Aimed equally at prelaw advisors and potential law students, this book can be used as a supplement in the interdisciplinary undergraduate law-related instructional market, including courses that cater to majors/minors in political science and criminal justice in particular. It can also be used in career counselling, internships, and the extensive paralegal program market. O'Brien, 2015-02-19 The Judicial Process: Law, Courts, and Judicial Politics is an all-new, concise yet comprehensive core text that introduces students to the nature and significance of the judicial process in the United States and across the globe. same-sex marriages, the “hardball politics” of judicial selection, plea bargaining trends, the right to counsel and “pay as you go” justice, judicial decisions limiting the availability of class actions, constitutional courts in Europe, the judicial role in creating major social change, and the role lawyers, juries and alternative dispute resolution techniques play in the U.S. and throughout the world. **Failing Law Schools** Brian Z. Tamanaha, 2012-06-15 On the surface, law schools today are thriving. Enrollments are on the rise, and their resources are often the envy of every other university department. Law professors are among the highest paid and play key roles as public intellectuals, advisers, and government officials. Yet behind the flourishing facade, law schools are failing abjectly. Recent front-page stories have detailed widespread dubious practices, including false reporting of LSAT and GPA scores, misleading placement reports, and the fundamental failure to prepare graduates to enter the profession. Addressing all these problems and more in a ringing critique is renowned legal scholar Brian Z. Tamanaha. Piece by piece, Tamanaha lays out the how and why of the crisis and the likely consequences if the current trend continues. The out-of-pocket cost of obtaining a law degree at many schools now approaches \$200,000. The average law school graduate's debt is around \$100,000—the highest it has ever been—while the legal job market is the worst in decades, with the scarce jobs offering starting salaries well below what is needed to handle such a debt load. At the heart of the problem, Tamanaha argues, are the economic demands and competitive pressures on law schools—driven by competition over U.S. News and World Report ranking. When paired with a lack of regulatory oversight, the work environment of professors, the limited information available to prospective students, and loan-based tuition financing, the result is a system that is fundamentally unsustainable. Growing concern with the crisis in legal education has led to high-profile coverage in the Wall Street Journal and the New York Times, and many observers expect it soon will be the focus of congressional scrutiny. Bringing to the table his years of experience from within the legal academy, Tamanaha has provided the perfect resource for assessing what's wrong with law schools and figuring out how to fix them.
