Behold! a Pale Horse Milton Cooper,2018-05-02 William Cooper turned out to be right; and that's all we have to say about his self-published Book.Let's keep copies of this treatise for our grandchildren and their children, so the spectre of corruption and perfidy that we the late 20th century generation experienced, will never occur again in seven generations.

Satanism Today James R. Lewis,2001-12-07 This authoritative reference work presents a full image of the Prince of Darkness as he appears throughout traditional theology, mythology, art and literature, and popular culture. This nonsensationalist encyclopedia examines contemporary images of the devil and sorts out the many different forms these images take. Although much of the myths relating to Satan derive directly or indirectly from the Christian tradition, the key sources of diabolical images today are horror movies, heavy metal music, and conservative Christian literature. This encyclopedia gives a brief overview depicting the history and transformation of the meaning of the Prince of Darkness, and 300 entries cover subjects like the angel of death, backward masking (messages revealed when songs are played backward), neopagan witchcraft, UFOs, and The Satanic Bible. Extensive appendixes include the 1992 FBI study of satanic ritual abuse, the most influential document ever written on the subject, as well as sample satanic scriptures and a satanic wedding ceremony. Satanism Today also includes a chronology, bibliographies, and references.

*Unholy Alliance* Bonnie Meyer,2007-03 An unholy alliance was signed between the negative aliens and the secret world government in Europe in 1572 and with the US in 1946. The secret governments knew with whom they were dealing but were not aware they were being deceived. Humans traded for alien technology Alien-provided technology used for manufacturing diseases Underground and underwater alien bases, and tunnel systems Global satellite and electronic surveillance Earth changes and weather manipulation US government has built UFOs Global impact of personal choices

**Beyond Esoteric** Brad Olsen,2024-11-14 The word occult means nothing more than to study the realm of the hidden. So much of real knowledge and wisdom is disguised because the people who run the planet feel that true information as to how the world works is something the sheeple should not be informed about. But truth always resonates! Beyond Esoteric takes off the kid gloves and exposes the nefarious control grid extending its tentacles across the planet.

Beyond the Visible: The Art of Odilon Redon Jodi Hauptman,2005 Caught between description and dream, the felt and the imagined, French artist Odilon Redon, whose career bridged the 19th and 20th centuries, transformed the natural world into nightmarish visions and bizarre fantasies. Closely allied with the Symbolist movement, Redon offered his own interpretations of literary, biblical, and mythological subjects; created a universe of strange hybrid creatures; and presented landscape in a singular way: we see grinning disembodied teeth, smiling spiders, melancholic floating faces, winged chariots, unfamiliar plant life, and velvety black or colored swirls of atmosphere. With a recent gift from the Ian Woodner family, The Museum of Modern Art is now the site of the most significant body of the artist's work outside France, and this book will showcase the full range of Redon's varied oeuvre--charcoal noirs, luminous pastels, richly textured canvases, literary collaborations, and experiments in printmaking--and will illuminate the hold his particular kind of modernism has had on both 20th-century and contemporary artists.

Motherlove in Shades of Black Gloria Thomas Pillow,2014-01-10 This book closely examines the mother figure in six works by African American women at various times in American history: Harriet Jacobs's *Incidents in the Life of a Slave Girl*, Pauline Hopkins's *Contending Forces*, Nella Larsen's *Passing*, Gwendolyn Brooks's *Maud Martha*, Alice Walker's *The Color Purple*, and Toni Morrison's *Beloved*. It studies how the mother in each novel negotiates the ragged, hostile landscape of a prohibitive environment to love, protect, and raise her children. Delving far deeper than surface explanations, it is informed by psychological analysis to reveal the forces that create the unique tensions of the African American mother's life, her inspired strategies for survival, and the character of the nurturing she gives her children.

*The New Age Primer* Various,Robert Shapiro,Glenn Phillips,Virgil Armstrong,1993 Welcome to the New Age. It is here. Now. Everywhere. From the way medicine treats the body, mind, and spirit to quantum physics and the films you see, you are noticing a changing reality. Whether you are a newcomer to this age or an adept, you will find this overview fascinating, informative, and empowering. It is a textbook designed to clarify concepts once considered alien to Western thinking. As a guidebook to expand your reality, it can change your ideas about time, space, matter, and even who you are.

*Land of Childhood's Fears - Faith, Friendship, and the Vietnam War* David Todeschini,2005-04-30 The author's experience with the Medical Civic Action Program, and the corruption and evil aspects of the war. Operation Phoenix, drugs, My Lai, and a new theory on the assassination of John F Kennedy - Transcripts of Vet's Rap Sessions, heart-breaking and heart-warming poetry, PTSD, and the decline of morality in American society since that war.

