Crater Scaling Laws for Desert Alluvium A. J. Chabai, 1959

Ecosystem Dynamics in a Polar Desert, 1998 Presents information from the primary abiotic forces defining the system, and from the present hydrology, biogeochemistry and physics of major sites of organic carbon production of the McMurdo Dry Valleys. Additionally, research on the physical, chemical, and biological properties of the dry valley soils is included. The role of environmental management in long-term ecological studies is also addressed. The accompanying CDROM provides details and scale to visualize the McMurdo Dry Valleys from an ecosystem perspective.

*Spaceship in the Desert* Gökçe Günel, 2019-02-14 In 2006 Abu Dhabi launched an ambitious project to construct the world's first zero-carbon city: Masdar City. In *Spaceship in the Desert* Gökçe Günel examines the development and construction of Masdar City's renewable energy and clean technology infrastructures, providing an illuminating portrait of an international group of engineers, designers, and students who attempted to build a post-oil future in Abu Dhabi. While many of Masdar's initiatives—such as developing a new energy currency and a driverless rapid transit network—have stalled or not met expectations, Günel analyzes how these initiatives contributed to rendering the future a thinly disguised version of the fossil-fueled present. *Spaceship in the Desert* tells the story of Masdar, at once a “utopia” sponsored by the Emirati government, and a well-resourced company involving different actors who participated in the project, each with their own agendas and desires.

**Surface Motion Near Underground Nuclear Explosions in Desert Alluvium Operation Nougat I, Area 3, Nevada Test Site** William R. Perret, 1978

**Scaling Dimensions of Craters Produced by Buried Explosions** Albert J. Chabai, 1965 The question of the proper scaling of crater dimensions resulting from buried explosions is investigated. Dimensional analyses are performed from which four different scaling rules are derived. Data are reviewed in an attempt to distinguish which scaling rules are fundamental to cratering. Inability to perform cratering experiments with similitude apparently is one reason for lack of an unambiguous answer to the scaling question. Influences of possible sources of similarity violation are qualitatively examined,

and some experiments are suggested which may provide more direct information about the correct scaling of crater dimensions.

*Egypt's Desert Dreams* David Sims,2018-09-18 Egypt has placed its hopes on developing its vast and empty deserts as the ultimate solution to the country's problems. New cities, new farms, new industrial zones, new tourism resorts, and new development corridors, all have been promoted for over half a century to create a modern Egypt and to pull tens of millions of people away from the increasingly crowded Nile Valley into the desert hinterland. The results, in spite of colossal expenditures and ever-grander government pronouncements, have been meager at best, and today Egypt's desert is littered with stalled schemes, abandoned projects, and forlorn dreams. It also remains stubbornly uninhabited. Egypt's Desert Dreams is the first attempt of its kind to look at Egypt's desert development in its entirety. It recounts the failures of governmental schemes, analyzes why they have failed, and exposes the main winners of Egypt's desert projects, as well as the underlying narratives and political necessities behind it, even in the post-revolutionary era. It also shows that all is not lost, and that there are alternative paths that Egypt could take.

Eating Fandom CarrieLynn D. Reinhard,Julia E. Largent,Bertha Chin,2020-10-29 This book considers the practices and

techniques fans utilize to interact with different aspects and elements of food cultures. With attention to food cultures across nations, societies, cultures, and historical periods, the collected essays consider the rituals and values of fan communities as reflections of their food culture, whether in relation to particular foods or types of food, those who produce them, or representations of them. Presenting various theoretical and methodological approaches, the anthology brings together a series of empirical studies to examine the intersection of two fields of cultural practice and will appeal to sociologists, geographers and scholars of cultural studies with interests in fan studies and food cultures.
