Evolving by Choice Krishna Prasaad, Sujani Ganesan, 2021-12-13 Millions of moments, why do only a few of them matter? "That was an amazing experience." Or, was it? Evolving through experiences. What does it take? A lot of people treat experiences like a one-time occurrence, and that is about it. It stops there. What if they can go beyond that? Life is much shorter than people think, and that it is time they grew out of their comfort zones to embrace life and what it has in store for them. This book is all about how mindful experiences lead to meaningful lives, and how every experience that individuals go through has the potential to set their life on the path of positive transformation. After all, everybody is the sum of their own experiences. Mandala Urbanism, Landscape, and Ecology Archana Sharma,2022-04-11 Classic Indian texts and Vaastupurusha Mandala are not often discussed in the western discourse on urbanism, even while much of these predate the commonly taught European writings. This book sheds light on some of those forgotten concepts, thus making the lesser discussed classic Indian town organization ideas accessible to architecture, landscape, and urban planning students worldwide. The resonance of these concepts in present times are reviewed through case studies of select Hindu temple towns in India. Furthermore, the author underscores the formal abstraction of the classic Indian Mandala and transplants the discourse from sociology to socio-ecologically adept trans-disciplinary design thinking. The creative interpretations offer a premise to start revising classic models for current practice to influence the urbanism and ecology of a place in accordance with the changing climate.
