**Dr Peter Knight, Peter Knight**

**Aberration in the Heartland of the Real** Wendy S. Painting, 2016-04-19 Presenting startling new biographical details about Timothy McVeigh and exposing stark contradictions and errors contained in previous depictions of the All-American Terrorist, this book traces McVeigh's life from childhood to the Army, throughout the plot to bomb the Alfred P. Murrah Federal Building and the period after his 1995 arrest until his 2001 execution. McVeigh's life, as Dr. Wendy Painting describes it, offers a backdrop for her discussion of not only several intimate and previously unknown details about him, but a number of episodes and circumstances in American History as well. In *Aberration in the Heartland*, Painting explores Cold War popular culture, all-American apocalyptic fervor, organized racism, contentious politics, militarism, warfare, conspiracy theories, bioethical controversies, mind control, the media's construction of villains and demons, and institutional secrecy and cover-ups. All these stories are examined, compared, and tested in *Aberration in the Heartland of the Real*, making this book a much closer examination into the personality and life of Timothy McVeigh than has been provided by any other biographical work about him

**Simulacrum America** Elisabeth Kraus, Carolin Auer, 2000 A collection of articles that analyses the role of the media in America from a deconstructionist viewpoint. This collection of original essays is a response to the paradigm shift that has taken place in cultural studies in the wake of postmodernism and poststructuralism. Such concepts as 'truth' or 'reality' have been increasingly called into question, since the realization that our experience of 'the real' is always mediated through an empire of signs, as Roland Barthes put it. After a predominantly optimistic evaluation of the effects of the media in the 1960s (by Marshall McLuhan, Hans Magnus Enzensberger, and others), a growing awareness of the total manipulation of society by mass-media imagery has emerged. The very concept of 'representation' has become problematic, witness the influential essay *The Precession of Simulacra* by the French sociologist Jean Baudrillard, in which he defines simulation as the generation by models of a real without origin or reality: a hyperreal- the current boom in 'realityTV' comes to mind. In the seventeen years since the publication of Baudrillard's *Simulacra and Simulation*, ever more sophisticated technologies based on the computer as the simulacrum machine par excellence have offered us powerful new means of manipulating data - and consequently, means of manipulating, editing, and inventing 'reality.' The aim of this study is to unmask false 'representations', showing

history, personal and cultural identity (especially gender and racial identities), the simulacrum of speed -- and American 'reality' itself -- to be constructs.

*Peripheralizing DeLillo* Thomas Travers, 2023-07-27 *Peripheralizing DeLillo* tracks the historical arc of Don DeLillo's poetics as it recomposes itself across the genres of short fiction, romance, the historical novel, and the philosophical novel of time. Drawing on theories that capital, rather than the bourgeoisie, is the displaced subject of the novel, Thomas Travers investigates DeLillo's representation of fully commodified social worlds and re-evaluates Marxist accounts of the novel and its philosophy of history. Deploying an innovative re-periodisation, Travers considers the evolution of DeLillo's aesthetic forms as they register and encode one of the crises of contemporary historicity: the secular dynamics through which a society organised around waged work tends towards conditions of under- and unemployment. Situating DeLillo within global histories of uneven and combined development, Travers explores how DeLillo's treatment of capital and labour, affect and narration, reconfigures debates around realism and modernism. The DeLillo that emerges from this study is no longer an exemplary postmodern writer, but a composer of capitalist epics, a novelist drawn to peripheral zones of accumulation, zones of social death whose surplus populations his fiction strives to re-historicise, if not re-dialecticise as subjects of history.

Don DeLillo In Context Jesse Kavadlo, 2022-06-02 Don DeLillo is one of the most important novelists of the late twentieth and early twenty-first century. Yet despite DeLillo's prolific output and scholarly recognition, much of the attention has gone to his works individually, rather than collectively or thematically. This volume provides separate entries into the wide variety and categories of contexts that surround and help illuminate DeLillo's writings. *Don DeLillo in Context* examines how geography, biography, history, media studies, culture, philosophy, and the writing process provide critical frameworks and ways of reading and understanding DeLillo's prodigious body of work.

