An Encounter With Destiny Blythe Dowling-Eversly,2024-11-07 Try as we might, rarely do we receive second chances to fix previous indiscretions... In the case of Dez Hourie, a sergeant in the top-secret Hyperphonic division of the U.S. Air Force, she's about to experience one of those supposed instances. With her superiors clamoring to shut down the program due to their dissatisfaction with the results thus far, Dez is backed into a corner considering the military's reluctance to use human test subjects. If the program is disbanded, who knows where they'll send her next? Things become even more complicated once she runs into an old "friend," who has evolved from his dorky undergrad days into a present-day hunk—a transformation that leaves the sergeant feeling foolish to say the least—once she also discovers that he's engaged. With an uncertain future staring her in the face both personally and professionally, Dez decides to roll the dice, convincing the research team leader that the only solution to their problems resides in the past. Left with seemingly no choice, he reluctantly agrees. However, Dez is about to learn what many others before her have—and that is in this life—there are no coincidences.

University Babylon Curtis Marez,2019-11-19 From the silent era to the present, film productions have shaped the way the

public views campus life. Collaborations between universities and Hollywood entities have disseminated influential ideas of race, gender, class, and sexual difference. Even more directly, Hollywood has drawn writers, actors, and other talent from ranks of professors and students while also promoting the industry in classrooms, curricula, and film studies programs. In addition to founding film schools, university administrators have offered campuses as filming locations. In *University Babylon*, Curtis Marez argues that cinema has been central to the uneven incorporation and exclusion of different kinds of students, professors, and knowledge. Working together, Marez argues, film and educational institutions have produced a powerful ideology that links respectability to academic merit in order to marginalize and manage people of color. Combining concepts and methods from critical university studies, ethnic studies, native studies, and film studies, *University Babylon* analyzes the symbolic and institutional collaborations between Hollywood filmmakers and university administrators over the representation of students and, by extension, college life more broadly.

Invention & Reinvention Mary Lindenstein Walshok, Abraham J Shragge, 2013-12-02 "A fascinating story of regeneration. Using a social history perspective over different periods, it offers a wonderful case study of urban reinvention." —Shiri M. Breznitz, *Economic Geography* Formerly prosperous cities across the United States, struggling to keep up with an increasingly global economy and the continued decline of post-war industries like manufacturing, face the issue of how to adapt to today's knowledge economy. In *Invention and Reinvention*, authors Mary Walshok and Abraham Shragge chronicle San Diego's transformation from a small West Coast settlement to a booming military metropolis and then to a successful innovation hub. This instructive story of a second-tier city that transformed its core economic identity can serve as a rich case and a model for similar regions. Stressing the role that cultural values and social dynamics played in its transition, the authors discern five distinct, recurring factors upon which San Diego capitalized at key junctures in its economic growth. San Diego—though not always a star city—has been able to repurpose its assets and realign its economic development strategies continuously in order to sustain prosperity. Chronicling over a century of adaptation, this book offers a lively and penetrating tale of how one city reinvented itself to meet the demands of today's economy, lighting the way for others. "This is an important, pioneering book that contributes to our unique understanding of how one place, San Diego, has achieved what most places want: the capacity to evolve and meet the challenges of a constantly changing global economic environment."

Walshok and Shragge help us understand why some places thrive while others wither.” —David B. Audretsch, author of *Everything in Its Place*

Authoritarianism in All its Guises Daniel Burston,Kurt Jacobsen,2025-03-31 *Authoritarianism in All its Guises* provides an interdisciplinary assessment of contemporary experiences of authoritarianism. Drawing on psychoanalysis and critical theory,

contributors from a range of academic backgrounds consider authoritarianism as it manifests in a range of movements and contexts. The chapters investigate, interrogate, and, in some cases, clash creatively and revealingly over the meanings of contemporary experiences of authoritarianism across the political spectrum. The issues raised here not only compel us to come to grips with and clarify what constitutes modern authoritarianism but also what defines the Left in this stubbornly neoliberal age. *Authoritarianism in All its Guises* will be essential reading for academics and students of psychoanalysis, political and social psychology, sociology, history, and media and cultural studies.
