature, aesthetics, and sociology.

Magic Lessons: Celebratory and Cautionary Tales about Life as a (Single, Gay, Transracially Adoptive) Dad Joseph Sadusky, 2019-06-12 Every family has a story-but very few have a story like Joseph Sadusky and his sons, Daveon and Mark. In *Magic Lessons*, Joe shares a look back as he, a single gay man, decided to build his family through transracial adoption. In a lighthearted collection of stories and lessons learned, Joe humorously but honestly describes the process as he set out to adopt two older children, and what happened after they came together under one roof and became us. Along the way, Joe details how often he was, in his own words, amazed, aggravated, mind-blown, jaw-dropped, befuddled, exasperated, and awed-both in good ways and bad, both by my kids and by the many players who have had a part in our family story overall. Among these players are members of the majority-racial, cultural, and otherwise-who taught Joe many bewildering, if not outright painful, lessons about being other. To complete the picture, Joe reflects on his own mistakes made as he has ventured through the land of alt-parenthood.
