Savage Anxieties Robert A. Williams,2024-03-26 This review of Western history's disdain for savage tribes across three millennia is a provocative contribution to multicultural studies (Publishers Weekly). From one of the world's leading experts on Native American law and indigenous peoples' human rights comes an original and striking intellectual history of the tribe

and Western civilization that sheds new light on how we understand ourselves and our contemporary society. Throughout the centuries, conquest, war, and unspeakable acts of violence and dispossession have been justified by citing civilization's opposition to these differences represented by the tribe. Robert Williams, award winning author, legal scholar, and member of the Lumbee Indian Tribe, proposes a wide-ranging reexamination of the history of the Western world, told from the perspective of civilization's war on tribalism as a way of life. Williams shows us how what we thought we knew about the rise of Western civilization over the tribe is in dire need of reappraisal. A tidy academic survey of the savage, from the ancient centaurs to today's indigenous tribal peoples. . . . A straightforward scholarly study that concludes with a compelling look at the pervasive harm in stereotypical attitudes and language. — Kirkus Reviews

Stand Strong America Alex McFarland, Jason Jimenez, 2016-06-01 Americans are weary of the poor character and decisions of their leaders. Widespread corruption has led many to lose hope and succumb to fear. – Every day Americans nervously watch the national debt climb to a whopping \$20 trillion (with no solutions in sight). – Government bailouts are the norm, and entitlement spending is out of control. – Civil unrest and racial divide intensify. – Drug use, porn obsession, and human trafficking increase. – Terrorist threats and attacks are a daily occurrence. – The exercise of free speech is becoming a thing of the past. *Stand Strong America* provides Americans real answers and courage to stand strong in the midst of uncertainty and fear—offering a vision of hope that reignites the fervor and courageous faith that existed when the republic of America was created. Authors Jason Jimenez and Alex McFarland chart the amazing story of how America became the greatest nation on earth and what Americans must do to regain that greatness. Be encouraged and empowered by this clear and invigorating message that will challenge you to love God, cherish freedom, pray for a better tomorrow, make a difference, and stand strong no matter the cost.

Complete Writings Phillis Wheatley, 2001-02-01 The extraordinary writings of Phillis Wheatley, a formerly enslaved woman turned published poet In 1761, a young girl arrived in Boston on a ship of enslaved people, was sold to the Wheatley family, and given the name Phillis Wheatley. After studying English and classical literature, geography, the Bible, and Latin,

Phillis published her first poem in 1767 at the age of 14, winning much public attention and considerable fame. When Boston publishers who doubted its authenticity rejected an initial collection of her poetry, Wheatley sailed to London in 1773 and found a publisher there for *Poems on Various Subjects, Religious and Moral*. This volume collects both Wheatley's letters and her poetry: hymns, elegies, translations, philosophical poems, tales, and epyllions—including a poignant plea to the Earl of Dartmouth urging freedom for America and comparing the country's condition to her own. With her contemplative elegies and her use of the poetic imagination to escape an unsatisfactory world, Wheatley anticipated the Romantic Movement of the following century. The appendices to this edition include poems of Wheatley's contemporary African-American poets: Lucy Terry, Jupiter Harmon, and Francis Williams. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

The Future of Our Nation Alvin R. Ervin, 2021-08-30 This book is in the epistle form, written just as the Bible. When the apostles wrote letters to the various churches, those letters are epistles. Those epistles were not only written to those particular churches. They were also written to the entire body of Christ (the modern-day church today). This book is written in the same manner. It was written to a man of God whom I honored highly. He is no longer with us now. He was the president of Southwest Radio Church Ministries, but like all other epistles, it's also written to all churches, every person in this nation, and nations through the planet. It opens with my testimony with regard to how and when I became a Christian. It goes on support David Barton's material entitled *Our Godly American Heritage*. It encourages godly people to obtain this material and all videos and books Mr. Barton's ministry has to offer. I included excerpts from this particular video to whet the appetite of the people of the US and all readers of the book. David Barton brings forth information regarding our history. He issues statistics differentiating how things are currently after prayer is removed from all schools and life in this nation when prayer was prayed by our students at all levels, even our little ones. It made a great difference spiritually and in other ways in the lives of God's people. (I am reaching out to the president currently on Facebook with regard to this matter. See ARE Outreach Facebook and Alvin Ervin Facebook if you like). This book also supports Vaughn Shatzer's material entitled *A New World Disorder*. He brings forth information regarding a new world order. We know this is in the work currently because President George H. W. Bush issued this statement to the American people in the late eighties, stating, "It is now time for a new world order." President Bill Clinton allowed Vice President Al Gore to make a statement on his behalf from England, declaring, "What was written with a quill pen is now outdated, we need to reinvent government." Our Constitution was written with a quill pen. There are those in this nation who are wanting to abolish it. But prayer is making a big difference.

There are twenty-eight nations in Europe currently under one world currency. The book of Revelation reveals to us there will be one world order, meaning every nation on the planet will be under one world currency, one world military, and one world religion. But our prayer is that it does not occur until Christ raptures His church. This book concludes by informing God's people in this nation as well as nations throughout the earth that Christ is coming soon to catch His Bride away through the Rapture. The Word of God says in First Thessalonians 4:16-17, For the lord Himself shall descend from heaven with a shout, with the voice of the Archangel, and with the trump of God and the dead in Christ shall rise first: Then we which are alive and remain shall be caught up together with them in the clouds to meet the Lord in the air and so shall we ever be with the Lord. God's Word says in Matthew 24:32-35 that the generation that sees the fig tree take on its leaves shall not pass away until all things are fulfilled. The nation of Israel is the fig tree, and it took on her leaves in 1948 after lying dormant over two thousand years when the Roman general destroyed the Jewish Temple in AD 70. It discontinued the Jewish way of life. This book also concludes by teaching God's people from the book of Revelation chapter 13 regarding the one world order.