Subjects of Security R. Cameron, 2013-04-23 This book argues that the war on terror is a paradigmatic foreign policy that has had profound effects on domestic social order. Cameron develops an original framework which inverts the traditional analysis of foreign policy in order to interpret its impact upon subject formation through everyday practises of security and social regulation.

**Conspiracy Culture** Keith A. Livers, 2020-09-08 This book examines the uses of conspiracy tropes in post-Soviet culture, providing the first systematic, in-depth analysis of Russia's most paranoid contemporary authors.

Reading for My Life John Leonard, 2012-03-15 Right up until his death in 2008, John Leonard was a lion in American letters. A passionate, erudite, and wide-ranging critic, he helped shape the landscape of modern literature. He reviewed the most celebrated writers of his age—from Kurt Vonnegut and Joan Didion to Toni Morrison and Thomas Pynchon. He championed Morrison's work so ardently that she invited him to travel with her to Stockholm when she accepted her Nobel Prize. He also contributed many pieces on television, film, politics, and the media, which continue to surprise and impress

with their fervor and prescience. *Reading for My Life* is a monumental collection of Leonard's most significant writings—spanning five decades—from his earliest columns for the Harvard Crimson to his final essays for The New York Review of Books. Here are Leonard's best writings—many never before published in book form—on the cultural touchstones of a generation, each piece a testament to his sharp wit, fierce intelligence, and lasting love of the arts. Definitive reviews of Doris Lessing, Vladimir Nabokov, Maxine Hong Kingston, Tom Wolfe, Don DeLillo, Milan Kundera, and Philip Roth, among others, display his passion and nearly encyclopedic knowledge of literature in the second half of the twentieth century. His essay on Ed Sullivan and the evolution of television remains a classic. Throughout Leonard's reviews and essays is a dedicated political spirit, pleading for social justice, advocating for the women's movement, and forever calling attention to writers whose work challenged and excited him. With an introduction by E. L. Doctorow and remembrances by Leonard's friends, family, and colleagues, including Gloria Steinem and Victor Navasky, *Reading for My Life* stands as a landmark collection from one of America's most beloved and influential critics.

Conspiracy Culture Dr Peter Knight, Peter Knight, 2013-04-15 Conspiracy theories are everywhere in post-war American culture. From postmodern novels to The X-Files and from gangsta rap to feminist polemic, there is a widespread suspicion that sinister forces are conspiring to take control of our national destiny, our minds, and even our bodies. Conspiracy explanations can no longer be dismissed as the paranoid delusions of far-right crackpots. Indeed, they have become a necessary response to a risky and increasingly globalized world, in which everything is connected but nothing adds up. Peter Knight provides an engaging and cogent analysis of the development of conspiracy culture, from 1960s' countercultural suspicions about the authorities to the 1990s, where a paranoid attitude is both routine and ironic. *Conspiracy Culture* analyses conspiracy narratives about familiar topics like the Kennedy assassination, alien abduction, body horror, AIDS, crack cocaine, the New World Order, as well as more unusual ones like the conspiracies of patriarchy and white supremacy. *Conspiracy Culture* shows how Americans have come to distrust not only the narratives of the authorities, but even the authority of narrative itself to explain What Is Really Going On. From the complexities of Thomas Pynchon's novels to the endless mysteries of The X-Files, Knight argues that contemporary conspiracy culture is marked by an infinite regress of suspicion. Trust no one, because we have met the enemy and it is us.

**The Cambridge History of the American Novel** Leonard Cassuto, 2011-03-24 An authoritative and lively account of the development of the genre, by leading experts in the field.