**Creators and Friends** Robert Shapiro, 1998-02-01 Humans creators in training have a purpose and destiny so heartwarming, profoundly glorious that it is almost unbelievable from our present dimensional perspective. Humans are great light beings from beyond this creation, gaining experience in dense physicality by slowing down the creative process in order to feel the results and consequences of their decisions and actions. This truth about the great human genetic experiment of the Explorer Race and the mechanics of creation is being revealed for the first time by Zoosh and his friends as humanity begins to awaken to its true nature. Zoosh and a great assortment of beings who have never spoken to the physical plane before from particles to All That Is speak vibrantly through superchannel Robert Shapiro. Each personality has its own knowing, perception and expertise as it shares its history, its present focus and the awesome truth about humanity's mission. The books read like adventure stories as we follow the clues from this creation we live in out to the Council of Creators and beyond. As we explore the greater reality beyond our planet, our galaxy, our dimension, our creation, we meet prototypes, designers, shapemakers, creators, creators of creators and friends of our Creator, who explain their roles in this creation and their experiences before and beyond this creation. As our awareness expands about the way creation works, our awareness of who we are expands and we realize that a part of ourselves is in that vast creation and that we are much greater and more magnificent than even science fiction had led us to believe. Join us in the adventure of discovery. It's mind-stretching.

**Particle Personalities** Robert Shapiro, 1998-02-01 All around you in every moment you are surrounded by the most magical and mystical beings. They are too small, of course, for you to see as single individuals. But in groups you know them as the physical matter of your daily life. They form all of your physical life as you know it. Particles - who might be considered either atoms or portions of atoms - consciously view the vast spectrum of reality, yet also have a sense of personal memory like your own linear memory. These particles remember where they have been and what they have done in their infinitely long lives. Particles, then, have a unique and unusual perspective. In reading this book, understand that some of them will have similar points of view, but others will have quite extraordinary and unexpected points of view. Expect the unexpected!

**Beyond Ascension** Joshua David Stone, 1996-12-12 This book brings forth incredible new channeled material that completely demystifies the seven levels of initiation and how to attain them. It contains revolutionary new information on how to anchor and open our thirty-six chakras and how to build our light quotient at a rate of speed never dreamed possible. The book includes a chapter on cosmic ascension and a unique cosmic map that outlines the process of planetary ascension. The map also charts the course for full cosmic ascension through the seven cosmic planes and forty-eight dimensions of reality back to the Godhead and undifferentiated Source.

**UFOs and Water: Physical Effects of UFOs on Water Through Accounts by Eyewitnesses** Carl W. Feindt, 2016-02-23 UFOs have approximately 75% of this planet in which to operate undetected. Adding another piece to the puzzle From dissimilar puzzle pieces supplied by ufologists throughout the years of UFO history, a picture is starting to take

shape. Ufologist Carl Feindt has not only contributed his own small piece, but he has also connected many of the previous pieces to form an enlightening and highly plausible theory. Feindt's studies concern Unidentified Flying Objects (UFOs) that enter and exit the dense medium of water. This aspect aroused his curiosity, because while we humans do not understand alien science, we do know our water. This book contains cases from just about every type of body of water, from puddles to oceans. It opens a long-overlooked door to discover the operating principles of UFOs by closely observing water's reaction to these craft and finding similarities among cases involving water.

Zero Point (Faster than Light Speed) J. Lawrence Parry, 2023-02-13 Zero Point - Faster Than Light Speed: is intended for men and women in all walks of life who are striving to understand the UFO phenomenon and recent developments which are about to appear on our near future horizon. We are going to need to know where and how to react to these changes. If you look a little at TV, for example, you can see that 'ETs' are making their way slowly into our lives. Our children's cartoons are a good example. This book will expand your mind and possibly your lives when you fully understand how really far we've come in the last 50 + years. Next time you see a Tic Tac zooming on a news report and you hear the old cliché We don't have anything that travels that fast! Or, How do they turn like that at such high speeds You'll realize someone is definitely not telling the truth. In the very near future, you will be able to see, in everyday life, the type of Hover board used by Michael J. Fox in the film Back to the Future 2. Our cars and trains will even be hovering and super cool electrical like we've only dreamed. No more roads, no more gas, no more heavy trucks or busses tearing up the pavement. We need to start planning on how to take advantage of all the new technology our near future will provide. Think about Zero Point as a simple glimpse of the future, whereby you may master your future instead of allowing the future to dictate to you. Thank you, J. Lawrence Parry

**Explorer Race and Beyond** Robert Shapiro, 2012-07-01 In our continuing exploration of how creation works, we talk to Creator of Pure Feelings and Thoughts, the Liquid Domain, the Double-Diamond Portal, and the other 93 percent of the Explorer Race. We revisit the Friends of the Creator to discuss their origin and how they see the beyond; we finally reach the roots of the Explorer Race (us!) and find we are from a different source than our Creator and have a different goal; and we end up talking to All That Is!

