The Big Book of Archery Urte Paulus, 2025-02-28 If you learn an easy, healthy, and power efficient shooting technique right from the start, you'll develop a more satisfying hit pattern and have more fun on the way. Whether you are a beginner, hobby archer, competitive archer or trainer, whether traditional or modern: This comprehensive basic book provides archers of all levels and disciplines with the tools they need to improve their own shooting. It is particularly suitable for archers who do not have the support of trained coaches. For beginners, this book contains special chapters that provide an advantageous introduction and enable you to filter out what is useful and suitable for you from the many well-intentioned pieces of advice from others. From familiarising yourself with the equipment to learning a healthy, energy-saving and successful shooting technique. For the inquisitive, the complete standard shooting sequence, which is suitable for all bow classes, is explained down to the smallest detail (including explanations) and clearly illustrated in photos. For advanced archers, there are numerous tips on how archers can train and analyse themselves, plan their training, tune their equipment and optimally prepare for competitions. This book offers more than 1000 exercises for learning and improving shooting, mental strength, fitness, coordination and adaptability. For the trainer, this book is a valuable all-round knowledge base, from a separate chapter for beginners to differentiated competition training under difficult conditions for competitive shooters. It is very practice-orientated and is full of exercises with the corresponding explanations as well as special tips for the coach. The author Urte Paulus is a trainer instructor, coach, multiple world and European champion with the traditional longbow and modern recurve bow. Here she presents her extensive experience on how to learn archery and how to improve while having fun and enjoying it. Here, the secrets of successful archery are finally explained in an easy-to-understand way. More than 850 photos as well as numerous diagrams and tables present the content in a very clear and easy-to-understand way and make this book absolutely practical. This book provides all archers with a basic, practice-orientated tool that will accompany and support them for many years to come.

How to get rid of the Archer's Reflex Jes Lysgaard, 2022-12-10 Everyone who has progressed past the stage of 'just shooting' knows that moment of mental confusion when the subconscious mind somehow takes control over the conscious attempt to release the string steadily for accurate, repeatable shots, leaving a surprise poor shot and a sense of amnesia

about what led up to it. Don't PANIC – it's just a reflex! The archery world has long referred to this as 'target panic'. Yet most affected archers feel no sense of panic at all: they plan the shot, feel comfortable about taking it, and are unafraid of the bow recoiling or the arrow hitting its mark. In fact, they experience no 'panic' at all. Yet most find that they experience the same outcome: an uncontrolled release, followed by that baffled feeling. As the arrow lands askew, and our memory of those critical moments goes blank, we ask ourselves „What happened there?“ In this ground-breaking practical guide Jes Lysgaard applies his background in psychology and hypnotherapy to his experience as a traditional archer, to uncover what our minds are actually doing as we live this frustrating experience. Jes explains how this neural program has quietly become so deeply ingrained over the course of our hundreds of previous successful shots that, at that vital moment in our shot cycle, it knows "this is what good looks like; go now!", quite outside our conscious control. Meanwhile, the cognitive process which we have rehearsed to hold and expand for an involuntary, perfectly stable release is still obediently determined to hold the string until it releases automatically. This sudden clash between opposing neural signals - the conscious 'hold!' and the subconscious 'release now!' - gives rise to that bewildering mental flurry and yet another uncontrolled release. Not a 'panic' at all. Just the Archer's Reflex. REGAIN CONTROL – REPROGRAM YOUR BRAIN In practical steps which you can follow as you practise, Jes shows how to deprogram your own Archer's Reflex, and build in its place a new, positive, replacement neural program with which you can regain control over your shot cycle and fresh enjoyment of your shooting. REDISCOVER THE JOY OF SHOOTING

Dans la mire du destin Lyne Tremblay, 2019-10-28T00:00:00-04:00 La jeune Lyne Tremblay portait en son cœur trois souhaits : piloter un avion, faire le tour du monde et participer aux Jeux olympiques. Afin d'y parvenir, elle comptera sur sa confiance, sa rigueur et sa détermination. Sans oublier la chance, qui l'épargnera lors d'un terrible accident de voiture en échange de sa santé, appelée dès cet instant à s'étioler de façon systémique. Pour satisfaire ses ambitions, cette athlète paralympique canadienne au tableau d'honneur impressionnant a dû contrôler, sur deux jambes puis sur deux roues, un étrange mal qui, encore aujourd'hui, continue de s'insinuer en elle. Son histoire étonnante, voire choquante, vécue au fil d'un parcours atypique tracé loin d'ornières confortables, est une véritable source d'inspiration pour tous, y compris ceux qui prétendent côtoyer l'impossible au quotidien.

A Practical Guide to Korean Traditional Archery Nicholas Duvernay, PH D,2021-05-29 Koreans have been shooting bows and arrows for millennia, in war, hunting, and for recreation and competition. Koreans are well-known in the world as champion archers. Once reserved for the rich and elite of Korea, Korean traditional archery is now enjoyed by men, women, and youth from all backgrounds. With great concentration, they practice daily to improve their skills to send an arrow 145 meters down range to hit their target. If that sounds like a challenge you wish to try, this book will help you to understand the basics about becoming a traditional archer in the Korean style. It is a practical guide, so the information is concise; you will learn about the different types of bows, arrows, thumb rings, and how to use them. You can learn about stance, draw, and release, and also understand the rules, etiquette, and terminology.

Kuk Sool Goong: Korean Martial Art Archery R. Barry Harmon,2018-02-20 Korean traditional archery known as “Kukgung” (궁) (alternate spelling “Kuk Goong”) is practiced throughout Korea and in many parts of the world. I will be using the alternate spelling “Kuk Goong” throughout this book. Kuk Goong is a beautiful and compelling art. There is a copious amount of information about Kuk Goong (Kukgung궁) published and available on the internet so I will not say much about it except as it applies to our World Kuk Sool Association® (WKSA®) martial art archery. This book is meant to introduce readers to the training and practice of “Kuk Sool Goong” (궁도). Kuk Sool (궁도) is a Korean traditional martial art that includes the training and practice of Korean martial art archery. The World Kuk Sool Association® (WKSA®) martial art archery uses the same fundamental equipment as “Kuk Goong” and the first posture is the same. After that WKSA® teaches many different postures and distances for shooting and that makes it (or us) different from “Traditional Kuk Goong”. I will introduce the archery requirements and rules for World Kuk Sool Association® (WKSA®) competition as well as the fundamental, intermediate and advanced postures for training in “Kuk Sool Goong” (Kuk Sool archery). I will also introduce Kuk Sool Goong Shi Juhn “Arrow Shooting Battle.” Sometimes it’s also called “Archery Sparring.” This book is meant to

introduce the reader to traditional Korean martial art archery as taught and practiced by the World Kuk Sool Association®.
