Quotations from Georg Ebers Georg Ebers,2019-12-06 In *Quotations from Georg Ebers*, readers are presented with a meticulously curated collection of reflections and insights drawn from the prolific works of the 19th-century German novelist and Egyptologist. Ebers blends a rich narrative style with philosophical musings that echo the Romantic era's fascination with history, nature, and the human experience. The text transcends mere quotes, offering a thematic exploration of cultural identity, existential thought, and the intertwining of personal and societal narratives, which underscores the literary context of his time while remaining profoundly relevant today. Georg Ebers, celebrated for his historical novels such as *Uarda* and *Arachne*, was deeply influenced by his academic pursuits in philology and archaeology, as well as his travels to Egypt. These experiences not only shaped his narrative style but also enriched his understanding of ancient civilizations, informing the quotes collected in this volume. Ebers used his literature as a vehicle for deeper philosophical inquiry, earning him recognition as one of the early proponents of popularizing Egyptological themes in fiction. For readers interested in the intersections of literature, philosophy, and history, *Quotations from Georg Ebers* serves as an invaluable resource. This anthology not only reflects Ebers' literary genius but also offers profound insights that resonate beyond its historical roots, making it a must-read for scholars and enthusiasts alike.

Quote the World Forevermore AYDI the Watcher ,2022-09-19 Why do I call myself AYDI the Watcher? That's a good

question. I call myself that because I observe our world and the way we interact as humans. Years and years of these observations led me to read up on Psychology, politics and human relations. I listened to many prominent psychologists and therapists to hone my ideas, and the result is this book. Now, this is not a traditional book that delves into the subject matters mentioned above, but a collection of inspiring and thought-provoking quotes fleshed out with my thoughts and feelings, these thoughts and feelings touching on human psychology and behaviour. Some of these quotes were taken from my Facebook page, The Watcher (@AYDItheWatcher) and expanded upon and new ones were added to convey my thoughts on this world that we live in and how hierarchies and human structures affect our daily lives. My goal is to get people thinking and see different perspectives, and protect themselves from harm and manipulation. I hope this goal is achieved and your minds are unlocked. The freer the minds, the better the world.

Sad by Design Geert Lovink, 2019-05-20 Sadness is now a design problem. The highs and lows of melancholy are coded into social media platforms. After all the clicking, browsing, swiping and liking, all we are left with is the flat and empty aftermath of time lost to the app. Sad by Design offers a critical analysis of the growing social media controversies such as fake news, toxic viral memes and online addiction. The failed search for a grand design has resulted in depoliticised internet studies unable to generate either radical critique or a search for alternatives. Geert Lovink calls for us to embrace the engineered intimacy of social media, messenger apps and selfies, because boredom is the first stage of overcoming 'platform nihilism'. Then, after the haze, we can organise to disrupt the data extraction industries at their core.

Color Ontology and Color Science Jonathan Cohen, Mohan Matthen, 2010-05-21 Leading philosophers and scientists

consider what conclusions about color can be drawn when the latest analytic tools are applied to the most sophisticated color science. Philosophers and scientists have long speculated about the nature of color. Atomists such as Democritus thought color to be conventional, not real; Galileo and other key figures of the Scientific Revolution thought that it was an erroneous projection of our own sensations onto external objects. More recently, philosophers have enriched the debate about color by aligning the most advanced color science with the most sophisticated methods of analytical philosophy. In this volume, leading scientists and philosophers examine new problems with new analytic tools, considering such topics as the psychophysical measurement of color and its implications, the nature of color experience in both normal color-perceivers and the color blind, and questions that arise from what we now know about the neural processing of color information, color consciousness, and color language. Taken together, these papers point toward a complete restructuring of current orthodoxy concerning color experience and how it relates to objective reality. Kuehni, Jameson, Mausfeld, and Niederee discuss how the traditional framework of a three-dimensional color space and basic color terms is far too simple to capture the complexities of color experience. Clark and MacLeod discuss the difficulties of a materialist account of color experience. Churchland, Cohen, Matthen, and Westphal offer competing accounts of color ontology. Finally, Broackes and Byrne and Hilbert discuss the phenomenology of color blindness. Contributors Justin Broackes, Alex Byrne, Paul M. Churchland, Austen Clark, Jonathan Cohen, David R. Hilbert, Kimberly A. Jameson, Rolf Kuehni, Don I.A. MacLeod, Mohan Matthen, Rainer Mausfeld, Richard Niederée, Jonathan Westphal

Christian Ethics in Secular Cultures Thomas K. Johnson, 2018-05-10 A central question in Christian ethics is the relationship between the moral principles we should follow within the Christian community and the ethics followed in the secular societies in which we live. Our dilemma is that we have received a revelation of God's moral will in the Bible and in creation which must shape the identity of believers over against unbelieving cultures, while our neighbors follow the ethics of other world views which concern us deeply. Remember the Holocaust, where the ethics of a secular ideology wreaked destruction in an entire society. How should we, as Christians whom God has called to a distinct identity, participate in the moral considerations that will shape our cultures and communicate some of our convictions in a way that brings moral light into our worlds? Johnson offers the insight gained by 20 years of teaching ethics in secular universities in Europe and North America. First he addresses questions of sex, marriage, and family; then questions of work and economics; and finally theological and philosophical foundations.

The Gospel of Vedanta Giridhar Krishna Boray, 2024-08-26 The Lord Almighty in the form of Sage Vedavyasa composed the epic Bhagavata Maha Purana to expand on the spiritual concepts contained in the Vedas using episodes and anecdotes from the Lord's various incarnations and the experiences of His devotees. It is a guidebook to society to illustrate human and ethical values. The Bhagavata Maha Purana is structured as a conversation between King Pariksit and sage Shuka and is

spread over 12 cantos with 18000 verses. The eleventh canto has 1373 verses spread among 31 chapters. While the tenth canto has the authentic account of the incarnation and activities of Lord Sri Krishna, the eleventh canto has core messages from the Lord to humankind. The Bhagavad Gita [BG], the song celestial, which has the sermon from Lord Krishna to prince Arjuna, which is the most revered text among Hindu scriptures, is part of the great epic Mahabharata. Uddhava Gita, the divine conversation between Uddhava, an aide, and an ardent devotee of Lord Krishna, and Lord Krishna Himself is spread over 23 chapters (chapters 7 to 29), in 1033 verses (about 75% of 11th Canto). This has many parallels with the Gita and reads like a commentary on the Gita. In Gita, the Lord responds to many philosophical questions from Arjuna and many of those critical questions are explained in more detail in Uddhava Gita with examples and anecdotes. Excellent interpretation of the critical aspects of this epic can be found in the works of the 12th century ascetic Sri Madhwacharya. Other savants in his lineage such as Sri Vadiraja Teertha, Sri Raghavendra Teertha, Sri Vijayadhwaja Teertha, Sri Satyabhinava Teertha, Sri Satyadharma Teertha have contributed tremendously to summarize and expand on the key concepts. This book attempts to provide a simple translation in English of the 11th canto along with summary and interpretations based on the lectures by His Holiness Sri Vidyasagara Madhava Teertha.