Beyond the Rainbow Judy Kennedy, 2004-07 A definitive spiritual handbook and political manifesto for the new millennium. A magical, practical journey into multidimensional reality; deeply revealing, refreshing, and transforming for all seekers on the Path.

**Conspiracy Cinema** David Ray Carter, 2012-09-28 The only guide to this emerging genre of cinema. Still marginalized by mainstream media, conspiracy theories are a growing influence on the contemporary political imagination, thanks to internet distribution of conspiracy cinema - documentaries presenting conspiratorial explanations everything from 9/11 to the

Kennedy assassinations, Roswell to the causes of HIV. One hundred million people around the world have watched one of these films and this is the first book to explain and explore what they are seeing. Lighthearted, funny, and interactive, this is the definitive and only guide to this intriguing and immensely popular form of modern entertainment.

Jewish Space Lasers Mike Rothschild, 2023-09-19 With the current rise of antisemitism, this important book looks at how one Jewish family—the Rothschilds—became a lightning rod for the conspiracy theories of the last two centuries, and how those theories are still very much alive today. In 2018 Congresswoman Marjorie Taylor Greene took to social media to share her suspicions that the California wildfires were started by ‘space solar generators’ which were funded by powerful, mysterious backers. Instantly, thousands of people rallied around her, blaming the fires on “Jewish space lasers” and, ultimately, the Rothschild family. For more than 200 years, the name Rothschild has been synonymous with two things: great wealth, and conspiracy theories about what they're really doing with it. Almost from the moment Mayer Amschel Rothschild and his sons emerged from the Jewish ghetto of Frankfurt to revolutionize the banking world, the Rothschild family has been the target of myths, hoaxes, bizarre accusations, and constant, virulent antisemitism. Over the years, they have been blamed for everything from the sinking of the Titanic, to causing the Great Depression, and even creating the COVID-19 pandemic. *Jewish Space Lasers: The Rothschilds and 200 Years of Conspiracy Theories* is a deeply researched dive into the history of the conspiracy industry around the Rothschild family - from the pamphlet wars of Paris in the 1840s to the dankest pits of the internet today. Journalist and conspiracy theory expert Mike Rothschild, who isn't related to the family, sorts out myth from reality to find the truth about these conspiracy theories and their spreaders. Who were the Rothschilds? Who are they today? Do they really own \$500 trillion and every central bank, in addition to “controlling the British money supply?” Is any of this actually true? And why, even as their wealth and influence have waned, do they continue to drive conspiracies and hoaxes?

*Path of the Mystic* Ai Gvhdí Waya, 1997-05-01 Our best teachers are inside ourselves. Ai Gvhdí Waya shares her own journey through Native American stories of her discovery “and how you can access th emany teachers, too. Learn how to trust your own knowing and follow your heart. Walk the path of the mystic and understand how you can do that on a daily basis. Being a mystic gives us the opportunity to transform from chrysalis into butterfly. This gift is available to all of us.

Valley Animals Brooks Firestone, 2010-10-28 The animals of Santa Barbara County's Santa Ynez Valley are plentiful and varied. Some fly, some swim, some slither; others gallop, or trot, or ride in the back of pickup trucks. Some are wild and others domestic; some are workers while others are pets; there are prize winners and there are bandits; many of the animals are beautiful and friendly, whereas others are beautiful and dangerous. The Valley is home to meadowlarks, condors, and ostriches; cattle, sheep, and alpacas; polo ponies and work horses; prize-winning cattle, goats, and swine; dogs and coyotes; cats and mountain lions; elands and even an elephant. Brooks Firestone, who has lived in the Santa Ynez Valley for over thirty-five years, knows the animals well. He has ranched with them, lived with them, laughed at their antics, and marveled at

their beauty. Now he has written a book about them: dozens of stories about his encounters with his animal neighbors, as well as retold tales heard from his human neighbors. These stories cover a wide range of emotional territory, from hilarious (a parade of dogs gossiping about their human companions) to heart-wrenching (prized and treasured horses lost in a tragic barn fire) to beautiful and inspired (a flock of migrant geese waking up after spending the night in a foggy meadow).
