The World of Literature Louise Hutchings Westling, 1999 Truly global in balance, this one volume anthology provides a coherent, manageable selection of major works of world literature. Its strength lies in the choice of texts from many cultures of the world in three main historical periods: Ancient, Middle, and Modern. By tracing thematic connections and contrasts among works from differing traditions, it helps students put world literature into cultural, social, and historical perspective.

**Humanities** Lawrence Boudon, 2005-02-01 The one source that sets reference collections on Latin American studies apart from all other geographic areas of the world.... The Handbook has provided scholars interested in Latin America with a bibliographical source of a quality unavailable to scholars in most other branches of area studies. —Latin American Research Review Beginning with volume 41 (1979), the University of Texas Press became the publisher of the Handbook of Latin American Studies, the most comprehensive annual bibliography in the field. Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 130 specialists in various disciplines, the Handbook alternates from year to year between social sciences and humanities. The Handbook annotates works on Mexico, Central America, the Caribbean and the Guianas, Spanish South America, and Brazil, as well as materials covering Latin America as a whole. Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas. The Handbook of Latin American Studies is the oldest continuing reference work in the field. Lawrence Boudon, of the Library of Congress Hispanic Division, has been the editor since 2000, and Katherine D. McCann has been assistant editor since 1999. The subject categories for Volume 60 are as follows: Art History (including ethnohistory) Literature (including translations from the Spanish and Portuguese) Music Philosophy: Latin American Thought

**Film Study** Frank Manchel, 1990 The four volumes of Film Study include a fresh approach to each of the basic categories in the original edition. Volume one examines the film as film; volume two focuses on the thematic approach to film; volume three draws on the history of film; and volume four contains extensive appendices listing film distributors, sources, and historical information as well as an index of authors, titles, and film personalities.

Immigration Thomas Cieslik,David Felsen,Akis Kalaitzidis,2008-11-30 The uncomfortable contemporary realities of immigration, enmeshed as they are in economic, human rights, and national security issues, have once again propelled foreign immigration to the United States toward the top of the list of U.S. domestic policy concerns. Three respected authorities on immigration and international affairs here present a carefully calibrated history of U.S. immigration in primary source documents, tracing the roots of the current debate in the history of our profoundly divided and surprisingly cyclical response to foreign immigration. This book documents this national ambivalence, identifying the major waves of immigration and clarifying the ways in which the existing social and political fabric conditioned both the response to the newcomers and their prospects of eventual integration into American society. Part I introduces the historical record: • The early days of the Republic, when most immigrants arrived from northern Europe • The most important wave of immigration to the United States in the country's history, over 1880-1920, when most immigrants arrived from Asia or from southern and eastern Europe • Virulent post-World War I anti-immigration sentiment • The World War II-era absorption of huge numbers of displaced persons fleeing the misery and devastation of Europe • Transition from a quota system to a preference system • Heightened debate in the 1980s and 1990s • The immigration policy repercussions of the terrorist attacks of September 11, 2001 Part II takes up special issues in the contemporary immigration debate, including the security debate and immigration, immigration and the U.S. judiciary, the immigration debate and the economy, and the spectrum of public opinion on immigration revealed during the 2008 presidential election campaign. The authors demonstrate that today's highly polarized immigration reform debate in many respects recapitulates the antagonisms and chaotic policies of the 1980s and 1990s, when Ronald Reagan's Republican administration implemented an amnesty program while the state of California adopted the punitive Proposition 187. Paramount in today's immigration debate, however, are the homeland security concerns rendered acute by the 2001 bombing of the World Trade Center in New York City. The controversial USA PATRIOT Act of 2001 and the Homeland Security Act of 2002 are among the documents surveyed in relation to the contemporary immigration debate.

**Literature Connections to World History 712** Lynda G. Adamson, 1998-06-15 Identifying thousands of historical fiction novels, biographies, history trade books, CD-ROMs, and videotapes, these books help you locate resources on world history for students. Each is divided into two sections. In the first part, titles are listed according to grade levels within specific geographic areas and time periods. They are further organized by product type. Both books cover world history from Prehistory and the Ancient World to 54 B.C. to the modern era. Other chapters include Roman Empire to A.D. 476; Europe and the British Isles; Africa and South Africa; Australia, New Zealand, Pacific Islands, and Antarctica; Canada; China; India, Tibet, and Burma; Israel and Arab Countries; Japan; Vietnam, Korea, Cambodia, and Thailand; and South and Central America and the Caribbean. The second section has an annotated bibliography that describes each title and includes publication information and awards. The focus is on books published since 1990, and all have received at l

*War and Conflict Quotations* Michael C. Thomsett, Jean Freestone Thomsett, 2015-09-02 History is replete with pronouncements on war. Some reflect on man's warlike nature ("We are quick to flare up, we races of men on the earth"—Homer); others deal with the practical strategies of the combatants ("If Hitler invaded hell I would make at least a favorable reference to the devil in the House of Commons"—Winston Churchill); and still others offer advice for avoiding conflict ("The most disadvantageous peace is better than the most just war"—Desiderius Erasmus). More than 2,700 quotations on war and conflict are presented in this reference work. The quotations are arranged by more than 100 broad categories, from action to winning. For each, the quotation is first given, followed by its author, the work in which it appeared (when appropriate), and the date. The book includes numerous cross-references, and keyword-in-context and author indexes are provided for further utility.