**Conspiracy Theories and the Failure of Intellectual Critique** Kurtis Hagen, 2022-07-20 *Conspiracy Theories and the Failure of Intellectual Critique* argues that conspiracy theories, including those that conflict with official accounts and suggest that prominent people in Western democracies have engaged in appalling behavior, should be taken seriously and judged on their merits and problems on a case-by-case basis. It builds on the philosophical work on this topic that has

developed over the past quarter century, challenging some of it, but affirming the emerging consensus: each conspiracy theory ought to be judged on its particular merits and faults. The philosophical consensus contrasts starkly with what one finds in the social science literature. Kurtis Hagen argues that significant aspects of that literature, especially the psychological study of conspiracy theorists, has turned out to be flawed and misleading. Those flaws are not randomly directed; rather, they consistently serve to disparage conspiracy theorists unfairly. This suggests that there may be a bias against conspiracy theorists in the academy, skewing “scientific” results. *Conspiracy Theories and the Failure of Intellectual Critique* argues that social scientists who study conspiracy theories and/or conspiracy theorists would do well to better absorb the implications of the philosophical literature.

**Conspiracy theory and American foreign policy** Tim Aistrophe, 2016-05-01 Conspiracy theory and American foreign policy examines the relationship between secrecy, power and interpretation around international controversy, where foreign policy orthodoxy comes up hard against alternative interpretations. It does so in the context of US foreign policy during the War on Terror, a conflict that was covert and conspiratorial to its core. Offering a new dimension to debates on post-truth politics, this book critically examines the ‘Arab-Muslim paranoia narrative’: the view that Arab-Muslim resentment towards America is motivated to some degree by a paranoid perception of American power in the Middle East. This narrative is traced from its roots in a post-War liberal understanding of populism through to foreign policy debates about the origins of 9/11, to the strategic heart of the Bush Administration’s War of Ideas. Balancing conceptual innovation with detailed case analysis, Aistrophe provides a window into the ideological commitments of the US War on Terror. Offering a fascinating insight into conspiracy and paranoia, this book is essential reading for those interested in the relationship between secrecy, power, and contemporary politics.

**Sovereign Lives** Jenny Edkins, Michael J. Shapiro, Veronique Pin-Fat, 2012-10-02 For International Relations scholars, discussions of globalization inevitably turn to questions of sovereignty. How much control does a country have over its borders, people and economy? Where does that authority come from? *Sovereign Lives* explores these changes through reading of humanitarian intervention, human rights discourses, securitization, refugees, the fragmentation of identities and the practices of development.

Reading the Postmodern Polity Michael J. Shapiro, 1992 Nine essays, with past lives as lectures and journal articles, discuss such topics as the spaces of critical interpretation, political economy and mimetic desire in Babette's feast, and the representation of (1965-4), \$15.95. Hot Planet, Cool Media Stephen Harper, 2023-04-23 From the Arab Spring and London riots through the era of Brexit and Trump, the Covid-19 pandemic and war in Europe, this volume collects eleven years of lively, informative and entertaining essays and polemics, focusing on media treatment of major world events, political entanglements and culture-war squabbles.

Taking aim at the distortions and omissions of news reports and cultural narratives in the Western world, Stephen Harper highlights the dislocation between humanity's existential crisis and the failure of the corporate media to register its underlying causes – or even to entertain any real discussion of its solution. Instead, he argues, the media blithely serve the narrow interests of a global elite that is subjecting the planet to a reign of fire in the form of endless wars and ecological destruction. Harper reviews contemporary journalistic, cinematic and televisual coverage, engaging with broad cultural topics such as 'cancel culture', the incel phenomenon and Covid conspiracy theories, as well as key events like the debate between Jordan Peterson and Slavoj Žižek. For all its eclecticism, *Hot Planet, Cool Media* has an ideological cohesiveness, rejecting popular left and right political positions and advocating the cause of socialism or communism in the Marxian sense of a classless, leaderless, moneyless society.