Charles-Louis de Secondat, Baron de Montesquieu David Carrithers, 2017-07-05 The French philosophe Charles-Louis de Secondat, Baron de Montesquieu (1689-1755) was a political and social thinker of enormous depth, range, originality, and influence. The essays by eminent scholars reprinted in this volume explore significant aspects of his contributions to political, constitutional, and religious thought during the epoch of the French Enlightenment. Topics highlighted include his Persian Letters (1721), his history of Rome (1734), and the views he expressed in The Spirit of Laws (1748) on natural law, forms of government, English constitutionalism, religion, commerce, international relations, and the philosophy of history. Supplemented by a detailed introduction that contextualizes the papers selected for this volume, as well as an extensive bibliography, this work serves as an authoritative reference to the best scholarship on Montesquieu's political thought. The volume is edited and introduced by David W. Carrithers, Adolph Ochs Professor of Government at the University of Tennessee at Chattanooga and author of numerous publications on Montesquieu.

Pearls of Wisdom Mamutty Chola, 2019-07-09 The book — Pearls of wisdom presents a historical and panoramic view of human civilization. It is a compilation of quotes /sayings of prophets, philosophers, thinkers, poets, emperors, politicians and business tycoons; on various aspects of human lives; be it religions, ethics, morals, business, principles of governance, evolution of science and technology, besides quotes on Nature, Earth, Soul, Love, Beauty, Human Minds, Human Hearts, and Eyes. There are quotes about the qualities of animals; like Dog, Horse, Lion and their influence on human lives. There are in all 26 sections chapters as reflected in the Index. On perusal of these quotes following facts emerge: 1) The human race loves to live in peace. The religions, though was intended to achieve peace in society, have unfortunately been one of the main reasons for wars, crimes, destruction, and genocides because of the intolerance among the believers since faith is blind. Rationality had been and is the first casualty. 2) All the religions are the gifts of the East. The gifts of the west are

communism and Atheism. 3) Things once considered as blasphemies have come to be accepted as truth. The example of Galileo Galilei is remarkable. 5)The governing principles have been evolutionary. There can never be a uniformed pattern of governance as peoples differ in their thinking and beliefs for that reasons there have been clashes of civilization down the ages. 6)The exploration of our solar systems is the result of endless and insatiable urge in man to unravel nature. The achievements of science and technology belong to the whole of humanity. I have tried to present a snapshot profile of March of human civilization through the voices of the great minds ever walked on mother earth. This compilation will serve as ready reckoner

The Perils of Partnership Jonathan H. Marks,2019-01-29 Countless public health agencies are trying to solve our most intractable public health problems -- among them, the obesity and opioid epidemics -- by partnering with corporations responsible for creating or exacerbating those problems. We are told industry must be part of the solution. But is it time to challenge the partnership paradigm and the popular narratives that sustain it? In *The Perils of Partnership*, Jonathan H. Marks argues that public-private partnerships and multi-stakeholder initiatives create webs of influence that undermine the integrity of public health agencies; distort public health research and policy; and reinforce the framing of public health problems and their solutions in ways that are least threatening to the commercial interests of corporate partners. We should expect multinational corporations to develop strategies of influence -- but public bodies can and should develop counter-strategies to insulate themselves from corporate influence in all its forms. Marks reviews the norms that regulate public-public interactions (separation of powers) and private-private interactions (antitrust and competition law), and argues for an analogous set of norms to govern public-private interactions. He also offers a novel framework to help public bodies identify the systemic ethical implications of their current or proposed relationships with industry actors. Marks makes a compelling case that the default public-private interaction should be at arm's length: separation, not collaboration. He calls for a new paradigm that avoids the perils of corporate influence and more effectively protects and promotes public health. *The Perils of Partnership* is essential reading for public health officials and policymakers -- but anyone interested in public health will recognize the urgency of this book.

Nineteenth-Century British Perspectives on Spanish America Marisa Palacios Knox,2024-03-25 The sources in this volume focus on Great Britain's moral, financial, and diplomatic interventions and ambitions in Latin America. It begins during the wars of independence spanning 1810-1825, when Foreign Secretary George Canning prematurely declared, Spanish America is free; and if we do not mismanage our affairs sadly, she is English. The independence movements of the former Spanish and Portuguese colonies, as well as their ancient past, inspired Romantic writers such as Anna Letitia

Barbault and spurred British military support and political debate, as attested by mercenary Richard Vowell's Campaigns and Cruises in Venezuela and James Mill's Emancipation of Spanish America.

The Neomercantilists Eric Helleiner, 2021-11-15 At a time when critiques of free trade policies are gaining currency, The Neomercantilists helps make sense of the protectionist turn, providing the first intellectual history of the genealogy of neomercantilism. Eric Helleiner identifies many pioneers of this ideology between the late eighteenth and early twentieth centuries who backed strategic protectionism and other forms of government economic activism to promote state wealth and power. They included not just the famous Friedrich List, but also numerous lesser-known thinkers, many of whom came from outside of the West. Helleiner's novel emphasis on neomercantilism's diverse origins challenges traditional Western-centric understandings of its history. It illuminates neglected local intellectual traditions and international flows of ideas that gave rise to distinctive varieties of the ideology around the globe, including in Latin America, the Caribbean, Africa, and Asia. This rich history left enduring intellectual legacies, including in the two dominant powers of the contemporary world economy: China and the United States. The result is an exceptional study of a set of profoundly influential economic ideas. While rooted in the past, it sheds light on the present moment. The Neomercantilists shows how we might construct more global approaches to the study of international political economy and intellectual history, devoting attention to thinkers from across the world, and to the cross-border circulation of thought.