*The Political Sublime* Michael J. Shapiro, 2018-03-15 In *The Political Sublime* Michael J. Shapiro formulates an original politics of aesthetics through an analysis of the experience of the sublime. Turning away from Kant's analysis of the sublime experience as a validation of the existence of a universal common sense, Shapiro draws on Deleuze, Lyotard, and Rancière to show how incomprehensible events and dilemmas provide openings for new political formations. He approaches the sublime through a range of artistic and cultural texts that address social crises and natural disasters, from the writing of James Baldwin and Ta-Nehisi Coates to the films of Ingmar Bergman and Spike Lee; these works suggest ways to channel the disruptive effects of the sublime into resistance to authority and innovative political initiative. Whether stemming from the threat of nuclear annihilation or the aftermath of an earthquake, the violence of racism and terrorism or the devastation of industrialism, sublime experience, Shapiro contends, allows for a rethinking of events in ways that reveal, redistribute, and create conditions of possibility for alternative communities of sense.

**An Introduction to Contemporary American Fiction** Alan Bilton, 2003-03 Don DeLillo, Paul Auster, Cormac McCarthy, Rolando Hinojosa, E. Annie Proulx, Bret Easton Ellis, Douglas Coupland, and Thomas Pynchon: *An Introduction to Contemporary American Fiction* introduces the work of a range of key American authors, all of whom can be said to engage with postmodernism. Exploring the vitality and energy of contemporary writing in light of pessimistic proclamations on the state of postmodern American culture, Bilton highlights the tension between realistic description and linguistic self-consciousness in contemporary fiction. In addition, by addressing a central problem in literary theory—its neglect of literary discussion and the practice of reading—*An Introduction to Contemporary American Fiction* is able to present a working model for reading a text theoretically. As an introductory text, it assumes no prior knowledge of the authors of the novels discussed. To encourage understanding and aid further study, the following features are included: \* GLOSSARY OF CRITICAL AND LITERARY TERMS \* BIBLIOGRAPHY OF EACH AUTHOR'S WORKS \* BIOGRAPHY OF EACH AUTHOR \* GUIDE TO FURTHER READING \* THEMATIC AND AUTHOR INDICES

Blowback Margaret Roberts, 2025-07-22 An investigative journalist reopens the unsolved mystery of John Doe 2, the Oklahoma City bombing suspect who evaded a global FBI manhunt. What if everything we know about one of America's darkest days is wrong? Tragedy unfolded on April 19, 1995, when a massive bomb exploded in America's Heartland, killing 168 people, including 15 children in their daycare center. History says the Oklahoma City bombing was lone wolf terrorism. But haunting fresh evidence points instead to a neo-Nazi plot in which the FBI played a hidden role, allowing suspects to walk free, denying justice to the victims, and hiding the truth from all of us. The FBI launched the biggest manhunt in its history for two suspected bombers and quickly arrested Timothy McVeigh, a twenty-six-year-old Gulf War Army veteran. Yet they never captured the other suspect, known only as John Doe 2, who rode next to McVeigh in the bomb truck. Soon the FBI canceled the search, saying eyewitnesses who saw John Doe 2 were mistaken. None of this rings true to award-winning journalist Margaret Roberts. As former news director of America's Most Wanted, she worked high-profile manhunts alongside the FBI. How could twenty witnesses be wrong? More troubling clues lead Roberts to reopen the mystery of John Doe 2 before the 30th anniversary of America's deadliest domestic terror attack. *Blowback* chronicles her shocking discoveries, including journalism's only face-to-face prison interviews with McVeigh co-conspirator Terry Nichols. Roberts puts the puzzle together after a whistleblower steps forward, though one burning mystery remains: The FBI has kept surveillance video of McVeigh's accomplice locked away all these years. Is John Doe 2 the FBI's guilty secret?

*Methods and Nations* Michael J. Shapiro, 2004 Shapiro seeks to bring recognition to forms of political expression that have existed on the margins of the nationhood practices of states and the complicit nation-sustaining conceits of social science.

Conversations with Don DeLillo Don DeLillo, 2005 Throughout long profiles and conversations--ranging from 1982 to 2001--the renowned author makes clear his distinctions between historical fact and his own creative leaps
